THE BOROUGH ELECTION .- According to the provisions of the supplement to the charter of the borough of Huntingdon, passed by the present legislature and signed by the Governor, which we publish in another column of to-day's paper, it will be seen that our corporation election, to be held on next Monday, will be of more than usual importance. On that day the citizens of the borough are to elect a full Board of Burgesses and Councilmen. a portion of whom are to serve for three years, another portion for two, and the remainder for one year. They are, however, to be elected by general ticket, and the allotment of the term of service is to be made after their election.

There is usually too much apathy and indifference manifested in attending primary elections, and in selecting persons to fill minor offices. The improvement of our borough, and the enforcement of the ordinances for the preservation of good order therein, depends much upon the composition of the council. In this view, the election of next Monday has a claim upon the attention and consideration of every citizen, which we trust may not be neglected.

LOCAL ITEMS .- Mrs. HAMPSON will take possession of the Station House on the first of April-the building is now being fitted up. The house she now occupies has been purchased by J. K. McCAHAN, of Birmingham, for a private residence.

The Cash System. "The newspaper publishers and editors of

the State of Kentucky met in Convention at Frankfort, a short time since, and agreed to adopt the Cash System, after the first of July next.' With the above for a text the Printer's

News Letter, thus truthfully and logically leads off:

"We have looked with much interest and satisfaction for years to the tendency of the newspaper world, to taking the step which we chronicle above, and as each paper and each convention adopts the cash system, we hail it as another step forward in the right direction. Publishers have been working ty to Fulton, was reported with a negative 'backwards'' too long already, and many a head has grown prematurely white, and ma-

ny a heart has broken and gone with "sorrow" to the grave," struggling against a mighty six from Huntingdon county in favor of the load, which has been worse than a millstone around their necks, because a business, which, instead of reflecting honor upon its proprietor, has caused him intense suffering. The question necessarily arises, "Why is this, and where does the fault lie ?" We will tell you, for we know too vell all about it .---It is the want of a general and universal cash, in advance, system among ALL newspaper publishers. Subscribers have become to think it is their right to receive the paper one, two, and may be, half a dozen years, without paying for the same, and advertisers think they are doing the publisher a wonderful favor in placing advertisements in their columns.

That is not as it should be. Subscribers have no more right to a paper without paying for it, in advance, than the editor has to be served with the necessaries of life, for one or more years, and neglect to pay for them. It is a simple business transaction; the editor gives his labor, and expects to receive his hire, if he is worthy of it.

That this evil has been suffered to exist too long, is becoming more evident every day, and publishers cannot too soon adopt the enand publishers cannot too soon adopt the en- Company passed finally. THURSDAY. Senate.-The supplement to the act incorporating the borough of Huntingdon, passed finally. The Kansas resolutions, which have disturbed the tranquility of some of our law givers for some weeks, have been passed by the Senate. They express regret that there has been so much trouble in Kansas, and fully indorse the President's Kansas policy, also assert that the right of the people to alter or amend their Constitution immediately after its ad-

remodel their institutions in their own chosen modes, and at their own pleasure, is to practically reaffirm a cardinal, but a revolting and long-exploded doctrine of ancient Federalism -that the people have neither the right to,

nor the capacity for, self-government. Resolved, That we accord our unqualified pprobation to the twenty-one honest and noble spirits who, in the late State Convention, vainly, but fearlessly and earnestly, protested against any endorsement of a measure which is manifestly at war with the letter and spirit of the Democratic creed. Resolved, That we heartily endorse and ap-

prove the resolutions offered by William $\hat{\Lambda}$. Stokes, Esq., in the late State Conventionrejected, though they were, by an unscrupulous majority, who falsely pretended to represent the Democracy of Pennsylvania.

Resolved, That we recognise in Hon. Stephen A. Douglas a bold and faithful champion of popular rights, one who is not to be corrupted by *power* or intimidated by the threats and calumnies of his enemies; and that we predict for him in the future a rich harvest of triumphs for his signal devotion to the great doctrine of popular sovereignty. These sentiments are, in fact, echoed by the

great body of the real Democracy of every section of the Commonwealth. Nothing can change the convictions of men who, guided by an honest regard for principle, cannot be induced to become the apologist of expediency or of technical forms, intended to cover up the basest injustice.

BUSINESS IN HUNTINGDON .- The opening of Spring has brought about an appearance at least of returning confidence among our business community. In every direction we notice evidences of means in our midst, sufficient at least, to keep all our industrious mechanics and laborers busily employed.-Small dwellings are going up in every direction, and many but partly finished are already occupied by the mechanics and laborers-the bone and sinew of a town and a country.

Our merchants are making every necessary preparation for an active Spring and Summer business. REATEST DISCOVERY OF THE AGE. IMPORTANT TO TOBACCO CHEWERS!! DR. GUSTAV LINNARDS Taste Restorative Troches, the Great Substitute

for Tobacco.

It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most se-vere MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many tas sumes that around a hurgeigned desared.

To suppose that organ to be seriously deceased. TOBACCO affects also the entire nervous system, mani-festing itself—as all who have used the noxious weed will bear testimony—in Lassitude, Nervous Irritability. Water Brash, Dyspepsia, and many other disorders of a similar character haracter. THE TASTE RESTORATIVE TROCHES are designed to

counteract these baneful influences, and have proved com-pletely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a bench-cial effect upon the entire system, restoring the taste which has become vitlated or destroyed by great indulgence, comhas become vitiated or destroyed by great indulgence, com-pletely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstaining from the use of Tolacco, and by giving a healthy tone to the Stomach, invigorate the whole system. Persons who are irretrievably undermining their con-situtions and shortening their lives, should use these Troches immediately and throw off the injurious and un-pleasant habit of Tolacco Chewing. These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box.— A liberal discount to the Trade. Prepared solely by the undersigned to whom all orders should be addressed. JAMES F. BROWN, Druggiet
