for The Danville Democrat says: We saw a farmer with a fine four horse team in town, moving two families to his farm, intending to keep them during the winter, and, in return make use of their labor to improve his estate. The iron establishments are nailed up for the winter.

A New Way To Get RID of Tenants.—Bridget M'Intyre, of Central Falls, R. I. died some days since from the effects of fright and smoke, caused by the landlord of the building in which she lived having stuffed the chimney with straw to smoke his tenants out. They had a whistling match at a house in Harris-

burg, recently. The darkies commenced at half past seven and whistled until fifteen minutes before ten, when one of them "gin in." A person present says he never heard such infernally shrill whistling in his life; no body could sleep in the neighborhood.

POPULATION LEAVING.—The laboring population (says the Miners' Journal) of Schuylkill county, are leaving that region by hundred, principally for the West. On Monday the 19th, no less than seventy tickets were sold at the railroad depot for Pittsburg. From Ashland upwards of fitty left a few days after.

"KEEP YOUR FEET WARM AND YOUR HEAD COOL," is the advice of a man who fully understood the importance of following the rule. It is notoriously true that neglect to keep the feet warm and comfortable, causes more disease and misery than ruin and famine combined. Keep your feet cold and damp, and sickness is inevitable.

Bank officers take people's money on deposit, hoping to be able to pay it back when called for, but, if unable they suspend. Many Wheeler, a poor girl in Boston, took two shawls and pawned them to raise half a dollar, hoping to be able when times got easier to redeem them and return them to the owner. The Court, however, sent her to the Penitentiary. The trial of William Williams for the murder of

baniel Hendricks, terminated at Harrisburg on Saturday last, in a verdict of guilty in the first degree. Hendricks, wried, a galvinized copper watch which Williams was anxious to have, and to secure which he induced Hendricks or go into the woods with him where he brutally murdershim and took the watch and returned to his family. The prominent citizens of New York are organizing

into ward committees for the purpose of breaking up disorderly houses, driving burglars, thieves, mur levers, catchroats and assassins out of the city. Better 'stretch' them than drive them out to annoy the good citizens of the country, or disturb other cities worse than they are by their already large share of the desperately wicked.

Deconcy is a matter of latitude. In Turkey a man with tight pants on is considered so great a vulgarian that he is not tolerated in respectable society. To spit in the presence of an Arab is to make the acquaintance of a cheese knife. In Russia, that man is considered low who refuses a warm breakfast of fried candles. In this country, vulgar people are such as keep good hours, and live within their income.

NEWSPAPER BLANKETS.—The Newport Mercury gives forth the following suggestion:—Take a number of old newspapers, and past them together until you have a spread large enough for the bed, and this place under an outer quilt or spread, when it will be found to act like a charm." Papers published during an exciting political campaign, would, perhaps, answer a better purpose than those published after an election.

IMPUDENT THIEF.—The Berks County Press tells a story of a market man in Reading, who, while sleeping in his wagon, with his legs sticking out "a feet" beyond the tail board, was robbed of a new pair of boots by an enterprising thief, who adroitly removed them from his feet, while he was snoring in perfect unconsciousness of the theft.—The victim was vastly astonished and indignant, as may be supposed, at this sort of sharp practice.

The following are the official aggregate of the popular vote of the late State election, as compared with the Presidential vote of 1856:

TEXAS CATTLE.—A Mr. Wheat, of Lockhart, Texas, thinks the Texas cattle trade is one of the most profitable now carried on. He purchased 500 head in Texas, at an average of \$12 per head, and sold them at Chicago in Angust to a packer at an average of \$37 per head. He started with a drove in April, and reached Chicago in October. He had only seven men with him, and lost but eight or nine head. He presed the cattle all along the route, the grass being nearly a foot high. He passed through the Choct a country, and was treated kindly by the Indians.

