THE HUNTINGDON GLOBE, A DEMOCRATIC FAMILY JOURNAL, DEVOTED TO LOCAL AND GENERAL NEWS, &C.

THE GLOBE.

Huntingdon, Wednesday, Mar. 30, 1859.

LOCAL & PERSONAL.

☞ Peterson's Counterfeit Detector for April, received and for sale at Lewis' Book Store.

☞ The India Rubber Pen, a new and first rate article, received and for sale at Lewis' Book Store.

OSAGE ORANGE HEDGE.—Messrs. Taylor & Cremer have a specimen worth looking at, in their nursery in this place.

☞ Dr. Happer delivered a very interesting lecture on China, in the Presbyterian Church on Monday evening last.

THE MAGAZINES FOR APRIL.—Harper's, the Great Republic, Godey's Lady's Book, and Peterson's Ladies' Magazine, received and for sale at Lewis' Book Store.

☞ The Canal will be ready for navigation on the first of April, when boatmen will "pitch in," as there is any quantity of loading at this place.

THE CROPS.—From every part of this county we hear that the appearance of the grain fields promise a rich harvest. The good times are coming.

☞ Those of our subscribers who change their places of residence on the first of April will please give us notice of such fact, so that we may know how to direct their papers.

☞ Window Shades, Cords, Tassels, Gimps—a good assortment still on hand, at Lewis' Book Store. Several new styles will be received this week. Call and see for yourselves.

☞ Boss Westbrook is coming to town, or rather changing to a location in the heart of business—two doors east of the "Globe" building. He will have a large room for the convenience of all who may want to examine his stock of boots and shoes.

☞ There is no longer a doubt about the new steam flourering mill in Portstown. The mill has been ordered, and expected to be ready for operation in June or July next.

The timber for the new Sumac and Bark Mill, is on the ground, and the mill will be ready for trade early in the season.

☞ Mr. Owen Boat has erected a large new building in Smith street near the jail, into which he will move this week, and be prepared to turn out the very best vehicles on short notice. As everybody knows that Mr. Boat is one of the best mechanics in the country, there will be no risk run in bargaining with him for a carriage, buggy, &c.

NEW GOODS.—Our merchants are now engaged assorting their new goods. From the quantity arriving they must expect to do a rushing business,—if not a profitable one.—Next week you may expect to hear through the columns of the "Globe" which of our merchants have the best and cheapest goods, and if they will take the advise of one who is making a fortune by advertising, *all* will have the best and cheapest goods.

☞ On Saturday last, we were shown by our young friend, Mr. James Green, a beautiful statue of little Samuel, which was gotten up by him. It is a beautiful piece of workmanship, and he deserves great credit for his skill as a good workman. It can be seen at Carmon's store. We are pleased to know that Huntingdon can and does turn out about as good mechanics as any place we know of, and Mr. Green is about as good a marble cutter as can be found anywhere.

HOTELS CHANGING PROPRIETORS.—There will be quite a stir among the Hotel keepers of this place this week. Sheriff Zeigler retires from the Jackson Hotel, and Col. John S. Miller, of the Franklin, takes his place.—Col. Wm. Williams & Bro., leave the Farmer's Home and go into the Franklin. Our old friend Christian Couts returns to the ancient borough and goes into the Farmer's Home. All will try to accommodate their friends in the best style. Give them a call.

MR. EDITOR:—I enclose you a Poem (?) which occupied myself in connection with Mr. Longfellow, two years! I have no doubt if you insert it in your paper, that your subscription list will soon be swelled to *two hundred thousand!* I shall charge you nothing for it; but if you do not feel disposed to accept it for nothing, I will hereby authorize you to contribute one hundred thousand dollars to the Mount Vernon Association, in my name. Patriotically yours,

COMMUS TOUN.

"A FEW LINES."

BY COMMUS TOUN.

The rosy morn, dear one, so fresh and bright
Dispels the darkness of a mournful night.
And makes me feel, yea even whilst I write,
That thou art near.
But still, alas, a pain comes o'er my heart,
('Tis such as lovers feel when first they part)
And I am made unwillingly to start,
And yet to fear.

But thou wilt blame not! The morning's sun
With all its brightness sometimes is o'errun
With low'ring clouds, and brightness just begun
Doth soon decay.
The heart too in its glow is ofttimes crush'd,
And noisy joyousness as often hush'd,
When sadness o'er the soul hath madly rush'd
To hold its sway.

