RICH!!!!
The union of Emerson's Magazine and Putnam's Monthly
has given to the consolidated work a circulation second to
but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other Magazine in the world. ably unrivaled by any other Magazine in the world. During the first month, the sale in the trade and demand from subscribers exceeded 90,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the richness of their literary contents, and the beauty and profuseness of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly ateel-plate engraving,
"THE LAST SUPPER."

and will present it to every three-dellar subscriber for the year 1858. It was engraved at a cost of over \$5.000, by the celebrated A. L. Dick, from the original of Raphael Morghon, after Leonardo Da Vinel, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dellar engravings. The first impressions of this engraving are held at ten dellars, and it was the intention of the artist that none of dollars, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than five dollars, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at three dollars—and this splendid engraving, richly worth \$5; thus getting for \$3 the value of \$8.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first desire to obtain their engravings early, and from the first impressions, should send in their subscriptions without delay. The engraving can be sent on rollers, by mail, or

in any other manner, as subscribers shall order.
TWENTY THOUSAND DOLLARS IN WORKS OF TWENTY THOUSAND BOLLARS IN WORKS OF ART.

In addition to the superb engraving of "The Last Supper," which will be presented to every three-dollar subscriber for 1858, the publishers have completed arrangements for the distribution, on the 25th of December, 1858, of a series of splendid works of art, consisting of one hundred rich and rare Oil Paintings, valued at from \$100 to \$1,000 each. Also 2.000 magnificent Steel-Plate Engraphers, worth from three to five dellars each and 1,000 choice Holiday Books, worth from one to five dollars each, and 1,000 choice Holiday Books, worth from one to five dollars each, making, in all, over three thousand gifts, worth twenty thousand dollars.

Inclose \$3 to the publishers and you will commence re-

ceiving the Magnzine by return mail. You will also re-ceive with the first copy a numbered subscription receipt entitling you to the engraving of "THE LAST SUPPER,"

and a chance to draw one of these "three thousand prizes."

C. E. Todd & Co., of 392 Broome Street, New York, are manufacturing and selling massive gold Pencils for \$5 cach, (which are cheap at that price.) and they throw in a gift or prize with each Pencil, worth from \$2 up to \$5, \$10, \$15, \$20, \$25, \$30, \$50, \$75, \$100, \$200, and \$500. Don't cry out, "Humbug! Lottery!" It's no such thing. The Pencils are sold at their cash value, and all the profits over the first cost are thrown into the gifts, which actually cost the purchaser nothing. The prizes are distributed on a simple plan of drawing, which would take too much room to explain, but which has never failed to give complete satisfaction. We have drawn and sent to purchasers 183 gold watches of various prices, 74 purses of gold dollars, 238 gold lockets, 850 gold chains, and a corresponding number of other prizes, within two months.

THERE ARE NO BLANKS,
but every purchaser draws a prize worth \$2 certain, and it stands thousands of chances to be a higher figure.

We want a good agent in every neighborhood throughout the country, to solicit purchasers, and any agent, to be successful, must have a Pencil and prize to exhibit.—We pay agents \$1 cash for each purchaser he obtains, and the first person in any neighborhood who applies for a Pencil and gift, will receive the agency for that locality.—Should an agent obtain a valuable prize to exhibit with his Pencil, he would have little difficulty in obtaining scores of purchasers, and making it a paying business.
