EMERSON'S MAGAZINE
AND PUTNAM'S MONTHLY,
TWO GREAT MAGAZINES IN ONE!!
NINETY THOUSAND COPIES THE FIRST MONTH!!!
MAGNIFICENT PROGRAMME FOR 1858.
TWENTY THOUSAND DOLLARS IN SPLENDID WORKS

FIVE-DOLLAR ENGRAVING TO EVERY
SUBSCRIBER.
THE GREAT LIBRARY OFFER—AGENTS GETTING
RICH!!!!
The union of Emerson's Magazine and Putnam's Monthly
has given to the consolidated work a circulation second to
but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any other Magazine in the world. Duably unrivated by any other Alagazine in the world. During the first month, the sale in the trade and demand from subscribers exceeded 90,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the richness of their literary ready issued of the consonated work are universally contents, and the beauty and profuseness of their literary contents, and the beauty and profuseness of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate engraving,

"THE LAST SUPPER,"
and will present it to every three-dollar subscriber for the year 1858. It was engraved at a cost of over \$5,000, by the celebrated A. L. Dick, from the original of Raphael Morghen, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings.

The first impressions of this engraving are held at ten dollars, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than

dollars, and it was the intention of the artist that none of the engravings should ever be offered for a less sum than five dollars, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year—cheap at three dollars—and this splendid engraving, richly worth \$5; thus getting for \$3 the value of \$8.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings carly, and from the first desire to obtain their engravings carly, and from the first impressions, should send in their subscriptions without delay. The engraving can be sent on rollers, by mail, or in any other manner, as subscribers shall order.

TWENTY THOUSAND DOLLARS IN WORKS OF

TWENTY THOUSAND DOLLARS IN WORKS OF ART.

In addition to the superb engraving of "The Last Supper," which will be presented to every three-dollar subscriber for 1858, the publishers have completed arrangements for the distribution, on the 25th of December, 1858, of a series of splendid works of art, consisting of one hundred rich and rare Oil Paintings, valued at from \$100 to \$1,000 each. Also 2,000 magnificent Steel-Plate Engravings, worth from three to five dollars each, and 1,000 choice Holiday Books, worth from one to five dollars cach, making, in all, over three thousand gifts, worth twenty thousand dollars. Inclose \$3 to the publishers and you will commence re-

ceiving the Magazine by return mail. You will also re-ceive with the first copy a numbered subscription receipt entitling you to the engraving of "THE LAST SUPPER,"

and a chance to draw one of these "three thousand prizes."
REASONS WHY YOU SHOULD SUBSCRIBE FOR
EMERSON'S MAGAZINE FOR 1858.

EMERSON'S MAGAZINE FOR 1888.

1st. Because its literary contents will, during the year, embrace contributions from over one hundred different writers and thinkers, numbering among them the most distinguished of American authors.

2d. Because its editorial departments, "Our Studio," "Our Window," and "Our Olio," will each be conducted by an elicibility of the conducted by a by an able editor—and it will surpass in the variety and richness of its editorial contents any other magazine.

3d. Because it will contain, during the year, nearly six hundred original pictorial illustrations from designs by the first American artists.

4th. Because for the sum of \$3 you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb engraving of "The Last Supper," worth \$5.

Supper," worth \$5.

5th. Because you will be very likely to draw one of the three thousand prizes to be distributed on the 25th day of December, 1858—perhaps one that is worth \$1.000.

Notwithstanding that these extraordinary inducements can hardly fail to accomplish the object of the publishers without further efforts, yet they have determined to continue through the year,
THE GREAT LIBRARY OFFER.

THE GREAT LIBRARY OFFER.

To any person who will get up a club of twenty-four subscribers, either at one or more post offices, we will present a splendid Library, consisting of over Forty Large Bound Volumes, embracing the most popular works in the market. The club may be formed at the club price, \$2 a year, without the engraving, or at the full price, \$3, with the Last Supper to each subscriber. List and description of the Library, and specimen copy of the Magazine, will be forwarded on receipt of 25 cents. Over 200 Libraries, or \$,000 volumes, have already been distributed in accordance with this offer, and we should be glad of an opportunity to furnish a Library to every school teacher, or to some one of every post office in the country.