But doubt me not, dear one, 'tis vain to fear,
Yea, even think of me as though I'm near
And whispering to thee fondly, whilst a tear
Is made to start,
I love thee still, and long to greet the day
When joyously I'll hie myself away
To clasp thee fondly, *and* to hear thee say,
No more we'll part!

COUCH'S MILL.—This property has been purchased by our townsman, Mr. Henry Cornpropst, who will take possession and commence operations on the 1st of April.—We regret to lose him as a citizen of the ancient borough, but as he expects to be in town often with flour, and a good article at that, the change will be a good one as well for himself as for our citizens, and the farmers to be accommodated by his mill. As appearances favor the prediction of a heavy crop this season, our prospects for a trial sample of Henry's best, may be considered good.

☞ We are having delightful weather just now. Everything has a spring-like appearance. The little robin red-breast can now be heard warbling forth the sweet strains for which it is noted, and, the grass is springing up as green as any grass we ever saw, and the crops promise to be better than they have been for several years. We only hope that they may, and that the price of wheat may come down to 50 cents per bushel, and give us poor Editors a chance to live like we used to, instead of living on hoe-cakes and herring bones. We like hoe-cakes sometimes, but we give our word for it, we don't like to eat them all the time.

A RELIC.—On Saturday last, we were shown by Mr. E. Summers, a piece of what is supposed to be the original Standing Stone, found by him some time ago. It is a slate stone about two feet in length, and one in breadth, and on the sides and edges, are cut the names of several persons, (which we don't now remember,) dated as far back as 1768. Some person has chipped one side of the stone off, leaving quite an offset, and no doubt defacing several names. The stone looks as though it had been used for some purpose or other at one time, as it is very smooth and nice. It is quite a relic, and the veritable Ed. says it is a genuine article. It can be seen in his saloon, under the post office, and the curious should not fail to go and take a look at it, and we can assure them that Ed. will take great pleasure in explaining any mystery that may puzzle the mind of the curious.

THE BOROUGH ELECTION.—On next Monday it will be the duty of the citizens of this borough to select officers for the corporation. The exercise of the right of suffrage is not only a privilege which every citizen is entitled to exercise, but it is a duty which every one should faithfully perform. Minor stations in our great political system most directly interest the people, and such positions should be conferred only upon the worthy.—Too often these elections are treated with almost criminal and certainly with culpable neglect by those persons who, in case an improper man is elected to office, are loudest in their denunciations and complaints.

The maintenance of good order, the security of person and property, the cleanliness of our public streets and alleys, and the health, comfort and convenience of our people, depend much upon the faithful execution of our municipal laws. To select officers who will attend earnestly and faithfully to these matters of great importance to every inhabitant should be the first and highest consideration to the voter as he advances to deposit his ballot.

TO BUSINESS MEN.—Every business man and mechanic who has a proper appreciation of the true mode of doing business, ought to have impressed upon his memory the fact that no man should be delicate about asking for what is properly his due. If he neglects doing so, he is deficient in the spirit of independence which he should observe in all his actions. Rights are rights, and if not granted, should be demanded. The selfish world is little inclined to claim it. The lack of proper fulfillment of this principle has lost to many, fortune, fame and reputation.

Occasionally a customer, who is less a gentleman than an upstart, puts on haughty airs and affects to be insulted at being dunned for money that he ought to have paid long before. No matter. The laborer is worthy of his hire. We know it is unpleasant to be dunned, and equally unpleasant to dun other people; nevertheless, circumstances sometimes require that we submit to both; but we would be sorry to get "wrothy" at a man because he asked us for his own, and a man is "very small potatoes" who will fly in a passion when we demand a small bill.

SPARE THE BIRDS.—A writer, over the signature of "Lover of Nature," says that were farmers aware of the vast benefit which the destruction of insectiverous birds are to them not another day would pass before an attempt was made to avert this evil. There is the sap-sucker, that indispensable agent in the rearing of fruit trees, is a conspicuous mark for the roaming, loafing gunner; and the red-breast, a bird that will descend through all future ages as the friend of man, and that is so beautifully connected with our nursery tales; the blue-jay, the oriole or hanging-bird, the sparrow, and in short all that come within their reach are shot down without mercy. There is a law, passed by our Legislature but a year or two ago, to prevent this destruction of birds, and what is the use of having laws and law-makers if they are not enforced? If this bird law were carried out to its fullest extent by every farmer, the birds would increase, and necessarily as they increased, the insects that destroy the crops would decrease; and as a natural consequence there being a less number of insects to depredate upon the grain, larger and better crops would be the result.

