THE HUNTINGDON GLOBE, A DEMOCRATIC FAMILY JOURNAL, DEVOTED TO LOCAL AND GENERAL NEWS, &C.

Agricultural. A Preventive to Potato Rot. Since the dreadful blight to the potato crop of Ireland some years ago, when the entailed consequence of famine almost decimated the population of that unhappy land, agriculturists, agricultural chemists, and scientific gentlemen of all countries, have experimented upon this favorite and important esculent, with a view of ascertaining the cause, and preventing the ravages, of the potato rot. Numerous theories of its causes have been advanced, and any number of remedies proposed ; but it would appear that, beyond the improvement in the selection of the seed. the cultivation of the vine, and the gathering and preserving the potato with increased care and skill, but slight benefit toward the great end sought has been derived from these sources. What the most distinguished agriculturists and savans of the world have failed to accomplish by the most intense thought and experiment, has, it appears, been affected, like the developement of numerous facts in mechanics and science, by accident; or rather, such an effect produced from this cause as set science to work in the solution of the problem, and to give it a practical tendency.

A few years ago, the English papers published a statement that some boys in Belgium, for amusement, inserted peas in seed potatoes which they were planting, and that in due time both peas and potatoes grew together, producing an unusual yield of peas. These were gathered, and the potatoes were allowed to ripen, and upon digging proved to be en-tirely sound, while the same sort, in other parts of the field, were badly rotten. This fact coming to the knowledge of Mr. J. Jackson, of Leeds, England, prompted him to submit a series of samples of diseased and sound potatoes to careful chemical analysis, and he invariably found that the diseased potatoes, as compared with the healthy ones, exhibited a marked deficiency of nitrogen and of nitrogenized matter in every instance, and also a great deficiency, as compared to the pub-lished analysis of the potato, by Liebig and others, made some years before. "From that result," says Mr. Jackson, in his published report, "I inferred that the potato being inherently deficient in nitrogen, if it were inoculated with a substance intrinsically rich the substances of both plants, in the process of their germination and growth, a sufficient evolution of nitrogen from the proc in that element, as peas are, during the mu-tual decomposition and chemical changes of take place, and be absorbed by combining with and supplying the deficiency of that eldo do ement in the potato, and thus communicate, as it were, its equivalent in that way, and counteract its tendency to disease."

counteract its tendency to disease." Mr. Jackson then tried the experiment practically, by procuring several kinds of po-tatoes for sets whole, and inserting four or fragment for to the netter the netter of the netter of