The CAUSE of the Texas of the Chock some gening who is at THE CAUSE OF OUR TROUBLES,—Some genius who is at the CANE of the Includes.—Some gennes with 1st home in figures, has been everhauling the statis ics to find one, it possible, the cause of the present high price of provisions. He finds that the productions of 1876 were one-such less in proportion to population, than they were in 1840. The fact is, two-thirds of the eastern men who go west plunge madly into land speculation, and friget to put in the necessary crops for even their own support.— Until we all turn our attention to useful occupations, and lock up speculators and dishonest bank officers in State prisons, the country cannot prosper as it should.

prisons, the country cannot prosper as it should.

Locals.—Trade in corn, brisk; cash scarce; organ grinder in town yesterday but could'nt grind out pay 'dust,' our people's pockets were either froze up or empty; chickens ready sale at 12½@15; Thanksgiving is expected here to-morrow, have no turkey; the country folks keep our streets pretty well crowded—with money in our pocket there is no danger of starving—but to put money there is the trouble, still we have not heard of any one in our midst, starving; our merchants want more customers, cash not refused; the b'hoys are conducting themselves pretty well, we have known then to behave much worse. LARGE SHIPMENTS OF GRAIN.-The New York Journal of Commerce publishes a statement showing the number of ships which have loaded with grain and sailed from that port, or will sail, during the present month, for Europe. The aggregate quantity of grain included in the statement is about 1,000,000 bushels, of which say twothirds is in bags and the remainder is in bulk. Last year, in November, while the extraordinary shipments of grain were taking place, the number of grain vessels which left New York was but forty-one, whereas it is calculated that not less than sixty-one will sail before the present month

expires.

Damages for Slander.—In the District Court at Pittsburg, a few days since, a young lady of that city obtained a verdict of \$1300 against a well known dry goods merchant, for having falsely accused her of defrauding him of a pair of corsets, and publicly insulting her in consequence. She had taken them home to try on, but they did not fit, and she sent them back by two children of the family, at the same time taking an omnibus for the railroad depot, where the merchant met her and charged her with attempting to leave the city without paying for or returning the corsets. When the merchant returned home he found that the corsets had been returned.

he found that the corsets had been returned.

BAITIMORE.—Nov. 21.—At night the police are never seen patrolling their districts; they never have during the present administration, obeyed the directions given them, and the resulting consequences are to be seen in the number of assaults, robberies, assassinations, &c., that crowd the columns of our daily pupers. Now, that the political excitement is over, and the clubs have to sustain themselves, most of them have become pickpockets, incendiaries and prowling thieves. Every day records their depredations on property, by burning and otherwise destroying, along the roads leading to the country towns in the vicinity of the city. The farmers in the neighboring counties have formed themselves into squads, and are armed for their own protection.

How to Select Flour.—1. Look at its color, if it is white, with a slightly yellowish or straw colored tint, it is a good sign. If it is very white, with a flush tint, or with black specks in it. the flour is not good. 2. Examine its adhesiveness; wet and knead a little of it between the fingers; if it works dry and elastic, it is good: if it works soft and sticky, it is poor. Flour made from Spring wheat, is apt to be sticky. 3. Throw a little dry flour dust against a dry, smooth, perpendicular surface; if it falls like powder, it is bad. 4. Squeeze some of the flour in your hand; if it retains the shape given it by the pressure, that, too, is a good sign. Flour that will stand all these tosts is safe to buy. These modes were given by old flour dealers, and we make no apology for publishing them, as they pertain to a matter that concerns everybolsy, namely, the quality of that which is the staff of life.—[Ohio Farmer.]

Line upon Line--Here and There a Little. Important News from Europe--Arrival of the Atlantic.

New York, Nov. 22.-The steamship Atlantic arrived this evening, with Liverpool dates to Wednesday, the 9th inst, and the Kangaroo on the 11th inst.

The news brought by the Atlantic is very important. It embraces late advices from India, and the progress of the financial crisis. The stringency in the money market continued unabated, and the Bank of England has again advanced the rates of discount 1 per cent., making the present rate 10 per cent.

The latest advices from Liverpool announce that the City Bank of Glasgow stopped pay-

ment on Wednesday morning.

