Terrible Accident at Sea---Burning of

the Steamer Austria. Over five hundred Lives lost-Scenes and In cidents—Twelve Survivors arrived.

HALIFAX, Sept. 27. The Cunard steamer at sea proves to have been the Austria. Twelve of the survivors have arrived here; there were in all about six hundred souls on board the ill-fated steamer, of which only sixty-seven were saved. SECOND DISPATCH.

Halifax, Sept. 27.

The brig Lotus arrived yesterday with twelve of the sixty-seven survivors of the destruction of the steamer Austria, burned at sea on the 13th. A passenger reports that a October 6th, 7th and 8th, 1858. "little after 2 o'clock on the afternoon of the 13th, a dense volume of smoke burst from the after entrance to the steerage; the speed was instantly slackened one half, at which speed she continued going until the magazine exploded, when the engineers, it is supposed, were instantly sufficiented. The fire next burst through the lights at midship, traveling aft with fearful rapidity. A boat let down on the port side was instantly crushed and another on the attachered side was ed, and another on the starboard side was swamped from the numbers rushing into it. All the first cabin passengers were on the poop, excepting a few gentlemen, who must have smothered in the smoaking room .-Many of the second cabin passengers were also on the poop, but a number were shut up in the cabin by the fire. Some were pulled up through the ventilator, but the greater number perished in the flames. A woman was drawn up who said that six were then already suffocated. Several men and women jumped into the sea by twos and threes.— Some of the women were then already in flames—others hesitated until driven to the last moment by the advancing flames. In half an hour not a soul was left on the poop deck. The French bark Maurice, Capt. Ernest Renaud, came along side at five o'clock, rescued forty passengers who were chiefly taken off the bowsprit, but some were strug-gling in the water. At 8 o'clock one of the metalic boats came up with 22 persons, including the first and second officers, and subsequently four men were picked up floating on a piece of a broken boat. The second officer was afterwards rescued from the water. Both he and the third officer was severely burned. Many of the male passengers were frightfully burned. Only six women were saved, three of whom were shockingly burned. A Norweigian bark went alongside of the steamer the next morning, and sent out her boat. She may have picked up a few persons. The bark Maurice had no communication with her. We have not yet ascertained the names of the saved.

EXTRAORDINARY MURDER BY A PHYSICIAN, NEAR LOCKPORT.-A man by the name of Philip Hawkins, and old Penisular soldier under Wellington, was murdered in Wilson, Niagara county, on Tuesday last, under extraordinary and peculiar circumstances. The Lockport Courier of Thursday morning says that Hawkins had been complaining for several days, when Dr. John Cresswell was called to visit him. The Doctor had his patient removed to the American Hotel, kept by O. R. Mason, agreeing to pay five dollars per week if he lived, and if he did not he was to pay ten dollars. At about seven o'clock P. M., the Doctor came in and gave the patient struction of a through railroad, from New a dose of something which made him worse, and in fifteen minutes after the Doctor adests of Lehigh, Northampton, Montgomery, ministered the second dose, which produced Berks, Lebanon, Cumberland, Franklin, Fulthe most violent spasms, and awful agonies, | ton, Bedford, Somerset, Greene, Fayette and which continued to increase in violence for Washington counties, been made subservient an hour and thirty minutes, when the patient | to a mistaken policy. But the days for such died. His screams during the short period recurrences, are gone forever. Baltimore, he suffered were terrible. Suspicion having Philadelphia and New York, have one combeen aroused, a portion of the same med- mon interest in completing this work, too icine which had been left in the tumbler was long delayed. It is not for some small persecured, and ten drops were administered to a | tion of the trade of the Ohio Valley, they are kitten, which died in eleven minutes. Coro- now called upon to contend, but for the comner Botsford was called to hold an inquest on merce of India and Europe. The hour has the body, Tuesday noon, which lasted until arrived in the life-time of nations, when Wednesday night. The verdict of the jury England must surrender the monoply of the was, that the deceased came to his death by East India trade. The nations of Europe poison, administered by Dr. John Cresswell, are about to re-open a ship navigation A warrant was immediately placed in the through the Isthmus of Suez, and thus obhands of Constable Grisenthwaite, of Wilson, | tain easy access to the Indian Ocean; whilst who arrested the accused Wednesday night, a railroad with a double-rail track, adapted about twelve o'clock, at the Stevenson House, Lockport, and placed him in the lock-up till Thursday morning, when he was taken to these United States, a controlling influence Wilson for examination.