Times. "There is one which, for beauty of finish and richness and brilliancy of tone, equals, if it does not excel, any-thing of the kind we have even seen. It is from the estab-GO TO COLON'S. GO TO COLON'S. nt of Horace Waters Being constructed and most thoroughly seasoned material, and upon im-proved principles, it is capable of resisting the action of the clinute, and of standing a long time in tune.—Savan-nah Republican, Savannah, Ga." nah Republican, Savannah, Ga." Waters' pianos and melodeons challenge comparison with the finest made anywhere in the country."--Home Journal. C. L. Sholes, editor of the Kenocha "Tribune and Tele-graph" says, "The piano was received in good order, and is pronounced an excellent instrument by good judges, tho tone of it is particularly commended, as is indeed its external workmanship and finish, compared with its cost." Speaking of the Horace Waters' Pianos and Melodeons at the Crystal Palace the "New York Disptach" says:— "A number of these pianos and pedal bass organ melode-ons, from their great power, and fullness and richness of tone, attract the very general attention and commenda-tion of visitors. Waters' "New Scale" is recognized by artists as not only a sensible but *important* improvement artists as not only a sensible but important improvement The "New York Express" says: "The Horace Waters" Pianos are pronounced by nusical amateurs as a decidedly superior article in all the requisites of this instrument, superior article in *all* the requisites of this instrument, and it is fast superseding those of other manufacturers." The "New York Evening Post" says: "The Horace Waters' Pianos are *excellent* as well as *cheap*; but he has those of other makers, as well as *second*-hand ones, capitally adapted to limited means? Says the "Knoxville (Tenn.) Standard:" "Mr. Waters has long experience in the business, and has gained a repu-tation unsurpassed for selling the best instruments in the "This gentleman is one of the most extensive nunsic-deal-ers in the Union. His pianos and melodeons have ob-tained great celebrity for their *excellent tone and durable* Says the "Valley City Advocate:" "We have taken a look at a pi no which has just arrived from the celebrated establishment of Horace Waters, and must say that for tone and beauty of finish, it surpasses any we over saw for the price." Horace Waters' Plano-Fortes are of full, rich, and even tone, and powerfull.—New York Musical Review. "They are fully equal to any of the kind I have seen in "They are fully equal to any of the kind 1 have seen in the United States, and far superior to those of a similar make I saw in England."—Geo. Washbourne Morgan. "I take great pleasure in announcing them instruments of a superior quality, both in tone and touch."—Jugust Carlot Gockei We don't know that we ever saw better planos-planos we don't know that we ever saw better pathos-planos better made, of finer tone and of greater power-than we met with yesterday at the fair in the Crystal Palace. The finest among them are those placed there by Horace Wa-ters, whose planos are always popular."—Times and Messenger. "The Horace Waters' Pianos now on exhibition at the "The Horace Waters' Pianos now on exhibition at the Fair, have attracted a surprising degree of attention; they are unrivalled by any other instrument, in *perfect quality of tone and power.*"--Courier. "The Horace Waters' Pianos are among the most cele-brated and improved makes of the day. For power, bril-liancey and richness of tone, elasticity of touch, and beauty of finish, they will not suffer in comparison with those of any other manufacturer."-Thomas Baker. The "State Register" contains the following: "For beauty of finish, sweetness and brilliancy of tone, they undoubtedly surpass anything of the kind ever brought before the public. They equal in *tone* the grand piano; and being constructed of the best and most thoroughly seasoned material, they are capable of resisting the action of any elimite." Says the "Evening Mirror": They (the Horaco Waters' Pianos) are very superior instruments and the maker may confidently challenge comparison with any other may confidently challenge comparison with any other manufacturer in the country, as regards their outward elegance, and quality of tone and power?" $\mathfrak{m} \mathfrak{L} \mathfrak{P}$. BRUNKER is agent for the sale of these Pianos, for Huntingdon county. He will attend to the unpacking and putting up of them, and keeping them in tune, for a year, free of charge. He will also see that every pur-chaser is satisfied. They will be sold as low as any other Pianos in the United States. Sept. 9, 1857. Repairing of Watches, Clocks, and Jewelry, done in the best manuer on short notice. JOHN FRISCH. Huntingdon, Oct. 1, 1856.

REATEST DISCOVERY OF THE

AGE. IMPORTANT TO TOBACCO CHEWERS! 1 DR. GUSTAV LINNARD'S Taste Restorative Troches, the Great Substitute

for Tobacco. It is a well known and incontrovertable fact that the use

of Tobacco is the promoting cause of many of the most se-vere MENTAL AND PHYSICAL DISORDERS to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be scriously deceased. TOBACCO affects also the entire nervous system, mani-festing itself—as all who have used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character.

THE TASTE RESTORATIVE TROCHES are designed to THE TASTE RESTORATIVE TROCHES are designed to counteract these baneful influences, and have proved com-pletely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a bonefi-cial effect upon the entire system, restoring the taste which has become vitilated or destroyed by great indulgence, com-pletely removing the irritation and accompanying tickling sensation of the Throat—which are always consequent upon abstuining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorate the whole system. Persons who are irretrievably undermining their con-stitutions and shortening their lives, should use these Troches immediately and throw off the injurious and un-pleasant habit of Tobacco Chewing. These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 Cents per Box.— A liberal discount to the Trade.

Propared solely by the undersigned to whom all orders, should be addressed. JAMES E. BROWN, Druggist, March 24, 1858–1y. Cor. 2d and Race Sts., Phila.

LIENRY W. OVERMAN, No. 14 (Old No. 6) South THIRD Street, below Market, Philadelphia, LEATHER DEALER. Calf Skins, Moroccos, Linings, Bindings, RED AND OAK SOLE LEATHER, &c. N. B.-Rough Leather, bought or taken in exchange. March 3, 1858-19. March 3, 1858-1y.
