WHAT IS FAME?-A man who was recently sent to Sing Sing for ten years, for burg-lary, learning that his portrait and life were to appear in one of the papers, ordered 500 extra copies, which he circulated among his

WORTH REMEMBERING .- It is not what we earn, but what we save, that makes us rich. It is not what we eat, but what we digest, that makes us fat. It is not what we read, but what we remember, that makes us learned. All this is very simple, but it is worth remem-

CROPS IN ILLINOIS.—A correspondent writing from Peru, Illinois, on the 8th, informs us that much of the wheat, and nearly all the oats, have been struck with rust. He says that the farmers of Greenville are much discouraged about their wheat crop. The corn crop, however, is looking very well, considering the backwardness of the season.

THE NORTH BRANCH CANAL.—The North Branch Canal Company have succeeded in having the whole line of their canal put in order, so far as to be ready to ship coal, either north or south from Wilkesbarre, at this time. The dams are nearly completed, and permanently secured by coffers against any further contingency from sudden or extensive floods.

A Hanover paper tells the world that altogether vanished in Denmark and northern alone, in the course of Whitsunweek, about 2,000 pounds of horseflesh were consumed. The number of horses slaughtered for eating, in that city, is between 200 and 300 a year.

The region at the West recently submerged by the overflow of the rivers, is now afflicted by miasma, caused by the decaying matter left upon the subsidence of the floods. Droves of hogs turned out upon the reclaimed lands along the Illinois shore, are dying off rapidly from an epidemic which has suddenly broken out; the health of the inhabitants is beginning to suffer.

Counterfeit Coin .- The public should be careful of the counterfeit coin now in circulation. Brass dollars, nicely gilded, to imitate the California dust, are in circulation, and require a sharp examination to detect. The milling around the edge is very poorly done. Pewter quarters are also very freely circulated in the hurry of payments. Dimes and half dimes also abound, and persons cannot examine their change too closely, if they would escape being victimized.

RAPID GROWTH OF A TOWN.—The Evansville Journal contains an account of Tell city, in Perry county, Indiana. It was organized on the 15th of April last, and now has a population of nearly 1,200, and more than one hundred new buildings have been erected, chiefly dwellings, which have cost from \$300 to \$1,500 each; among them is a full average of the best-class. There are, besides, several expensive hewn stone structures, for stores and dwellings, in progress of building. The proprietors of Tell city are principally Germans, residing in Louisville and Cincin-

Wool.—The Washington Examiner says -"Nearly all the entire wool clip of this country has passed into the hands of buyers. This state of things is unusual, and the novelty of the case increases in view of the fact that the prices rate from 10 to 15 per cent. below those of last year. Only a few scattering clips of superior quality remain in the hands of growers. Thus has a vast sum of moncy been thrown out among the people.-It would not be extravagant, we believe, to say that nearly half a million of dollars has been paid out in Washington county for wool during the past three weeks."

An Important Fact.—It is said that the rays of the sun are not necessary to the production of sun stroke. Post mortem examinations show that only in a limited number of cases is congestion of the brain present. The great majority of cases are due to fainting, or exhaustion, identical to that produced by staying to late in a hot vapor bath.-The patient should, of course, be properly stimulated, not depleted, and laid with the head very low, so as to favor the flow of blood to the brain. A handkerchief saturated with water, and laid on the top of the head, will oftentimes act as a preventative.

Young Man, Pay Attention.-Don't be a loafer, don't call yourself a loafer, don't keep loafers' company, and don't hang about loafing places. Better work hard for everything and board yourself than sit around day after day or stand at corners with your hands in your pockets. Better for your own prospects. Bustle about, if you mean to save anything to bustle about for. Many a physician has obtained a real patient by riding hard to attend an imaginary one. A quire of blank paper tied up with red tape and carried under a lawyer's arm may procure him his first case and make his fortune. Such is the world-to him that hath shall be given. Quit droning and complaining, keep busy and mind your chances.

A Speck of War.—A late London letter says:-It is a strange feature in the political history of Europe at the present moment, that every State is arming and fortifying itself against some imaginary enemy, and that | the works are being hastened according to their own words, "In the provision of events that may soon arise." What events? Who can tell? Our brethren on the other side of the Atlantic are utterly at fault. Even little Belgium is about to fortify one of her towns at an expense of 40,000,000 of francs; while the naval equipment and fortifications of Cherbourg, now the principal French naval station in the Channel, are said to border on the marvellous for their perfection and magnitude. What does all this mean, and what is Louis Napoleon preparing for?

THE RATTLESNAKE.—Two scientific gentlemen of Thomasville, Ga., have lately been experimenting with the rattlesnake and the alleged antidotes for its bite. Several experiments were tried with dogs, which, after being bitten were subjected to various remedies, which were reputed to have been efficacious in many instances, but which, in these cases, failed entirely, the bite proving fatal in a few hours. Whiskey was finally tried, and the dog, after being bitten on the fleshy part of the thigh, was forced to swallow several gills of whiskey, at short intervals. The poor animal was made extremely sick for several days, (whether owing to the whiskey, or to the bite of the rattlesake, the scientific gentlemen were unable to determine) but finally recovered, and at last accounts appeared as well as ever.

GROWTH OF THE UNION.—Since the original Confederacy was formed, nineteen States have been added to the Union. Their names and the order of admission have been as follows: Vermont 1791; Kentucky 1792; Tennessee 1796; Ohio 1802; Louisiana 1811; Indiana 1816; Mississippi 1817; Illinois 1818; Alabama 1819; Maine 1820; Missouri 1821; Michigan 1835; Arkansas 1836; Iowa 1845; Florida 1845; Texas 1846; Wisconsin 1847; California 1850; Minnesota 1858.