ENGLAND AND THE SLAVE TRADE,-We have been surprised, says the New York Post, to learn that while England has been compassing sea and land, to suppress the traffic in slaves, on the west coast of Africa. she is open to the suspicion of conniving at the traffic, in its most barbarous and revolting forms, on the other side of that continent. We learn from entirely authentic sources, that for the last twenty-five years, the English mail steamers have shared the navigation of the Red Sea, with a smaller craft, propelled by huge latteen sail, which ply between Babel-Mandel and Ras Mahaeced, loaded with the kidnapped orphans of murdered parents. Some thousand children are annually brought to the Red Sea coast, and sold by the Christian and Mohammedan Abyssinians, in exchange for foreign commodities. The great majority of these slaves, are girls, of the interesting and well-favored tribe of the Gallas, who inhabit the country to the south-west of Abyssinia.

CURE FOR BRONCHITIS .- One of our cleverest and most reliable friends, says the Holly Springs Herald, informs us that common mullen leaves, smoked in a new pipe—one in the importance of aiding in building a Nawhich tobacco had never been used—is a sure tional railroad, with a double rail track. from and certain cure for bronchitis. The remedy is simple and innocent, and within the reach one who has tried it himself and seen it tried is simple, and we can certainly discover no harm likely to arise from a trial.

Anaged Horse.—Daniel Goodall, of Ecorse, Michigan, says the Spirit of the Times, owns of six or eight years of ago. She is fat and healthy, and as active and spry as any colt, traversing the North Eastern and Southern and was daily expected to drop her twenty-counties of this State, a work of great imporseventh foal.

COUNTY FAIR!

FOURTH

HUNTINGDON COUNTY

AGRICULTURAL SOCIETY.

TO BE HELD AT

HUNTINGDON.

On Wednesday, Thursday and Friday,

The Sherman's Valley and Broad Top Railroad.

This railroad is the only unconstructed link in an almost direct chain of railroad communication between the cities of New York, Philadelphia, Cincinnati and St. Louis, and destined, when finished, to form the Atlantic section of the Pacific railroad.

Distance from New York to Cincinnati via

New Jersey Central, East Pennsylvania, Lebanon Valley, Sherman's Valley and Broad Top, Baltimore and Ohio, North Western Virginia, and Marietta and Cincinnati railroads, is 710 miles-212 miles shorter than via N. Y. Central, and 162 miles less distance than via Erie railroad, Cleveland and Columbus, to Cincinnati. Thus it is evident that the Atlantic and Pacific railroad, eastward, from St. Louis, must necessarily traverse the semi-anthracite coal basin of Broad Top, destined to supply the cheapest and best coal for ocean navigation and also for locomotives. Originally the terminus of the S. V. & B. T. railroad was the Broad Top coal region, distant from Harrisburg 82 miles, which may be lessened by means of a short tunnel to 75 miles. This route to Broad Top being from 45 to 52 miles shorter than via Huntingdon and Broad Top railroad, is certain of commanding a monopoly of this valuable coal trade. Subsequent examinations proved the necessity and also the eligibility of extending the S. V. & B. T. railroad, so as to connect the Baltimore and Ohio and Pittsburg and Connellsville railroads on the West, and the North Central, Dauphin and Susquehanna, Lebanon Valley, Reading, East Pennsylva-nia and New Jersey Central gailroads on the East, and thus form a through railroad from the cities of New York and Philadelphia to Cincinnati and St. Louis, and from its Western terminus via Connellsville railroad to Pittsburg and Chicago, and via Wheeling, Columbus, Indianapolis, Springfield (III.) to St. Joseph, Mo. Thus it is seen that the three great railroad routes to the Pacific Ocean all converge at or near the Western terminus of the Sherman's Valley and Broad Top Road, opening a market for the gas coals of the Youghiogeny, and traversing the Bituminous coal fields of the Allegheny, the semi-Anthracite coal basin of Broad Top and the Athracite coal measures of Pennsylvania, and must run over and be laid upon inexhaustible beds

of iron ores from the valleys of Lehigh, Berks

and Lebanon, through the carbonates of Broad Top, to the iron mountains of Missouri, and destined to become, perhaps, the greatest iron and coal-carrying railroad of the world. Heretofore, it was a fear of Baltimore and New York rivalry, that prevented the con-

to accommodate the trade and overland travel between the two worlds, must give to this country, "the palace of an industrious, commodious, and highly civilized social life." When Christopher Columbus sailed due

