December 30, 1857. TO INVALIDS .- Dr. Hardman, Analytical Physician.—Physician for Diseases of the Lungs, Throat and Heart—Formerly I hysician to the CINCINNATI MARINE HOSPITAL,

Also to Invalids Retreat, Author of "Letters to Invalids" IS COMING! See following Card. FEBRUARY APPOINTMENTS.

as follows:

Lewistown, National Hotel, "17.
Dr. Hardman treats Consumption, Bronchitis, Asthma, Larryngittis and all diseases of the throat and lungs, by Medical Inhalation, lately used in the Bromton Hospital, London. The great point in the treatment of all human maladies, is to get at the disease in the direct manner.—All medicines are estimated by their action upon the organ requiring relief. This is tho important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs. Medicines are antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to the streatment of the lungs, and application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells, and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they have never been approached in a direct number by medicine. They were intended to act upon the lungs, and yet were applied to the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutionally, expending their immediate and principal action upon the unoffending stomach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or

business of the patient.

Other Discases Treated.—In relation to the following discases, either when complicated with lung affections or existing alone, I also invite consultation, I usually find them promptly curable.

Prolapsus and all other forms of Female Complaints, Irregularities and Weakness.
Palpitation and all other forms of Heart Disease, Liver
Complaints, Dyspepsia, and all other diseases of stomach

All diseases of the eye and ear. Neuralgia, Epilepsy, and all forms of nervous disease.

PROSPECTUS OF VOLUME V.

THE STUDENT AND SCHOOLMATE; A Monthly Reader for Schools. Edited by N. A. Calkins.
Associate Editor—A. R. Pope.
"NO SCHOOL OR FAMILY SHOULD BE WITHOUT IT." "NO SCHOOL OR FAMILY SHOULD BE WITHOUT IT."
As a Monthly Reader for Schools, this work has been extensively introduced into Schools in nearly every State in the Union, and it comes to them with something new and interesting each month, to awaken fresh interest in the reading exercises. Thus it supplies wants long felt by teachers. Try it in your school.

Besides popular articles in the Natural Sciences, History, Biography, Travels, Stories, Poetry, Discoveries, and the Arts, it contains, for Reading Exercises, Declamation and School Exhibitions, Original Dialogues, and New Speeches, with marks for emphasis, tones, inflections, and gestures. The Teacher's Desk is devoted to suggestions and hints to Teachers, Purents, Pupils, and to important items of valuable intelligence.

able intelligence.

Our Museum is supplied with an interesting collection

of the rare, curious and amusing in literature and art; together with puzzles, enigmas, charades, questions, anecdotes, &c.
This Magazine intimately unites the lessons and exercises of the School with those of the Family, and thus becomes an invaluable aid to stimulate youth to self-improve-

ment.

It is published monthly, containing 36 octave pages in each number, amply illustrated, forming a large and valuable yearly volume of nearly 440 pages.

American Pionos, and an honor to the skilful manufacturer. There is no doubt but they will be appreciated by the public and all admirers of true merit.—Oscar Cometlant.

The treble is clear, pure, powerful, and very melodious, the base is deep, rolling, and sonorous: the middlepart is rich, and sympathetic, and possessing the power of singing, i. e. of uniting the sound of each tone, in a degree but rarely achieved."—Henry C. Witson.

For power of tone, depthof bruss, and brilliancy of treble, together with accuracy of touch, they are equal to any make I am acquainted with, and I cordially recommend them to those wishing to purchase.—V. C. Taylor.

"Our friends will find at Mr. Waters' store the very best asortment of music and of planos to be found in the best asortment of music and of pianos to be found in the United States, and we urge our southern and western friends to give him a call whenever they go to New York."

—Graham's Magazine.

"We consider them worthy of special attention, from the resonant and exceedingly musical tone which Mr. Waters has succeeded in attaining."—N. Y. Musical World and Times.

"There is one which, for beauty of finish and richness and brilliancy of tone, equals, if it does not excel, any-thing of the kind we have even seen. It is from the establishment of Horace Waters. Being constructed of the best and most thoroughly seasoned material, and upon improved principles, it is capable of resisting the action of the climate, and of standing a long time in tune.—Sarannah Republican, Savannah, Ga." Waters' pianes and melodeons challenge comparison with the finest made anywhere in the country."—Home

The general character of the Scientific American is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and Notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the Scientific American to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combating and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopædia of Useful and Entertaining Knowledge.