[For The Globe.]

MR. EDITOR:—I had the pleasure of attending the Examination of the Franklin School, at Meadow Gap, on Saturday the 19th inst.

This school has been under the vigilant care of Mr. John M. McAninch, during the last two sessions The Examination consisted of a thorough review of all studies pursued the last winter. The classes in geography, grammar, mental arithmetic and algebra, with a select essay and declamation by most of the scholars. We were much delighted with the compositions and declamations, which was sufficient to show that the scholars were well trained.

After the Examination, which occupied some five hours, George. W. Holland delivered an oration. Subject—Defence of the Common School teacher. (All we had to regret was, that the patrons of all the schools in the District were not present.) It was delivered in a very eloquent manner, which led us to believe that the speaker understood his subject, and dealt with it accordingly. Last, though not least, was some very touching remarks to the scholars by the teacher. The teacher of this school deserves much credit, certainly any Board of Directors would be fortunate in securing his services. PLATO.

MR. EDITOR:—Being convalescent last week, I was unable to furnish you with any news, but this week I am again at my post, ready for duty, and send you the following, which is a little late, but as it is pretty good, it will answer every purpose yet:

On Friday afternoon of week before last, a well known colored "plug," John Hanson, having just been released from jail, was celebrating the event by getting on a "big drunk," and as a colored boy was passing by on a horse, where he was, on Tow Hill, he took it into his head that both the boy and horse ought to have a sound drubbing, and took the task upon himself. After pulling the boy off the horse, and thrashing him, he commenced on the horse, but ere he had finished his work, the fuss attracted quite a crowd, and one Bill Brooks (colored,) then proceeded to chastise Hanson for his inhuman conduct, which he did do most effectually, to the delight of the bystanders. Hanson not being satisfied with this, kicked up a fuss with another darkey, "Old Dog Tray," as he is called, who split a board over Hanson's head, and otherwise beating him, which he justly deserved. After the affairs were over, it was pretty hard to tell whether Hanson was a red man or a darkey.

Oh, Mr. Editor, but I am becoming popular amongst the ladies. Yes, sir. Why, only the other evening whilst promenading with a lady she informed me that whoever "that Ex-Reporter for the *Globe* is, he is a dirty, mean fellow," and indeed she wouldn't speak to, nor be seen on the street with him. I told her that he was a particular friend of her's, but she denied it like a Turk, and said "no friend of her's would write that way." Of course I had to cave, very reluctantly, however. Yes, Mr. Editor, I am making a disturbance in our town.—Why, one fellow threatens to horse-whip me in the public street, another says he can whip the man who is the author of the Ex-Reporter letters, and if he ever finds out who it is, he will most certainly do it; another says nobody but a rascal would dare to indite such slanderous articles on paper, (of course, then I am a rascal, and shall try to establish a reputation to that effect,) about the citizens of Huntingdon, yes, dear old Huntingdon. But you will observe that I am not taking very much notice of them, but to let them know who I am and what I am, I will hereby, and at this time, give public warning to all those who have any intentions of assaulting me, that I carry on and about my person, eleven bowie knives, fifty-seven revolvers, eighteen dirks, several single-barreled pistols, &c. &c., and many other articles to numerous to mention just here, but not for the purpose of protecting my person from assassination exactly, but to dispose of to the *good* citizens of our town, as it is no inconvenience for me to step up to the door of a house, while in pursuit of material for your paper, and ask the proprietor whether he would like to buy an article of that kind; neither do I sell them for any pecuniary benefit, for you know, Mr. Editor, that the salary I receive from you, is sufficient to keep half a dozen women in hoops, but merely for the fun of the thing. I would further state, however, for the benefit of those interested, that should I be molested, I would not be slow to try the quality of one of my beautifully finished life-preservers, if you please.