A Model Town.—It is stated, upon the authority of the orator of the day, for the 5th instant, for the town of Peru-a town of about 1,000 inhabitants, on the Green Mountains, in the southern part of Vermont-the Hon. A. L. Miner, ex-member of Congress for the district in which Peru is,—that within the last ten years, there has not been a criminal prosecution in that town; nor a law suit of any kind within two years, that there is not a pauper or a drunkard in the town, and that during the festivities of the 4th, not a person was seen at all, so far as could be discovered, under the influence of liquor. It is just to add that a prohibitory liquor law has force there.

FALLS OF NIAGARA.—A letter written at the Falls of Niagara, says :- "For fifteen years I have been an annual visitor here, and Niagara has never before impressed me with so much sublimity. I attribute it to a greater quantity of water at present than upon any former occasion. The Cataract itself does not present any marked change of features, but the 'Rapids' and the 'Whirlpool' the "silly prejudice against horseflesh" has are more grand and impetuous than the 'oldest inhabitant' can recollect. It is stated, Germany; and that in the city of Hanover | upon reliable authority, that the surface of Lake Erie is from five to six feet higher now than before for thirty years. Much land is inundated upon the southern shore of said lake, and the farmers along shore are loud in their complaints against the public works at Black Rock, which they allege dam up the Niagara river so as to cause the rise in the

> AN INDIAN LOVER .- Miss Bishop, who went to Minnesota as a teacher, received an offer of marriage from an Indian. He came to her dwelling decked in all his finery—searlet flannel, rings, feathers, newly scoured brass ornaments, and bear's claws-and. through an interpreter, announced to her that she must be his wife. It was urged that he had one wife. He replied; "All the band have as many as they can keep, and I have but one." As an extra inducement, he promised that she could have the best corner of the lodge, hunt by his side, and eat with him while the dark squaw was to hush the papoose, cook the food, carry the game, hoe the corn, and provide wood and water. Miss Bishop, a little in fear of the "green-eyed monster," even if the other claimant did hold an inferior position, declined the distinction. The Indian then begged a dollar to buy a shirt, and left with a haughty air .-The next day he was drunk. But Miss Bishop's associate almost fared worse. She had only been a few weeks in the country, and was ignorant of Indian customs. A young warrior, smitten with her, called often. Hoping to be rid of him, she gave him a ring. He interpreted it as a token of partiality, and returned to take her to his lodge.-The next day he again returned, with young braves, to compel her to go with him.

PHILADELPHIA MARKETS.

PHILADELPHIA, July 19th, 1858 .- There is little or no ex-PHILADELPHA, July 19th, 1855.—There is little or no export demand for Flour, but holders are firm in their views, and standard brands are held at \$4.25@4.37½\$ barrel, the latter for straight brands, without finding buyers, except for home use, at that figure, for common and good superfine, \$4.75@5 for extra, and \$5.25@6 \$\pi\$ barrel for extra family and fancy lots, as in quality. Rye Flour and Corn Meal are quiet for the want of stock. We quote the former at \$3.31½ and the latter at \$3.37½\$ barrel for Penn'a Meal.

GRAIN-In Wheat there is not much doing, owing to the difference in the views of buyers and sellers, and only about 3800 bushels found buyers at 105 cents for prime old Southern red; 110 cents for fair new Tennessee do; 120 cents for prime Southern white, and 118 cents for fair quality Tennessee do. Ryc is selling in a small way at 70 cents. Corn meets with a moderate demand only, and about 2000 bushels Pennsylvania yellow brought 85@86 cents in the cars and in store, and 86 cents afloat. The receipts are very light. Oats continue steady, with further sales of 5 @6000 bushels Pennsylvania at 42 cents.

ANN ARBOR, November 6, 1856.

Prof. O. J. Wood—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, antil I met you in Lawrence county some months since, when you gave mo such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore, my scepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray (by reason of sickness or age,) to original color and beauty, and by all young persons who would have their hair

beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

FRIEND Wood: It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again, very respectfully and truly, yours, Again, very respectfully and truly, yours, SOLOMON MANN.

TUNTINGDON WARM SPRINGS.

The WARM SPRINGS, at the base of Warrior's Ridge, five miles North of Huntingdon, overlooking Standing-Stone Creek, and environed by romantic hills and woodlands, have been leased by the former proprietor of the Leamer House. The extensive Hotel buildings, Bath houses, &c., erected at great expense by Gen. A. P. Wilson, have been completed—and the Groves have been beautifully laid out and adorned. The Hotel Parlors and Chambers are airy and confortably furnished; and the prospect, from the Verandahs, for Beauty, cannot be excelled.

For half a century, these Springs have been celebrated for their Medicinal qualities, and the Great Virtue of the waters in Rheumatic or Chronic affections. The temperature of the water being 69½ degrees renders the Bathing delightful and invigorating. In the surrounding woods and mountains Game abounds, and the finest fish are caught in Stone creek.

Persons in pursuit of health or pleasure will find this a most delightful and healthful retreat; and its nearness to the Pennsylvania Railroad, and the cheapness of the rates charged guests, give it a decided advantage over any other watering place in the State. The Proprietor has had years of experience in the business, and no pains or trouble will be spared to make guests comfortable.

HACKS run from Huntingdon to Warm Springs on the arrival of the different Railroad trains—fare 25 cents. Families accommodated at moderate rates.
