THE CHANCES .- Judge McClure, of Pittsburg, while charging a jury in a lottery case, spoke of a statistical suvan down East, who carefully noted down the number of persons struck by lightning in one year, and compared it with those who had drawn prizes in lotteries during the same period, arriving at the conclusion that three persons were struck by lightning to one who had drawn a prize.

He appeared to be in a dying condition, and a physician was immediately sent for, who promptly administered a pow-erful purgative. In due time the medicine had the desired effect, and brought from the boy a double handful of young crabs-real bona fide river or brook crabs, with craws, legs, broad tails and all. HOW TO MAKE INDIAN WHISKEY AND GET UP AN INDIAN WAR.-A citizen of St. Paul furnishes some pretty hard stories on his fellow-citizens who trade with the North-western Indians. He says a barrel of the "pure Cincinnati," even after it has run the gauntlet of railroad and lake travel, is a sufficient basis upon which to manufacture one hundred barrels of "good Indian liquor." He says a small bucketful of the Cincinnati article is poured into a washtub almost full of rain water; a large quantity of "dog-ley," tobacco and red peper is then thrown into the tub; a bitter species of root common in "the land of the Dacotah," is then cut and added; burnt sugar or some such article is used to restore something like the original color of the whiskey. The compound has to be kept on hand a few days before it is fit for use.-It is then administered to the aborignes ad libitum. He says all an Indian wants is something that will "bite !" and it matters he will give forty acres of land for one dose. Sold !- A popular actor of Philadelphia went to Cape May a few days since. He accidently left his watch on the dressing table. A friend going to the Cape took it down .--In conjunction with a few others he got up a complimentary presentation. A presentation speech was made, and the reply was gratefully eloquent. A feast followed, after which on going to his room, he opened the case. which enclosed the watch, and found it to be the one he had left at home!

THE GRAIN TRADE OF CRICAGO.-The total receipts of flour and grain at Chicago, so far this season, are 244,450 barrels of flour, 5,690,520 bushels wheat, 3,757,100 bushels 5,082,107 bushels over the same time last year. The total shipments of the season from that port reach 10,998,516 bushels-an increase of 5,778,516 bushels.

A GOOD SENTIMENT.-Senator Jefferson Davis, of Mississippi, was on the steamer Joseph Whitney, at sea, on the 4th of July. He made a speech on the occasion, from which we extract the following sentiment, which contains something good, said with a point: "And this great country will continue united. Triffing politicians in the South, or in the North, or in the West, may continue to talk otherwise, but it will be of no avail. They are like the mosquitoes around the ox -they annoy by they cannot wound, and never kill."

WHAT HAS GOT INTO THE BARBERS?-At Chicago, a few weeks ago, a jealous barber hanged his mistress, quartered her, packed her up in a barrel, and consigned her to New York. At St. Louis, three barbers strangled a customer, and, after robbing him, threw his body into a cellar way. In Philadelphia another jealous hair dresser shot a "false" one" and then committed suicide. At Green Island, opposite Troy, N. Y., last Saturday night a week, another barber killed his wife, and then killed himself.

the house of their own kind. There are even those who think them handsome! A writer in the London Quarterly says :-- "A close observation of these animals entirely con-

quers the antipathy which is entertained towards them. Their sharp and handsome heads, their bright eyes, their intelligent look, their sleek skins, are the very reverse of repulsive and there is a positive attraction in the beautiful manner in which they sit licking their faces, an occupation in which they pass a considerable portion of their time.

This is a little to strong. The little brute may have his virtues, but we cannot adopt him as a pet.

A BRAVE YOUNG UNCLE .-- A correspondent of the Pittsburg Post relates the following touching incident: "As we left Pittsburg in the cars, we observed a small boy named corn, and 1,522,273 bushels oats making a Stitt, about 12 years of age, poorly clad, but total of over twelve millions of bushels of grain namely, 12,192,107. This is an increase of ten months old, the child of his sister, who died a few weeks ago. The lad brought the infant from Iowa city, where the mother died, and was on his way to Harrisburg. The young uncle had cared for and nursed it all the way-a weighty charge for one so young.

It would not, perhaps, have been so much remarked had a young girl been the custodian of the young babe; but here was a mere boy putting away childish things, and assuming all the cares and responsibility of a parent, during a journey of a thousand miles at least. The passengers manifested great interest in the little wayfarer and his charge, the ladies especially, in turn relieving the lad of his burden, as he appeared to be almost exhausted with his long journey. Such constancy and manliness in one of such youthful years is not often exhibited, and certainly well deserves the name of heroism.
