Some of our subscribers, supposing this forged "puff" to be a genuine commendation by us of what the election of James Buchanan to the Presidency, would be a triumph of the principle of popular sovereignty over that of Congres sional interference; that he would insist upon fair play in Kansas; that the election frauds and certificates would be crushed; that Lecompt complete the nature forged in the Leggen that Lecompt in the principle of popular sovereignty over that of Congres is onal interference; that he we will be a

A NEW DEMOCRATIC PAPER AT HARRISBURG. -We have received several numbers of a new Democratic paper, the Daily Herald, published at Harrisburg, by ROYAL & McREY-NOLDS. APPOINTMENT BY THE GOVERNOR .- Edwin C. Wilson, Esq., of Venango county, Adjutant General of Pennsylvania, in place of Thomas J. Power, Esq., resigned.

#### The Question at Issue.

The distinguished Representative from Illinois, the Hon. Thomas L. Harris, in his letter to the recent meeting at National Hall, Phila., enunciated one truth which ought particularly to strike the attention of the whole country. In the writer's eloquent language it is thus expressed:

"The struggle in which we are engaged has a more extensive application than to the Territory of Kansas. The principles for which we contend are to be applied in all places, and through all time. It is not, in any sense, a strife between the North and South—between African slavery and its enemies, although the array of parties in Congress would, at first view, seem to indicate. It is a question which involves the whole doctrine of popular liberty—the liberty of white men. In that sense alone am I engaged in it."

DEMOCRATIC SENTIMENT IN OLD LYCOMING. -A Mass-Meeting of the Democracy of Lycoming county, was held on the 6th inst., and the following with other resolutions, were adopted with great enthusiasm:

Resolved, That it was promised and expected by the the Democracy of this country that the election of James Buchanan to the Pres-

Constitution, would be a violation of the principles and pledges of the Democratic party; in direct conflict with the Cincinnati platform, the Kansas Nebraska act, the inaugural address of the President, the promises made to the people in 1856, and present public opinion; because it is notorious that said Constitution is not the work of the citizens of that Territory, nor has it been sanctioned by a organ of our State administration, as it is the majority of them, but is a bantling conceived in sin and brought forth in iniquity.

> SOMERSET COUNTY .- That fearless Journal of the people, the Somersct Democrat, of the 10th inst., speaking of the President's last nessage, says :--

"There are no additional facts communicated, nor no new arguments produced by the President, calculated to change our views upon this momentous question. We have from the first regarded the Constitution formed A PARADISE OF DEBTORS.—A bill has been | at Lecompton as a base swindle and a usurpation of the grossest character, and as such we shall resist it to the last. The whole conintended to stimulate immigration into the trivance, from the beginning to the end, is a fraud so palpable, so gross, so unmitigated, that it is matter to us of utter astonishment that it has its friends among the party that prides itself in being in favor of 'popular sovereignty' and of the 'will of the majority.' we may expect that the State will be settled We do not exaggerate when we say, that at least four-fifths of the Democracy of this county, differ with the Administration on this question, and will never be fully reconciled to edly, we will announce him as left for Minne- the gross outrages that have lately been inflicted upon the people of Kansas, unless a fair opportunity is allowed them of expressing their sentiments in regard to this infamous bantling of the Lord John Calhoun, which was 'conceived in iniquity and brought forth in corruption."