West from Spain, he had in his mind, a clear and distinct idea, that it was practicable to find a direct route to the East Indies. and although a new world rose from the bosom of the great deep, to arrest his progress, yet that route does exist; and what the genius of Columbus originated, it is our privilege to aid in accomplishing—a continent must be traversed, and the railroad and locomotive are forthcoming-a railroad route, combining directness, eligibility and economy, had to be selected, and a plan of railroad, with improved machinery, adapted to accommodate the trade and travel between India and Europe, was required, and we would contribute the route and the double rail track, and also give our mite, to be expended in constructing a work, which will aid in bringing all sec-

tions of this Confederacy together, that united, our country may march to that commercial supremacy, towards which our geographical position and the genius of our pcoble (if aided by an enlarged and enlightened legislation) call us. We would therefore respectively urge on

our Representatives in the National Congress tional railroad, with a double rail track, from the cities of Philadelphia and New York, to the Pacific, in order to develope the resources of all. Recollect that this is not the remedy of our own country, and add to the wealth of of a retired physician whose sands of life the nation by giving employment to our peo-have nearly run out, but is given to us by ple, and a market for the surplus products, and manufactures of our own citizens; and with others, and has never known it to fail to our Representatives, in the Legislature of in effecting a permanent cure. The remedy Pennsylvania, we would respectfully represent that some forty millions of the common funds of the people of Pennsylvania has been appropriated to build railroads and dig canals through the Western, Northern, and Middle counties, and more recently the Main Line, a pony mare, formerly gray, but now white, and also the proceeds of the balance of our who was thirty-four years old last spring, and State canals have been appropriated towards has produced twenty-six foals. This mare the completion of two lines of railroads, one has never known the luxury of a stable, nor through the Middle counties, and the other the aid of a scythe in procuring her food; through the North Western counties, leaving cropping with her teeth for a living, summer only the proceeds of the revenue arising from and winter, and now presents the appearance | the three mill tonnage tax applicable to the construction of a link in a line of railroad

who have paid all of twenty millions of dollars towards the construction of works which have developed the wealth, and opened up the resources of the Western, Northern, and Middle counties of Pennsylvania. We would, therefore, demand, as a matter of equity and justice, that this one remaining crumb, from the feast given to our prodigal brethern, be appropriated towards the construction of the S. V. & B. T. R. R., until the same be completed, at which time three rival railroads routes, between the East and West, will serve to protect the industry of the people general-

Note:-On a thorough railroad from New York and Philadelphia via. Cincinnati and St. Louis to the Pacific, greater capacity, speed, safety, and economy, both in money and time, is required to accommodate the local trade and travel on a route of 3,000 miles, together with the trade and travel between Europe and India. On such a route it is proposed to use four rails instead of two, and substitute portable parlors for those narrow, cabined, cribed, confined cars, liable to be thrown from the track on the breaking of an axle, wheel, or rail. On a double rail track, the traction of the engines will be doubled, the capacity of the cars, and the height of driving wheels, and consequently the speed of engines, will be in proportion to the width of track.

On such a railway, with driving wheels 10 to 15 feet in height, a journey of 3,000 miles may be performed in thirty hours, running time, with economy in money, and with safety and comfort to passengers .- Committee.

