GOVERNOR'S MESSAGE.

To the Honorable the Senators and Members of the House of Representatives of the Commonwealth of Pennsylvania :

GENTLEMEN: Although the year just closed has been one of great depression in the business and monetary affairs of the country, I am happy to be able to announce to the Representatives of the People, that the finances of Pennsylvania are in a most satisfactory condition.

The receipts at the Treasury, from all sources, for the fiscal year, ending on the 30th day of November, 1858, were \$4,139.778 35; and the expenditures, for all purposes, during the same time, were \$3,775,857 06. Leaving an excess of receipts over expenditures of \$363,921 29.

This exhibit shows that there was actually in the Treasury on the first day of December, 1858, the sum of \$363,921 29, more than there was on the first day of December, 1857. In addition to this, among the expenditures for the year, were \$380,306 85 Loans redeemed, Relief Notes, redcemed, Interest Certificates, redeemed, Making of the public debt funded and unfund-ed paid during the year the sum of If we add to this the excess of money on hand at the end of the fiscal year, over what re-mained in the Treasury, at the same time last year, viz: 421,494 55 363.921 29

We have the sum of

\$785,415 84 But this is not all. The amount paid on the public improvements, including damages and old claims, during the fiscal year, \$3-11,036 58 was While the amount of revenue, from the same source, for the same period, was only

95.070 06

Making an excess of expenditures over receipts which happily we will be relieved from in the future, of \$245,966 52

This sum should, also, be credited to the operations of the Treasury, during the year, for it was an extraordinary expenditure, which cannot again occur; and was, in fact, a reduction of the liabilities of the Commonwealth, to that extent.

If we add this sum to the amount of debt paid, and the excess of cash on hand, we have for the year, a balance in favor of the receipts, over the ordinary expenditures, amounting in the aggregate to \$1,031,382 36. But from this, however, should be deducted the extraordinary receipts, which were,

Ist. The amount paid by the Pennsylvania Railroad Company, on the principal of the debt due by the said company, to the Common-wealth. for the purchase of the Main Line, 2d. The amount received from the Girard \$100,000 Bank, for loans of the Common wealth sold by that bank, 28,000

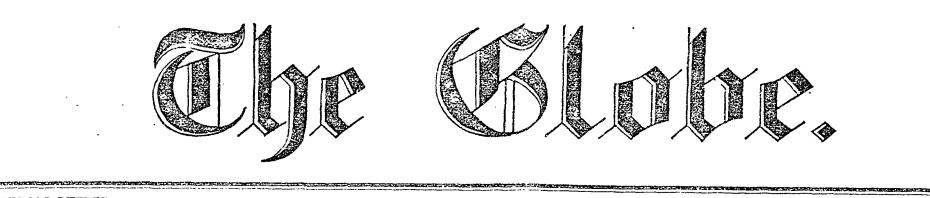

In all

Which, deducted from the foregoing aggregate of \$1,031,382 36, leaves the true balance of the ordinary receipts over the ordinary expenditures for the fiscal year at \$903,-382 36.

The funded and unfunded debt of the Commonwealth, on the 1st day of December. 1857, was as follows :---

FUNDED DEBT.	
6 per cent. loan, \$	445,180 00
5 per cent. loan,	$38,773, \pm 12$ 52
41 per cent. loan,	388,200 00
4 per cent loan,	100,000 00
To this should be added 5 per cent. Cou- pon Bonds sold by Girard Bank, not before reported,	28,000 00
Total funded debt,	\$09,734,592 5:
UNFUNDED DEBT.	
Relief Notes outstanding,	\$146,421 00
Interest certificates, do.,	23,473 82
Do. do. unclaimed,	4,448-38
Domestic creditors,	802-50
Total unfunded debt,	\$175,145 70
Making the entire debt of	the Common-

wealth at the period named \$39 909,738 22. The funded and unfunded debt of the State at the close of the last fiscal year, December 1st 1858 stood as follows :-

ly, urge upon your favorable consideration, at the present propitious moment, the organ- | tion. ization of such a Department, in the room of those for the care of mere matter whose agency has been or soon will be discontinued by the onward and upward progress of the Commonwealth.

