THE GREAT LIBRARY OFFER.—AGENTS GETTING

RICH!!!!

The union of Emerson's Magazine and Putnam's Monthly
has given to the consolidated work a circulation second to
but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other Magazine in the world. During the first month, the sale in the trade and demand from
subscribers exceeded 90,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the richness of their literary
contents, and the beauty and profuseness of their pictorial
illustrations, any magazine ever before issued from the
American press. Eucouraged by these evidences of favor,
the publishers have determined to commence the new volume in January with still additional attractions, and to
offer such inducements to subscribers as cannot fall to
place it, in circulation, at the head of American magazines.
With this view they now announce the following splendid
programme. They have purchased that superb and costly
steel-plate engraving.

"THE LAST SUPPER,"

and will present it to every three-dollar subscriber for the
year 1858. It was engraved at a cost of over \$5,000, by

programme. They have pinchased that superband costly steel-plate engraving.

"THE LAST SUPPER,"
and will present it to every three-dollar subscriber for the year 1858. It was engraved at a cost of over \$5.000, by the celebrated A. L. Dick, from the original of Raphael Morghen, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings.

The first impressions of this engraving are held at ten dollars, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than five dollars, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at three dollars—and this splendid engraving, richly worth \$5: thus getting for \$3 the value of \$8.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings carly, and from the first impressions, should send in their subscriptions without delay. The engraving can be sent on rollers, by mail, or in any other manner, as subscribers shall order.

TWENTY THOUSAND DOLLARS IN WORKS OF ART.

In addition to the superb engraving of "The Last Supper," which will be presented to every three-dollar subscriber for 1838, the publishers have completed arrangements for the distribution, on the 25th of December, 1858, of a series of splendid works of at, consisting of one hundred rich and rare Oil Paintings, valued at from \$100 to \$1,000 each. Also 2,000 magnificent Steel-Plate Engravings, worth from three to five dollars each, and 1,000 choice Holiday Books, worth from one to five dollars each, making, in all, over three thousand gifts, worth twenty thousand dollars.

and a chance to draw one of these "three thousand prizes."
REASONS WHY YOU SHOULD SUBSCRIBE FOR
EMERSON'S MAGAZINE FOR 1858.

Ist. Because its literary contents will, during the year, embrace contributions from over one hundred different writers and thinkers, numbering among them the most distinguished of American authors. 2d. Because its editorial departments, "Our Studio,"
"Our Window." and "Our Olio," will each be conducted
by an able editor—and it will surpass, in the variety and
richness of its editorial contents any other magazine.

richness of its editorial contents any other magazine.

3d. Because it will contain, during the year, nearly six hundred original pictorial illustrations from designs by the first American artists.

4th. Because for the sum of \$3 you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb engraving of "The Last Supper." worth \$5.

5th. Because you will be very likely to draw one of the three thought prizes to be distributed on the 25th day of

three thousand prizes to be distributed on the 25th day of December, 1858—perhaps one that is worth \$1.000.

Notwithstanding that these extraordinary inducements can hardly fail to accomplish the object of the publishers without further efforts, yet they have determined to continue through the year.

without further enerts, yet they have determined to solution through the year.

THE NEW YORK STEAM SAW-MILL AND MACHINE COMPANY, CAPITAL, TWO HUNDRED AND FIFTY THOUSAND DOLLARS.
This company has been organized with the above capital for the purpose of supplying the demand for the COMBINATION PORTABLE STEAM SAW-MILL, and other improved machinery.
They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates, than has ever been offered at any other establishment.
The Combination Saw-Mill was patented October, 1856, and is now generally acknowledged to be the cheapest, and

A number of them are in successful operation in different sections of the country, Canada, Cuba, and South America, and wherever their merits have ocen tested they are being adopted by lumber manufactu

been tested they are being adopted by lumber manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

MESSES, EMERSON & CO.—Gentlemen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than meets my expectations. I am well pleased with its performance. I set it up our a small stream that afforded constant water about as thick as my little facer. Which was much more than sufficient to support the that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber in 12 hours, with something less than one cord of wood.—
It is the very thing we have so much needed in our county for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill.

Yours respectfully,

JESSE KERR, Jr.,
Louisyille, Tennessee.

The company has purchased Lund's Patent Feed Arrangement, which is illustrated and described in the Scientific American for October 24. This adds greatly to the efficiency of the mill.

THE COMBINATION MILL,