AWFUL SUICIDE.-Intemperance is still busy slaying its victims; and on Sunday night, our County Poor House was made the scene of a most awful tragedy, resulting from this wide-spread vice. A Scotchman went there, at about 4 o'clock, on that day, laboring under mania a potu, and told Mr. Me-Graw, the Steward, that folks were after him, and asked his protection. He was taken in and cared for, and at nightfall, was put into a room with some half dozen of feeble paupers. At about 11 o'clock, Mr. McGraw was called to the room, and found the man in a terrible fit of frenzy, with an incision in his throat, made with an old knife, and which he was laboring to tear larger, by inserting his fingers and pulling them apart .-The paupers all being too feeble to render any assistance, and the man promising to refrain from his attempts, until Mr. McGraw would bring him a knife to complete his destruction, the latter left to call assistance; but whilst he was gone, brief as the space was, the man dashed his arm through the window, seized a large piece of the broken glass, and, with both hands, sawed it across his throat, so as to literally cut it from ear to ear, severing his wind-pipe and jugular veins, and thus causing his death in a few minutes—all the paupers in the room looking on at the horrible tragedy, by the light of a candle, which one of them held in his hand. He was a laboring man, poorly clad, about 28 or 30 years of age, and from a memorandnm book, in his possession, it is supposed his name was Alexander Gilbert. -Hollidaysburg Register.

A Whale.—A whale was captured a few days ago near the North river, in the Chesapeake bay. Its mouth when opened measured thirteen feet from the under to the upper part. The tongue was as large as a common door, and as soft to the foot as a feather bed. The animal measures forty-three feet nine inches in length; twenty-seven feet in circumference, nine feet through, and the tail fin ten feet widc.

LADIES WANTED IN AUSTRALIA.—The latest ntelligence from Victoria contains a statisti cal return of no little interest to ladies. By and Shoes, Hats and Caps. is also large, and of the best materials and make. the last return of the register general of the colony we perceive that the numerical preponderance of men over women amounted to the astounding sum of 134,000 in a population of 470,000. In other words there were only about 168,000 women to 302,000 men.

PIKE'S PEAK GOLD MINES .- The Wyandotte Commercial Gazette of September 18th says that a small boy arrived from Pike's Peak with \$1,000 in gold, which he says he dug down and found, and the little fellow says he can get all he wants. These statements are reliable. Parties are daily returning for winter provisions. A Mr. Jones, an old mountaineer, expended \$1,000 worth of the shining dust in Independence last week, for his return outfit.

BUSINESS NOTICES.

To School Directors. Blank agreements with Teachers, and Orders on District School Treasurers, neatly printed, and for sale at the "Globe" Job Office.

For Ready-Made Clothing, Wholesale or retail, call at H. Roman's Clothing Store, opposite Miller's Hotel, Huntingdon, Pa., where the very best assortment of goods for men and boys' wear may be

See greater and the following nervous head ache. See circular and the following.

DOVER, N. H., Feb. 2d, 1857. DOVER, N. H., Feb. 2d, 1857.

PROF. O. J. WOOD & CO.—Grais: Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to-day we were compelled to send to Boston for a quantity, (the 6 dozen you forwarded all being sold.) while we might order a quantity from you. Every bottle we have sold seems to have produced three or four new customers; and the approbation, and patronage it receives from the most substantial and worthy citizens of our vicinity, fully convince us that it is A MOST VAL-UABLE PREPARATION.

Send us as soon as may be one gross of \$1 size; and one

Send as soon as may be one gross of \$1 size; and one ozen \$2 size; add believe us yours very respectfully.

(Signed,)

DANIEL LATHROP & Co.

HICKORY GROVE, St. Charles Co., Mo., November 19, 1856.

PROF. O. J. Woon—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your lestorative; we did so with little hope of success, but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say tions removed the disease enderly, and we can now say that our loy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair.

We are, yours respectfully.

GEORGE W. HIGGINBOTHAM,
SARAH A. HIGGINBOTHAM.

Gardiner, Maine, June 22, 1855.

Prof. O. J. Wood—Dear Sir: I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was a man of seventy. My Hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours respectfully.

McCahan, Andrew Robeson, John Gensimer and Wm. Gensimer, and the tract of land now owned by George and John Shoenberger, known as the Porter tract, situate in the township of Warriorsmark, at the public school house in said borough.

20th district, composed of the township of Cass, at the public school house in said borough.

the township of Warriorsmark, at the public school house in said borough.

20th district, composed of the township of Cass, at the public school house in Cassville, in said township.

21st district, composed of the township of Jackson, at the house of Robert Barr, now occupied by Robert Stewart, at McAicavy's Fort, in said township.

22d district, composed of the township of Clay, at the public school house in Scottsville.

23d district, composed of the township of Penn, at the public school house in Marklesburg, in said township.