A suitable Department of Public Instruction, will not, however, of itself, effect all that is needed in this direction. The general results of the Common School system, already cited, show the importance of its nature, and the magnitude of its operations .--If we look, also, into its special statistics, the conclusion will be equally clear that certain improvements in its working machinery, are equally indispensable.

It is needless to attempt to prove the truism that the properly qualified teacher is the life and success of the school. But the facts are startling, that of the 12,828 teachers of our public schools, exclusive of those in Phila-delphia, only 5,087 are reported as "qualified" for their important trust; while 5,387 are returned as "medium," or such as are only tolerated till better can be obtained; and that 2,313 are stated to be "unfit." In other words: of the 569,880 children attending the schools out of Philadelphia, only about 230,000 (less than one half) are under proper instruction and training; while about 240,-000 are receiving insufficient instruction from inferior teachers; 100,000 are actually in charge of persons wholly unfit for the task. This presents the subject in a light that can not be shut out; and, though the great and commendable efforts recently made by the teachers of Pennsylvania, for their own improvement, are fully recognized, it can not be concealed that there is a work yet to be done, in this relation, which would seem to be beyond their unaided power to accomplish. When, however, we look further into the special statistics of this branch of the system, the material for improvement is found to be of the most promising kind. Of the 12,828 teachers of our common schools, 10,889 are under thirty years of age, and 10.946 are sources and financial condition it is apparent natives of Pennsylvania; and a larger pro-

portion than in most of the other States, are in the history of the Commonwealth. Re-lieved from the entangling embarrassments of an extensive system of internal improvements, to which they aspire—andoubtedly one of the mean of the State are as a set of the means of the State are now ample for all | the most useful and honorable in the worldlegitimate purposes, and her public debt is and to raise up a constant supply of well gradually but certainly disappearing. NO. 29.

The application of scientific principles to the practical purposes of life, is but realizing the full benefit of those laws of nature, held in view and affected by our higher inyour favorable consideration.

Under a resolution of the last House of Representatives a committee was apyointed by the Speaker of the House, to examine the state and condition of several Banks chartered at the session of 1857. The resolution directed the committee to report to the Governor the result of its examination within ninety days after the adjournment of the legisla- the market, would be as safe and available ture. On the 20th of July last, the report of | as any guaranty which could be provided. committee, together with the accompanying evidence, was filed in the Office of the Secretary of the Commonwealth, a copy of which will be laid before the House of Representatives.

In view of the facts reported by the committee, in reference to the organization and subsequent management of the Tioga County Bank, the Crawford County Bank, and legegranted by the State, and the State ought, the Bank of Shamokin, I would recommend therefore to have the benefit of it, as far as a careful inquiry into the present condition of these institutions, and if it shall be ascertained that the public is likely to suffer injury from the further existence of either, a a legislative repeal of the rights and privileges the citizens of the Commonwealth, is expressly given by the Constitution to the General Assembly,-to be exercised, however, in such manner as that no injustice shall be done to the corporators.