Messrs. Dennistown & Co. have failed; their liabilities are estimated at £2,000,000. Also the Western Bank of Scotland, with deposits amounting to £6,000,000, and Babcock & Co., Liverpool and New York, whose liabilities amount to £300,000 sterling. Several other failures are announced with liabilities of smaller amounts.

Later advices have been received, confirming the capture of Delhi. The garrison at Lucknow had been relieved by Gen. Havelock just as the enemy were ready to blow it up. A large portion of the city had also been captured. Gen. Neil has been killed.

The King of Delhi has surrendered to the British troops, and his life has been spared. His two sons were shot.

The Manchester advices are unfavorable. The failure of Messrs. Dennistown & Co., occurred on the 7th inst., but did not transpire till after the sailing of the Saturday steamer. This firm was the heaviest house in Great Britain, connected with the American trade. The principal kouse was located at Glasgow, but there were branches in London, Liverpool, New York, New Orleans, and Melbourne, but the Australian house is not compromised by the suspension. The cessation of American remittances, was the sole cause of the suspension, which will probably be but temporary, as the private resources of

the partners are very large.

The Western Bank of Scotland, at Glasgow, which had also suspended, had a paid up capital of £1,500,000, and deposits forming an aggregate of £6,000,000, The business of the Bank was immense, as it had one hundred branches in Scotland. The proprietory mempers are very wealthy, and no eventual loss is apprehended,

LATER FROM INDIA.—Telegraphic advices in advance of the overland mail have been received in London, a fortnight later than the previous intelligence. The city of Delhi was in complete possession of the British on the 21st of September. Gen Nicholson had died of the wounds received in the assault.

Liverpool Breadstuff's Market.—LIVERPOOL, Nov. 10th.—The market has been very dull and all descriptions have declined. Messrs, Richardson & Spence's Circular quotes Flour as dull at 6d. (als. decline and difficult to sell even at that. Wheat is quiet at 2d. (ald.) less; middling and lower qualities being most affected. Corn is also dull, at 6d. decline .-The following are the current quotations: opposite Miller's Hotel, Huntingdon, Pa., where the very Flour, Western Canal, 26s. 6d. 627s. 6d; best assortment of goods for men and boys' wear may be Philadelphia and Baltimore, 27s. @28s. 6d; Ohio, 29s. ## Sound Views.

It is high time that the business of secret, partial and corrupt banking should cease. It is time that the losses to labor in the midst of universal prosperity, plenty, and peace, as a result of failing banks, should be ended.

Every paper dollar should be represented by a single dollar, and every man who wants to open a bank should do so, just as he now opens a store-his own means, credit, and character being his capitol, and the law be-

ing his restraint. If there must be paper, let us have it on these terms. They would not be regarded as harsh among men of business. They should not be regarded as hard upon the banks; and especially now, that, for fifty years, the banks have had their full share of the people's money. Let us consider these notions at any rate. They cannot be worse than those which have failed.

The country never was in better condition. as to all natural advantages, than now. If the banks fail, crops do not fail. If suspensions of specie payments occur, there are no suspensions of the rewards of the seasons .-Our state credits are intact. Our United States securities are sought after in all the markets of the earth. There is no emidemic desolating the land. The banks alone have filled the country with lamentation and woe. This is the time to consider whether they can be amended or left to die out entirely.

No Banks.-No-bank feeling has a much larger development in the United States than is generally believed. There are no chartered banks, or banks of issue, in Florida, Arkansas, Mississippi, California and Texas; and Oregon has just had presented to her a State Constitution adopting the same principle.— The population of these regions may be named thus:

PHILADELPHIA MARKETS.

Saturday, Nov. 21.—The Flour market is rather more active to-day, sales comprising some 850 bbls standard superfine at \$5 25; 300 bbls of a better brand at \$5 31¼; 500 bbls straight on terms kept private, and 800 bbls extra at \$5 62½@\$5 87½ 7 bbl, the latter for a choice brand. The receipts are large and holders are free sellers at the above rates. The home demand is moderate at from \$5 25 up to \$76\$7 50 % bbl for common to extra and fancy family brands, as in quality. Corn Meal and Rye Flour are quiet and prices about the same.

