WHAT DOES IT MEAN ?-We have received from our friend, WM. P. SCHELL, Esq., of the Senate, a book giving a concise system of instructions and regulations for the militia and volunteers of the United States, cominfantry, etc., etc. The idea of sending us such a book is a good one if we are to receive a commission and be forced into active service. We shall object however, to going to Utah-but will hold ourself in readiness at all times to defend the rights of our fellow-citizens, as well in the Territories as in tion of the license laws, and one for the re-

NEW HAMPSHIRE ELECTION.—The Republicans have carried the State by a large majority. The Legislature will stand more than three Republicans to one Democrat. The Concord Patriot, the leading Democratic paper of the State, an earnest advocate of the Top Railroad Company. House .- Petitions President's Kansas policy, says:

"Before the Lecompton Constitution question was brought before the country, our prospects for success were highly flattering; our triumph seemed to be certain; that matter, with the course of the Administration upon it, fell like a wet blanket upon the rising courage and earnest zeal of our friends, and from that day we were doomed: our defeat was certain and apparent to all well-informed persons."

Hon. Maxwell McCaslin has been removed from an Indian agency in Kansas, because he wrote, some two or three weeks since, a letter to a member of our State Legislature, giving statements of the condition of affairs in Kansas Territory. Mr. McCas-LIN was appointed last summer, and has always been a prominent and influential Democat. Two years ago he was a Senator from the Greene, Fayette and Washington districts. SETH CLOVER, late Canal Commissioner, has been appointed by the President, to fill the vacancy.

CHARLES M. OTTINGER, son of the late Col. Joseph Ottinger of Bedford, was a few days since, convicted in Philadelphia, of the larceny of land warrants from Jackson & Ford, and of forging the name of Wilson Agar to a promissory note, and was sentenced to seven years' imprisonment, with hard labor, in the eastern penitentiary.

They had all reached their fourscore of corn, fully ripe for the harvest."

THE SOONER THE BETTER.—A bill is now before the Legislature for the sale of the re\_ maining public works. The Main Line has been got rid of, and the sooner the remaining lines are disposed of the better it will be for the tax payers of the State.

The Committee who report the bill, say: the Delaware division have steadily and rapidmore, which will be put in operation in the course of the present year, as a competitor for the Southern coal trade of the Wyoming basin. Along the west branch, from Williamsport to Sunbury the Sunbury & Erie Railroad is completed, and in a few months will be connected with the Northern Central Railroad, dividing the business of transportation with that division of the canal. There is no instance in Pannsylvania of a canal in successful competition with a railroad in the transportation of passengers and freight .-The business of the Schuylkill canal was ruined, by the construction of the Reading Railroad; the value of the Union Canal has been destroyed by the rivalry of railroads which have changed the course of trade; the Juniata and western divisions of the Pennsylvania canal became worthless as sources of revenue soon after the completion of the Pennylvania Railroad; the Lehigh Valley road is reducing the business on the Lehigh Canal; and if like effects may be apprehendall canals now retained by the State."

From Washington. [Correspondence of The Press.]

Washington, March 14, 1858.

Friday, the 12th inst, was an eventful day in the House of Representatives. The call to order found members on both sides in their seats. There had not been a fuller attendance durring the session. The morning "For several years past, the receipts from hour as it is technically termed, passed off

with the ordinary business. At a little afly been diminishing, owing to the competition of railroads: and during the last year a railroad extending from the Lackawanna to Bloomsburg, by the side of the North Branch core been somewhat of the side of the Canal, has been completed, forming part of a An expectancy of the coming struggle gleamed continuous railway from Pittston to Balti- from every eye as it turned to the anti-Lecompton leader.

In a brief but close and pointed statement, the chairman of the Lecompton Investigating Committee brought to the knowledge of members the fact that the order of the House for an inquiry into "all of the circumstances" attending the contrivance of Calhoun aud his co-workers had been defeated by that committee. He asked to present the proof. The Speaker decided against him. He appealed from the decision of the chair.