Obedience to this constitutional injunction would require that in the event of a repeal of a charter of a hank, care should be taken that overdue, amounting to more than seventeen the rights of the stockholders to the surplus millions of dollars. Under this system the assets of the bank, after payment of its debts, State loans would no longer be held by foreignwere protected ; and that suitable provisions | ers, and the semi-annual shipments of specie, should, be made for settling its affairs. The injunction contained in the Constitution, that the repeal or revocation of a bank amount actually secured, the danger from charter shall be in such manner as to work expansions, which have therefore stimulated no injustice to the corporators, is not a qual- the incautious to embark in ruinous enterification of the power to revoke, or annul, the prises, in overtrading, and in extravagance charter, but it is simply a requirement that, in their expenditures, would be greatly lesin taking away the charter, the rights of the sened, if not entirely overcome. As the scstockholders shall be protected, so far as it | curities would be in the hands of a high and is consistent with the act of repeal itself. I responsible officer of the State, with authority do not doubt that the legislature may alter, to sell them for the purpose of redeeming revoke or annul, any existing bank char- the circulation, the power of the banks to ter, whenever in its opinion the continuance arrest specie payments at their own pleasure of the charter may be injurious to the citizens | would be at an end. The system proposed of the Commonwealth. Any other construction of the Constitutional reservation would make the interests and safety of the public present prepared for. The duty of securing subservient to the gain of the private stock- the community from losses continually ariholder, Believing, therefore, that there is no sing from unsafe currency, cannot be longer want of power, I cannot refrain from expres- delayed without a manifest disregard of the want of power, I cannot refrain from expressing my decided opinion that whenever it is public interests. The subject is therefore clear that a bank is insolvent, or in great danger of becoming so, or whenever its privileges are so used or abused as to seriously prejudice the interests of the public, it is the duty of the law making power to protect the people, by destroying its corporate existence. In this connection I deem it my duty to reiterate the views expressed in my inaugural address. I then stated, as my decided opinion, that there should be no further increase of banks or banking capital under the present system-expressed a decided hastility to the issue of notes of a small denominationand recommended such a change in our laws relative to banks, their organization and management, as would at least secure beyond all question the prompt redemption of all bills or notes put in circulation by the several banking institutions of the commonwealth. Well satisfied of the imperfection of existing laws relative to banks and banking, I deem it a duty to inform the General Assemto any bills chartering additional banks without a radical change in the entire system .--It is but just to state that in my opinion a large majority of the banks of the Commonwealth are well and safely managed, and in ciency of the laws. Under the management

attribute of sovereignty to a number of irresponsible corporations without proper checks to limit its exercise, and without providing any security whatever, for the redemption of the issues thus authorized, has been attended with evily of the most alarming character. These corporations are practically made the exclusive judges of the amount of paper currency to be furnished to the people, and have the exclusive power to contract or expand their circulation at pleasure. Depositors and other ordinary creditors of banks, need no legislation for their protection. Every one who has direct dealings with these institutions, either as depositor or otherwise, enters into such engagements voluntarily for his own advantage, and may be safely left to his own vigilance, and the ordinary remedies of the law, for his protection. But the millions of peo-ple engaged in industrious pursuits, the farmer-the mechanic-the merchant-and the aboring man-are under an imperious necesity to receive for their merchandise and their labor, the ordinary paper currency of the country. It is possible for persons of this description to investigate the concerns of everv institution whose notes are in circulation. But no investigation could save them from the losses arising from the defaults and frauds of bank officers and the insolvency of bank borrowers.

The note holders of banks have peculiar claims to the protection of the government .----They are involuntary creditors, who are forced to receive the notes authorized by the government. They have no direct dealings with the banks. They do not trust the banks from any hope of gain. They have no profit in passing the notes which they would not have had in passing gold and silver to discover and to profit by, which, is un-doubtedly one of the great ends of human munity, and the humble and ignorant are alreason. The more this important object is | ways the greatest sufferers when a bank fails to redeem its notes. The whole people are stitutions of learning, the more valuable and therefore deeply interested in the security of useful will they become. The Polytechnic the circulation allowed by law, although College of Pennsylvania at Philadelphia, is many of them may never have had a share founded on this basis; and its attempt to of bank stock, or been within a hundred popularize science, and connect high acquire- miles of its place of business. The Government with practical ability, is presented to ment that authorizes the issue of a paper currency is under a high moral obligation to require ample and available security for its redemption.

The certificates of loan issued by the General Government, or by this Commonwealth. at a value to be fixed upon, with the power to require additional deposits of security, from time to time, as the loans depreciate in

A law requiring all issues of banks hereafter organized, to be secured by the pledge of these loans, would enhance the value of the present loans, and thus give the her be-

a premium not contemplated when the suc came purchasers, and for which they are er gave any valuable consideration. This enhanced value would be derived from a privithis may be secured by legislation. The recent amendment of the Constitution circumscribes the power of he Legislature in creating State debts, with an exception in favor speedy and certain remedy may be found in of debts contracted "to redcem the present outstanding indebtedness of the State." A granted by the acts of incorporation. The law authorizing new State loans for the purpower to alter, revoke, or annul, the charter pose of redeeming the present over due debt, f a bank whenever its continuance may, in would be within the constitutional exception the opinion of the legislature, be injurious to and would be free from objection on constitutional grounds.