Sepoy Atrocities .- We have been assured ov a medical friend, says the Medical Times, that he has been couse ted by a lady who has years old, has neither hands nor feet; they were all cut off by the mutineers. How the child survived is a mystery. The governess to this family escaped with the loss of her ears, which were cut off as an easy way of getting her ear-rings. Another friend is attending a lady whose nose has been split open, and her ears have been cut off. She has brought home to England three young children, all blind. Their eyes have all been gouged out by the Sepoys. We have heard from another source, quite beyond question, (a lady who speaks from personal knowledge,) that there are several ladies now in Calcutta, who have undergone such unspeakable degradation that they obstinately refuse to give their names. They prefer being thought of by their relations in England as dead. There are also in Calcutta several young children whose names are quite unknown. One little creature says she is "Mamma's pet;" and cally known in Washington that he has writ- that is all we are over likely to know of her past history.

ted a petition of citizens of Bucks and Philadelphia counties, representing:

"That they are subject to trouble, inconvenience and expense, on account of a continual influx upon them of fugitive slaves and manumitted negroes from other States. Fugitives are pursued to this State and their reclamation Is sometimes attended with mobs, and always with a degree of excitement, in violation of the quiet of the people and the peace and dignity of the Commonwealth. Old and broken down negroes, set free by their masters on account of their utter worthlessness, seek our shores only to become a public charge or a prey upon individual charity; others, still more objectional, commit petty and attrocious crimes, occupy the time of our courts, and fill up our jails and penitentiaries, and thus in various ways increasing the already enormous burthen of our tax payers. We therefore respectfully urgs upon your honorabe bodies, the necessity of a general law prohibiting negroes and mulattoes from coming into our State with a view of acquiring a residence."

The subject has engrossed the attention of the citizens of the Commonwealth for some time and although the present movement is | Douglas promises to be one that will cover circumscribed, it may have the effect of awakening the public mind to the importance of logislation to meet the case.

Elihu Burrit, commonly called the "Learned Blacksmith," addressed the people on the subject of a compensated emancipation of slavery, on Wednesday evening. His plan, which he ably advocated, to rid our country of slavery, was to apply the proceeds of the sale of the public lands to the purchase of the slaves by States, as rapidly as the States

were willing to enter into the arrangement. The Philadelphians are wild on the subect of passenger railways. The experiment has been tried in the city of Penn and proved successful. This success has induced many persons to endeavor to form companies and obtain charters for the construction of roads in other parts of the city. Several bills have been presented embodying the desire of the applicants, and the friends of the enterprize are here in "plentiful" number to urge their

Washington, Feb. 14, 1858. The programme has been made out for the passage through the Senate at an early day of the Lecompton Constitution, and an accompanying bill for the admission of Kansas into the Union as a State under it. This week the Committe on Territories of that body, to which the special message of the President on the subject was referred, will make a report embodying the recommendations of that message. Judge Douglas is preparing a minority report. This document from Judge the entire ground, embracing a succinct but accurate history of the admissions of new States, the facts and circumstances surrounding these admissions, the principles involved, and the principles that prevailed and have grown into precedents by repeated recognition, beside an expose of the Kansas question

as it has progressed through its various stages. It will publish the position in which edly will be the record for his future political career, its statements and conclusions will be weighed well and clearly enforced. The argument of the friends of Lecompton for the hasty action which they design, is that there are questions of vital importancethe Utah question, our foreign relations, as well as many others-demanding the attention of Congress, and that to get to them this met with the argument in opposition, that nothing can more vitally affect our existence, as a Union of States than a departure, howas fairly expressed, shall be obeyed. Then will arise perplexing questions; perplexing, however, only to some members, for Speaker Orr will not mince matters when the moment arrives for the decisions from the chair to settle mooted points of order. This must be evident from his appointment of Harris's committee, where, when a majority expressed itself for an investigation, the specticle was presented of a committee with a majority against an investigation, who themselves voted against an investigation; and where the a great question, dividing public sentiment, of a chairman who voted with a majority appointed with a majority on the committee

Calhoun is giving here, in person, an exhibition of his ingenuity. It is said that the returns of the elections in Kansas are in the good carnest and considered and passed a department, but if they are, nobody that I have seen yet has had an opportunity to inspect them. The truth is that the impression begins to prevail that he, instead of being in Kansas discharging any duties that were devolved upon him by the Lecompton Convention, is here with all the returns, ready to and make them conform with transpiring
