SUGAR FROM CHINESE CANE.—The Chicago Press says that sugar has been made without Judge Caton of Ottawa, and Mr. Andrews of Chicago. They think there is but little difficulty in causing the sirup to granulate money out of another man's letters. He patented by Mr. Wray. Everywhere the manufacture of sirup has been a perfect success. Nobody has failed who has conducted the experiment with any sort of care, and flavor to maple sirup or to the best produced at the large sugar houses. It is also proved that the cultivation of cane for this purpose upon the prairies may be made as profitable as almost any other crop. It is as easily grown as corn, costing probably not one half per acre what it does to grow the common sugar-cane in Louisiana.

RELIC OF THE CENTRAL AMERICA .- It is stated that last week a body was picked up on the Atlantic beach, a little to the north of Cape Hatteras, having a belt around it containing gold dust. No doubt it was the corpse of one of the passengers of the illfated Central America. Other dead bodies have been seen floating in the neighborFights and Murders in Memphis.

The Memphis papers of the 22d inst., are hideous with accounts of bloody fights and murders in that city. A man at the Fair ground managed to let his horse become unmanageable and to run over and hurt a woman and two children. He stopped his horse and was about to get out of his buggy and apologise, when some one stepped forward and gave him a blow with a cane. He drew a knife and ran up to the crowd, asking who struck him. A man named Butler avowed himself the man, which, however, he was not, and drawing a pistol, it went off by accident, and shot in the stomach and fatally wounded the man who had knocked the fellow out of the buggy. The man killed was named Mason. The one who had started the row by running over the woman and children, was a Mr. Lewis. On the evening of the same day, there was a dispute between two men, names unknown, and one plunged a knife into the other. About eight o'clock on the same night, at the Commercial Hotel, Dr. Frank Gibbs and one Keene got into a dispute, and from that into a fight, Gibbs stabbing Keene with a bowie knife three times, and killing him at once. Keene was waiting to receive his wife and children who had been placed on a steamer at Evansville, expecting to meet him at Memphis. The night before this tragedy, at the same house, D. Cochrell, Esq., of the hotel, and a Dr. Hooks had an affray, in which they wounded each other with canes, and cut with knives for a time, when Cochrell shot Hooks with a pistol, giving him a dangerous wound in the

SIMPLICITY OF ENGLISH DRESS .-- In the families of many of the nobility and gentry of England, possessing an annual income which of itself would be an ample fortune, there is greater economy of dress, and more simplicity in the furnishing of the dwelling than there is in many of the houses of our citizens, who are barely able to supply the wants of their families by the closest attention to their business. A friend of ours, who sojourned not long since, several months in the vicinity of some of the wealthy landed aristocracy of England, whose ample rent rolls would have warranted a high style of fashion, was surprised at the simplicity of manners practiced. Servants were much more numerous than with us, but the ladies made more account of one silk dress than would be thought here of a dozen. They were generally clothed in good substantial stuffs, and a display of fine clothing and jewelry was reserved for great occasions. The furniture of the mansions, instead of being turned out of doors every few years for new and fashionable styles, was the same which the ancestors of the families for several generations had possessed-substantial and in excellent preservation, but plain, and without any pretensions to elegance. Even the carpets, on many suits of parlors, had been on the floors for fifty years, and were expected to do service for another half century.— With us how different is the state of things! We are wasting an amount of wealth in this country, on show and fashion, which, if rightly applied, would renovate the condition of the whole population of the world, and christianize, civilize and educate all mankind.—Calender.