If an order of the House, held in contempt and flatly disobeyed by one of its committee, be not a question of privilege, connected as it is with the privileges, of the House, then a question of privilege is a myth, an imprac-ticable abstraction. A call of the House was demanded, and the yeas and nays were called for. Calm, reliant upon the justice of their cause, which appealed to every man's com-mon sense and fair judgement, the men who favored the action of Governor Walker, Douglas, Wise and Forney, sit quietly in their ed from like causes, we may reasonably anti-cipate a gradual reduction in the business of tenites gathered in various portions of the hall, consulting together.

As the call proceeded, the tone in which Pennsylvania Legislature. each member answered to his name was sig-Monday, March 8th. Senate.—The Gov-nificant. A staunch National Democrat, with ernor sent in messages vetoing a bill requir- no misgivings of conscience for opposing the ing the Pittsburg and Steubenville railroad attempt to force a hated measure upon a protesting people, rang out his clear, cheery No. The opposition, attempting to conceal their nervousness—letter-writting, talking excited ly to some associate in the same cause, butthe bill to create a new county out of parts toning up their coats to unbutton them again, -gave out a vote with forced indifference, or

The other side was stuned with their defeat, but when they had recovered from the petition from Montour county, asking for the enactment of a law requiring druggists, or dealers in medicine, to keep a register of compelled them to the conviction that the fate of Lecompton was sealed.

The news ran like wild-fire through the town, and they were biter partisans of Lecompton that did not frankly confess the disastrous, terrible, and unexpected defeat of

their cause. After the House refused to lay the appeal upon the table, going to show that the anti-Lecompton strength was undiminished, Mr. Harris withdrew the appeal. Speaker Orr has warm friends upon both sides of the House, and has in previous Congresses enpetition from Bedford county, praying the passage of a law authorizing the collection ways a just and fair man, and as he considof taxes by the county treasurer; and one ered that the question was a reflection upon

verse. Only a few days ago, in the delusion try that the vote would be taken on Monday, the 15th inst. A change has come o'er the sively impolitic to send the measure to the House just yet. Therefore, the understanding is that the debate in that body on this question shall continue for two weeks longer. This affords additional opportunity to hear from the people throughout the country, and the voice of those who have already

spoken has been thus far so potential that it is not too much to look for an entire and absolute abandonment of the Kansas policy of Southern men.

APPOINTMENTS BY THE GOVERNOR FOR PHIL-ADELPHIA.-George W. Lauman, Flour Inspector, Joseph Collins, Whiskey Inspector, Wm. O. Kline, Bark Inspector, A. D. Downs, Inspector of Lumber.

SECRETARY CASS .- There is a rumor that Gen. Cass will soon resign his post in President Buchanan's Cabinet.

IMMENSE anti-Lécompton mass meetings were held in Columbus, Cincinnati and Cleveland, Ohio, last week. Scarcely enough Lecompton Democrats can be found in the State to fill the Post Offices.

disease of the Lungs, (formerly Physician to Cincinnati Marine Hospital,) will be in attendance at his rooms as follows:

Huntingdon, Jackson's Hotel, Monday, April 19.

Hollidaysbarg, Exchange Hotel, 20.

Dr. Hardman treats Consumption, Bronchitis, Asthma, Larryngittis and all diseases of the throat and lungs, by Medical Inhalation, lately used in the Bromton Hospital, London. The great point in the treatment of all human maladies, is to get at the disease in the direct manner.—All medicines are estimated by their action upon the organ requiring relief. This is the important fact upon which Inhalation is based. If the stomach is diseased we take medicine directly into the stomach is diseased we take medicine directly into the stomach. If the lungs are diseased, breathe or inhale medicated vapors directly into the lungs are antidotes to disease and should be applied to the very seat of disease. Inhalation is the application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells, and tobes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they have never been approached in a direct manner by medicine. They were intended to act upon the lungs, and yet were applied to the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutionally, expending their immediate and principal action upon the unoffending stomach, whilst the foul ulcers within the lungs were numolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or business of the patient.

Other Diseases Treated.—In relation to the following diseases, eithe

and bowels, &c.

All diseases of the eye and car. Neuralgia, Epilepsy, and all forms of nervous disease.