GRAIN—In Grain the receipts and sales are moderate without any material change in quotations. Some \$6000 bushels Wheat have found buyers at 123@125c for fair to prime reds. and 130@135 for white, mostly of the latter description afloat. Rye is scarce and wanted, and further small sales of Pennsylvania are reported at 75c. Corn continues in good demand, with sales of 2@3000 bushels Southern Yellow at 80c for old and 60@62c for new, as to condition, and 1,300 bushels old white also sold at 80 afloat. Prospectus of The Dally Glode, and The Congress will Glode and Appendix, to remind subscribers, and inform those who may desire to subscribe, that Congress will meet on the first Monday of next December, when I shall recommence published so long, that most public men know their character, and therefore I deem it needless to give a minute account of the kind of matter they will contain. The Daity Globe will contain a report of the Debates in both branches of Congress as taken down by reporters equal, at least, to any corps of short-hand writers in this, or in any other country. A majority of them will, each, be able to report, rerbatim, ten thousand words an hour, while the average number of words spoken by fluent speakers rarely exceeds seven thousand five hundred words an hour. When the debates of a day do not make more than forty columns, they shall appear in the Daily Globe of the next morning, which will contain, also, the news of the day, together with such editorial articles-as may be suggested by passing ovents.

It is also my intention, from time to time, as occasion may require, to publish my reminiscences of the public men with whom I have been associated during the last twenty-eight years. Anecdotes of General Jackson, and the leaders of the party which he conducted, and the leading men of other parties, will, I believe, be interesting now when partisan bitterness has abated.

In becoming the reporter of the debates of Congress, I deemed it proper to say that the Globe would never be a partisan paper. This pledge will not be forfeited by introducing as a contribution to history the political traits of character which distinguished the public men of my time. Although I am, and intend to remain, a thorough Democrat, I will never obtrude my principles in a way to make them obnoxious to any party. But in regard to persons and events which go to make up history, I hope to make the Globe and honest memoir; and with that view I am resolved to speak independently of all parties.

TO INVALIDS .- Dr. Hardman, Analytical Physician.—Physician for Diseases of the langs, Throat and Heart—Formerly Physician to the CINCINNATI MARINE HOSPITAL. Also to Invalids Retreat. Author of "Letters to Invalids, IS COMING! See following Card.

DECEMBER APPOINTMENTS. R. HARDMAN, Physician for the disease of the Langs, (formerly Physician to Cincinnati Marine Hospital,) will be in attendance at his rooms

Huntingdon, "Jackson's Hotel." Tuesday, December 15. Dr. Hardman treats Consumption, Eronchitis, Asthma, Dr. Hardman treats Consumption, Bronchitis, Asthma, Larryngittis and all diseases of the throat and lungs, by Medical Inhalation, lately used in the Bromton Hospital, London. The great point in the treatment of all human maladies, is to get at the disease in the direct manner.—All medicines are estimated by their action upon the organ requiring relief. This is the important fact up a which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach, of If the lungs are diseased breather or inhale predicated graves directly into eased, breathe or inhalo medicated vapors directly into the lungs. Medicines are antidotes to disease and should be applied to the very sent of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells, and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted and other diseases of the langs, have never been approached in a direct manner by medicine. They were intended to act upon the lungs, and yet were applied to the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutionally, expending their immediate and principal action upon the unoftending stomach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feellest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or

business of the patient.

Other Diseases Treated.—In relation to the following diseases, either when complicated with lung affections or existing alone, I also invite consultation, I usually find them romptly curable. Prolapsus and all other forms of Female Complaints, Ir-Palpitation and all other forms of Heart Disease, Liver Complaints, Dyspepsia, and all other diseases of stomacl and howels, &c.

All diseases of the eye and car. Neuralgia, Epilepsy, and all forms of nervous disease.

S. D. HARDMAN, M. D. 199 No charge for consultation.