24th district, composed and created as follows, to wit:—That all that part of Shirley township, Huntingdon country, lying and being within the following described boundaries, namely: beginning at the intersection of Union and Shirley township lines with the Juniata river, on the south side thereof; thence along said Union township line for the distance of three miles from said river; thence castwardly, by a straight line, to the point where the main from Eby's mill to Germany valley, crosses the summit of Sandy ridge; thence northwardly along the summit of Sandy ridge to the river, Juniata, and thence up said river to the place of beginning, shall hereafter form a seperate election district; that the qualified voters of said election district, that the qualified roters of said election district, that the qualified roters of said election district, composed of the borough of Huntingdon,

said district. 25th district, composed of the borough of Huntingdon, at the Court House in said borough.

26th district, composed of the borough of Petersburg and that part of West township, west and north of a line between Henderson and West townships, at or near the Warm Springs, to the Franklin township line on the top of Tussey's mountain, so as to include in the new district the houses of David Waldsmith, Jacob Longanecker, Thos. Hamer, James Porter, and John Wall, at the school house, or the transplace of David Wallsmith.

of Tussey's mountain, so as to include in the new district the houses of David Waldsmith, Jacob Longanecker, Thos. Hamer, James Porter, and John Wall, at the school house, in the borough of Petersburg.

27th district, composed of Juniata township, at the house of John Peightal, on the lands of Henry Isenberg.

28th district, composed of Carbon township, recently crected out of a part of the territory of Tod township, to wit: commencing at a Chestnut Oak, on the Summit Terrace mountain, at the Hopewell township line opposite the dividing ridge, in the Little valley: thence south lifty-two degrees, east three hundred and sixty perches, to a stone heap on the Western Summit of Broad Top mountain; thence north sixty-seven degrees, east three hundred and twelve perches, to a Yellow Pine; thence south fifty-two degrees, east seven hundred and seventy-two perches, to a Chestnut Oak; thence south fourteen degrees, east three hundred and fifty-one perches, to a Chestnut at the cast end of Henry S. Green's land; thence south thirty-one and a half degrees, east two hundred and ninety:four perches, to a Chestnut Oak on the summit of a spur of Broad Top, on the western side of John Terrel's farm; south sixty-five degrees, east nine hundred and thirty-four perches, to a stone heap on the Clay township line, at the Broad Top City Hotel, kept by Jos. Morrison, in said township.

I also make known and give notice, as in and by the 13th section of the aforesaid act I am directed, "that every person, excepting justices of the peace, who shall hold any office or appointment of profit or trust under the government of the United States, or of this State, or of any city or corporated district, whether a commissioned officer or agent, who is or shall be employed under the legislative, executive or judiciary department of this State, or of the United States, or of any city or incorporated district, and also, that every member of Congress, and of the State Legislature, and of the select or common council of any city, commissioners of an

Also, that in the 4th section of the Act of Assembly, childed "An Act relating to executions and for other purposes," approved April 16th, 1840, it is enacted that the aforesaid 13th section "shall not be so construed as to prevent any militia or borough officer from serving as judge, or inspector or clerk of any general or special election in this Commonwealth."

spector or clerk of any general or special election in this Commonwealth."

Pursuant to the provisions contained in the 67th section of the act aforesaid, the judges of the aforesaid districts shall respectively take charge of the certificate or return of the election of their respective districts, and produce them at a meeting of one of the judges from each district at the Court House, in the borough of Huntingdon, on the third day after the day of election, being for the present year on Friday, the 15th of October next, then and there to do and perform the duties required by law of said judges. Also, that where a judge by sickness or unavoidable accident, is unable to attend said meeting of judges, then the certificate or return aforesaid shall be taken in charge by one of the inspectors or clerks of the election of said district, and shall do and perform the duties required of said judge unable to attend. udge unable to attend.

judge unable to attend.

Also, that in the 61st section of said act it is enacted that "every general and special election shall be opened between the hours of eight and ten in the foreneon, and shall continue without interruption or adjournment until even o'clock in the evening, when the polls shall be ciosed." Given under my hand, at Huntingdon, the 15th day of Sep-tember, A. D. 1858, and of the independence of the Uni-

tender, A. D. 1000, and ted States, the eighty-second.