The new loans thus authorized, redeemable at the expiration of twenty years, with the banking privilege attached to them, would undoubtedly sell at a high premium. The proceeds of their sale should be applied to the payment of the present State debt, now to pay interest, would therefore cease.

FUNDED DEBT. ŝ 6 per cent. loans, 5 per cent. loans, 41 per cent. loans, 4 per cent. loans, Total funded debt, \$39,354,285 67 UNFUNDED DEBT. Relief Notes outstanding, \$105,350 00

Interest Certificatés, unclaimed, do. Do. Domestie Creditors,

\$133,958 00 Total unfunded debt, Making the public debt on the first of December last, \$39,488,243 67. Since the close of the fiscal year, the Commissioners of the Sinking Fund have redeemed of the five per cent. loan, the sum of \$220,132 51, leaving the real debt of the Commonwealth, at this time, funded and unfunded, \$39,268,111 16.

To meet this, besides the ordinary sources of public revenue, the State owns bonds received from the sale of the public works, and which I have every reason to believe, are well secured, amounting to eleven millions one hundred and eighty-one dollars. Deducting this from the outstanding debt, it leaves to be otherwise provided for, the sum of twenty-eight millions eighty-seven thousand one hundred and eleven dollars and sixteen cents.

It is believed that, with the existing sources of revenue, and the observance of strict gages on the canals given by the Sunbury economy, this sum may be reduced, during and Erie Railroad Company, were cancelled the current year, at least one million of dol- by the State Treasurer, and surrendered by lars.

The present would seem to be the appropriate time-when our nation is at peaceand when health and reasonable prosperity prevail within our own borders-to greatly reduce the public debt. We have but to carefully husband our legitimate resources, avoiding extravagant and unnecessary appropriations, and practicing a proper economy in all the departments of Government, to render the entire extinguishment of our debt a fixed fact within a very brief period. To carefully guard the public treasury at this interesting epoch in our financial history, is so manifestly the duty of the public authorities, that I cannot for one moment believe that any other policy will be proposed. If there be any, who, relying on the improved condition of the finances of the State, would encourage the adoption of new schemes for depleting the Treasury, or would cut off the sources of our present revenue, and thus reduce it, let all such efforts, coming from whatever quarter they may, be sternly resisted. Let Pennsylvania be just before she is generous. Let our good example be a light in the pathway of our sister States, as well as an admonition to our own local governments.-This is due alike to the favors which Providence has so bountifully bestowed upon us, people of this good old Commonwealth.

In pursuance of the act entitled "An Act for the Sale of the State Canals," approved on the 21st day of April last, I did, as the Governor of the Commonwealth, on the 19th

Upon investigation and inquiry, having become satisfied that these sales were made 445,180 00 for fair prices, and upon such terms, and 38,420,905 67 | to such persons composing the various pur-388,200 00 chasing associations, as to insure the pay-100,000 00 ment of the purchase money, they were severally approved.

The Upper and Lower North Branch Ca-

nal, to the North Branch Canal Company, for The West Branch and Susquehanna Divis-

ions, to West Branch and Susquehanna Ca-

nal Company, for The Defaware Division, to the Defaware Division Canal Company, of Pennsylvania, for