AGENTS GETTING RICH.

The success which our agents are meeting with is almost astonishing. Among the many evidences of this fact, we are permitted to publish the following:

GENTLEMEN: The following facts in relation to what your Agents are doing in this section, may be of use to some enterprising young man in want of employment.—The Rev. John E. Jardon, of this place, has made, since last Christmas, over \$4,000 in his agency. Mr. David M. Heath, of Ridgly, Mo., your general agent for Platt county, is making \$8 per day on each sub-agent employed by him, and Messrs, Weimer & Evans, of Oregon, Mo., your agents

Medical Inhalation, lately used in the Bromton Hospital,
London. The great point in the treatment of all human
maladies, is to get at the disease in the direct manner.—
All medicines are estimated by their action upon the organ
requiring relief. This is the important fact upon which
Inhalation is based. If the stomach: If the lungs are diseased, breathe or inhale medicated vapors directly into
the lungs. Medicines are antidotes to disease and should
be applied to the very seat of disease. Inhalation is the
application of this principle to the treatment of the lungs,
for it gives us direct access to those intricate air cells, and application of this principle to the treatment of the lungs, for it gives us direct access to those intricate air cells, and tubes which lie out of reach of every other means of administering medicines. The reason that Consumption, and other diseases of the lungs, have heretofore resisted all treatment has been because they have never been approached in a direct manner by medicine. They were intended to act upon the lungs, and yet were applied to the stomach. Their action was intended to be local, and yet, they were so administered that they should only act constitutionally, expending their immediate and principal acthey were so administered that they should only act constitutionally, expending their immediate and principal action upon the unoffending stomach, whilst the foul ulcers within the lungs were unmolested. Inhalation brings the medicine in direct contact with the disease, without the disadvantage of any violent action. Its application is so simple, that it can be employed by the youngest infant or feeblest invalid. It does not derange the stomach, or interfere in the least degree with the strength, comfort, or business of the patient.

and other improved machinery.
They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near this city,
and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates, than has ever been offered at any

other establishment.

The Combination Saw-Mill was patented October, 1956, and is now generally acknowledged to be the cheepest, and most practical, and efficient lumber manufacturing ma-

most practical, and efficient lumber manufacturing machine in the world. A number of them are in successful operation in different sections of the country, Canada, Caba, and South America, and wherever their merits have been tested they are being adopted by lumber manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

MESSES. EMELSON & CO.—Gentlemen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than meets my expectations. I am well pleased with its performance. I set it up on a small stream that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber boiler. We are able to cut 3,000 feet of beautiful lumber in 12 hours, with something less than one cord of wood.—
It is the very thing we have so much needed in our county for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of kauling the logs a long distance to the mill.

Yours respectfully,

Jesse Kerr, Jr.,

Louisville, Tennessee.

The company has purchased Lund's Patent Feed Arrangement, which is illustrated and described in the Scientific American for October 24. This adds greatly to the efficiency of the mill. oiler. We are able to cut 3,000 feet of beautiful lumber

every other description of BUILDINGS, in lieu of Tin, Zinc,
Shingles, Tiles, Thatch, &c.

It costs only a fraction of a Tin or Shingle Roof and is
more durable, as it neither corrobes, cracks nor leaks.

It is made of the strongest and most durable materials,
and saturated with the best of Asphalte.

It is made up in Rolls, 25 yards long, 32 inches wide,
and can be easily applied by any unpracticed person, with
a few tacks.

It is invaluable for Lining the Walls of Wooden Houses, GRANARIES, BARNS, &c., as rats or other vermin and insects will not touch it.

It is Impervious to wet, and being a non-conductor,

counteracts the heat of SUMMER and the cold of WINTER, equalizing the temperature within every building where To the Agriculturist, it makes a cheap and effectual Roofing, for Farm Buildings and Sheds; a Covering for Corn and Hay Hicks, also a Defence for Sheep during snow, and in the Yard as a loose covering for Turnips ar