That isn't all either, Mr. Editor, some folks blame a poor, innocent and unoffending young lawyer, for being the author of these letters, who never harmed any person in his life, and I don't suppose he would either. They have him almost frightened to death about it, but you know, Mr. Editor, I can't help it. He strongly denies having anything to do with them, but persons think they are so characteristic of him, that they do not believe a word he says. I will just say for the poor fellow, that it isn't him, but I, who am not a lawyer, but who is going to be. Yes, Mr. Editor, I think I will go to studying law next week. If you have any cases you want "put through," bring them to me, or my partner, and we will see that you come out whole, for I rather think you are a pretty clever sort of a man. I will send in my card next week. You will see the number and row of my office on it. More anon.

Yours gloriously, EX-REPORTER.

JOY TO THE ADMIRERS OF A FINE HEAD OF RICH GLOSSY HAIR.
Talk of beauty, it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt.
PROFESSOR WOOD'S HAIR RESTORATIVE.—We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence if used as a *regular dressing for the hair will preserve its* color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the grey, or diseased in scalp, to use it: and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.
The Agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restorative, a few weeks since:
DEEP RIVER, CONN, July 23, 1856.
Mr. Leavenworth—Sir: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure. I called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing; it removed the scurf and new hair began to grow; it is now two or three inches in length *where it was all off.* I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here. Yours with respect,
RUFUS PRATT

PHILADELPHIA, Sept. 9, 1856.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—in fact BALD. I have used but two half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it.
Yours respectfully, D. R. THOMAS, M. D.
No. 464 Vine street.

VINCENNES, IA., June 22, 1853.
PROF. O. J. WOOD: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair.
Respectfully yours, WILSON KING.