After the contract for the sale of the Delaware Division had been entered into and my consent had been verbally given, and seventy five thousand dollars of the purchase mon-23.357 12 oy had been actually paid by the purchas-4,448 38 ers, upon the faith of the contract, and my 802 50 assent thereto, I was informed that a higher price had been offered, by responsible persons, for the canal. But under the circum-

stances, my opinion was that the offer came too late; and as the Railroad Company considereditself bound to consummate the agreement by a delivery of the decd and possesion of the property to the first purchasers, I could not, in good faith, withhold my assent. The North Branch Canal Company, subsequent to the purchase of that division, sold that portion of the canal lying between Wilkesbarre and Northumberland to the Wyoming Canal Company for the sum of nine hundred and eighty-five thousand dollars. On the 13th of September, 1858, bonds of the various companies owning the different canals, secured by mortgages, were, in pursuance of the act, and by my approval, deposited with the State Treasurer to the amount of two millions of dollars; and the mortand Erie Railroad Company, were cancelled me to the company in accordance with the directions of the law. At the same time a settlement was made between the Common-

wealth and the Railroad Company, by which the latter paid to the State seventy-five per centum of the proceeds of the re-sale over and above the contract price of three and a half millions. This amounted to two hundred and eighty-one thousand two hundred and fifty dollars, and was paid in the following manner, viz :

Bonds of the Wyoming Canal Company, se-sured by mortgage on the Canal from Wilkes-barre to Northumberland, payable, in twenty years with interest at six per ceut, payable reminance semi-annually, Cash,

Total, These bonds are well secured, and the accruing interest and principal, when due, will doubtless be promptly paid.

\$2\$1,000

\$2\$1.250

250

From information of a reliable character recently communicated to me by the President of the Sunbury and Erie Railroad Company, it appears that the prospects of an early completion of that great public highway are very encouraging. A large amount of work has been done on the line of the road during the past season, and at this time, very considerable portions of the road are graded and rapidly approaching compleand to that high character for honesty and tion. It is the opinion of the President of integrity which has ever distinguished the the company, that, within two years, the

ture of the subjects of its operation has chang- flection, I am led to prefer that devised by ed in a degree no less remarkable.

evidences of their transfer.

The sale of the public works has relieved In the same proportion, the action of the people be true to the interests reposed, and sternly refuse to entangle the public with to be fairly tested ? those numerous projects and enterprises which are continually seeking its alliance, be simplified and economized, purified and strengthened.

And it is as remarkable as it is propitious, that an era which has thus relieved the State authorities of burthens that consisted, either of mere material interests, or the care liar importance.

it the first object of their solicitude.

tem, and of its operations during the past year. Your close and scrutinizing attention is invited to the details of that document. Including the city of Philadelphia, it will be observed, that there were in the public schools of the State, during the year which terminated on the first Monday of last June,

Here is a public interest, which,-whether we regard its ramifications into every portion of our social fabric, its large cost, the important powers over the present which it wields, or its incalculable influence upon the future, undoubtedly transcends all others committed to care of the secular authorities. This being the case, I have no hesitation in asserting that the time has arrived when its full importance should be recognized, and that its

The ruinous losses which have fallen upon

As the currency would be limited to the is as near an approach to a specie basis as the condition and habits of the people are at commended to your early attention.

The report of the Commissioners appointed to contract for and superintend the erection of a monument to the memory of citizens of Pennsylvania, who were slain or lost the'r lives in the late war with Mexico, will inform the Legislature of the proceedings had on that subject. After receiving proposals for the erection of the monument, and the adoption of a plan, it is determined, in view of the limited and inadequate appropriation made for the accomplishment of the purpose by the last Legislature, to postpone the com-mencement of the work until further legislation could be had. It is the opinion of the Commissioners that such a monument as would do credit to State, and honor to the living and the dead, cannot be built for a less sum than thirty thousand dollars. If the Legislature should concur in that opinion, the appropriation should be increased according-

The report of the State Librarian will inform you of the progress made in the cata-logue authorized by the last Legislature, and the general condition of the Library, which has grown to be an institution that deserves your fostering care. I would commend to

will be laid before you, will exhibit the oper-ations of the Law Department of the Government for the past year. The Act of the 21st of April, 1857, which requires the Attorney General to keep an office at Harrisburg, and which provides that all debts due to the Commonwealth shall be collected by that officer, has proved to be a highly beneficial enact-

sions and counsel fees. And the improved degree owing to the prompt manner in which