GROVER & BAKER'S CELEBRATED FAMILY SEWING MACHINES.
New Styles—Prices from $50 to $125. Extra Charge of $5 for Hemmers.
495 Broadway,.....New York.
730 Chestnut street,.....Philadelphia.
These Machines sew from two spools, as purchased from *the store, requiring no re-winding of thread;* they Hem, Fell, Gather, and Stitch in a superior style, finishing each seam by their own operation, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for *one cent an hour,* and are, unquestionably, the *best Machines* in the market for family sewing, on account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment.
As evidence of the unquestioned superiority of their Machines, the GROVER & BAKER SEWING MACHINE COMPANY beg leave to respectfully refer to the the following
TESTIMONIALS.
"Having had one of Grover & Baker's Machines in my family for nearly a year and a-half, I take pleasure in commending it as every way reliable for the purpose for which it is designed—Family Sewing."—*Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent.*
"I confess myself delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."—*Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate.*
"After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."—*Mrs. E. B. Spooner, wife of the Editor of Brooklyn Star.*
"I have used a GROVER & BAKER Sewing Machine for two years, and have found it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch. The Machine is easily kept in order, and easily used."—*Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York.*
"Your Sewing Machine has been in use in my family the past two years, and the ladies request me to give you their testimonials to its perfect adaptedness, as well as labor-saving qualities in the performance of family and household sewing."—*Robert Boorman, New York.*
"For several months we have used Grover & Baker's Sewing Machine, and have come to the conclusion that every lady who desires her sewing *beautifully and quickly* done, would be most fortunate in possessing one of these reliable and indefatigable 'iron needle-women,' whose combined qualities of *beauty, strength and simplicity,* are invaluable."—*J. W. Morris, daughter of Gen. Geo. P. Morris, Editor of the Home Journal.*
Extract of a letter from THOS. R. LEAVITT, Esq., an American gentleman, now resident in Sydney, New South Wales, dated January 12, 1858:
"I had a tent made in Melbourne, in 1852, in which there were over three thousand yards of sewing done with one of Grover & Baker's Machines, and a *single* seam of that has outstood all the *double* seams sewed by sailors with a needle and twine."
"If Homer could be called up from his murky hades, he would sing the advent of Grover & Baker as a more benignant miracle of art than was ever Vulcan's smithy. He would denounce midnight shirt-making as 'the direful spring of woes unnumbered.'"—*Prof. North.*
"I take pleasure in saying, that the Grover & Baker Sewing Machines have more than sustained my expectation. After trying and returning others, I have three of them in operation in my different places, and, after four years' trial, have no fault to find."—*J. H. Hammond, Senator of South Carolina.*
"My wife has had one of Grover & Baker's Family Sewing Machines for some time, and I am satisfied it is one of the best labor-saving machines that has been invented. I take much pleasure in recommending it to the public."—*J. Harris, Governor of Tennessee.*
"It is a beautiful thing, and puts everybody into an excitement of good humor. Were I a Catholic, I should insist upon Saints Grover and Baker having an eternal holiday in commemoration of their good deeds for humanity."—*Cassius M. Clay.*
"I think it by far the best patent in use. This Machine can be adapted from the finest cambric to the heaviest cassimere. It sews stronger, faster, and more beautifully than one can imagine. If mine could not be replaced, money could not buy it."—*Mrs. J. G. Brown, Nashville, Tenn.*
"It is speedy, very neat, and durable in its work; is easily understood and kept in repair. I earnestly recommend this Machine to all my acquaintances and others."—*Mrs. M. A. Forrest, Memphis, Tenn.*
"We find this Machine to work to our satisfaction, and with pleasure recommend it to the public, as we believe the Grover & Baker to be the best Sewing Machine in use."—*Deary Brothers, Allisonia, Tenn.*
"If used exclusively for family purposes, with ordinary care, I will wager they will last one 'three score years and ten,' and never get out of fix."—*John Erskine, Nashville, Tenn.*
"I have had your Machine for several weeks, and am perfectly satisfied that the work it does is the best and most beautiful that ever was made."—*Maggie Aimison, Nashville, Tenn.*
"I use my Machine upon coats, dressmaking, and fine linen stitching, and the work is admirable—far better than the best hand-sewing, or any other machine I have ever seen."—*Lucy B. Thompson, Nashville, Tenn.*
"I find the work the strongest and most beautiful I have ever seen, made either by hand or machine, and regard the Grover & Baker Machine as one of the greatest blessings to our sex."—*Mrs. Taylor, Nashville, Tenn.*
"I have one of Grover & Baker's Sewing Machines in use in my family, and find it invaluable. I can confidently recommend it to all persons in want of a machine."—*G. T. Thompson, Nashville, Tenn.*
"I take pleasure in certifying to the utility of the Grover & Baker Sewing Machines. I have used one on almost every description of work for months, and find it much stronger and better in every respect than work done by hand."—*Mrs. D. W. Wheeler, Nashville, Tenn.*
"I would be unwilling to dispose of my Grover & Baker Machine for a large amount, could I not replace it again at pleasure."—*Mrs. H. G. Scovel, Nashville, Tenn.*
"Our two machines, purchased from you, do the work of twenty young ladies. We with pleasure recommend the Grover & Baker Sewing Machine to be the best in use."—*N. Stillman & Co., Memphis, Tenn.*
"The Grover & Baker Sewing Machine works admirably. I think the stitch and work far superior to that of any Sewing Machine I ever saw. On fine work, I think the Machine would be hard to beat."—*J. W. Davis, Memphis, Tenn.*
"I find the Machine easily managed, very durable, and take pleasure in recommending it to all who wish convenience, economy, and pleasure."—*Mrs. P. Titus, Memphis, Tenn.*
"The Grover & Baker Sewing Machines have given such satisfaction that we cheerfully recommend them to all who wish a good and substantial Sewing Machine. It executes work with much care and speed, and more finely than any other machine I have seen."—*Mrs. R. B. Mitchell, Memphis, Tenn.*
"I am happy to give my testimony in favor of Grover & Baker's Sewing Machine, and of the perfect satisfaction it gives in every respect. It sews neatly, and is by no means complicated, and I prefer it to all others I have seen."—*Mrs. Bryan, wife of Rev. A. M. Bryan, Memphis, Tenn.*
"It affords me much pleasure to say, that the Machine works well; and I do not hesitate to recommend it as possessing all the advantages you claim for it. My wife is very much pleased with it, and we take pleasure in certifying to this effect."—*R. C. Brinkley, Memphis, Tenn.*
"It gives me pleasure to find the Grover & Baker Sewing Machine giving so much satisfaction. I have it in constant use, and find it all that could be desired. It is the most simple and durable machine in use, and I heartily recommend it."—*F. M. White, Memphis, Tenn.*
"Having seen, examined, and used many other kinds of Sewing Machines, I feel free to say, that the Grover & Baker Machines are far superior to all others in use."—*M. Francios Seltz, Nashville, Tenn.*
"I consider my Sewing Machine invaluable, and would not take five times its cost, if I could not supply its place. With it I can do all my family sewing in about one-fourth the time I could with my hands."—*M. J. Scott, Nashville, Tenn.*
