THE GLOBE.

Huntingdon, Wednesday, April 20, 1859.

LOCAL & PERSONAL.

The frost hereabouts has considerably injured the prospects of an abundant fruit

The Court proceedings not being complete, their publication is deferred until our

Cow Killed .- A valuable cow owned by Mrs. Morgan, of this place, was killed by being thrown from the track by a freight train, on Friday last.

The report from all sections of the country, is that the winter grains are in good condition, and prospering finely. The prospect for a heavy harvest of wheat is very good.

I. O. O. F.—The anniversary celebration of the O. F., comes off at Alexandria on Tuesday next, 26th inst. Public exercises at 3 P. M., to be followed by refreshments and soiree in the Hall. The public are invited to

SOMETHING NEW.—Mr. Wm. Summers is completing his arrangements for opening a charged. news depot on the street, where all the best weekly and daily papers can be had fresh from the press. We hope he may meet with abundant success.

Our town was pretty well crowded last week-first week of Court-and those who called upon us will please accept our thanks.

The crowd in town this week is rather slim. Ditto, our receipts.

ADMITTED .- On Thursday last, on motion of J. Sewel Stewart, Esq., Henry T.K. White, Esq., was admitted to practice law in the several courts of Huntingdon county. Mr. White passed a highly creditable examination, both to himself, and the gentlemen with whom he studied. He is a young man of fine literary qualifications, and we wish him an abundant success wherever he may determine to hang out his "shingle."

WHITEWASH .- As this is the season when housekeepers are cleaning and whitening their walls, the following will be found to make an excellent whitewash :- Slack lime in a barrel or other vessel, then thin down to | lar meeting, the result of their observations the proper consistency, adding a pound of salt to every five gallons. When cool, add about half a gallon of sweet milk, which will render it less liable to be washed off with rain. For out-houses and fences, if copper is added to every five gallons of the above whitewash, a very durable buff-colored wash will be produced.

INTERESTING EXPERIMENTS WITH LOCOMO-TIVES .- A series of experiments are now being made on the Pennsylvania Railroad at Altoona, on the Mountain grade, under the supervision of W. J. Palmer, Esq., of Phila. The object is to test the capacity of engines of different build, to generate the greatest amount of steam from the least amount of coal, and to consume smoke. Five engines are being tested, namely: A "Winans' Camel Back;" one built by Norris and rebuilt by Baldwin, with Dempfield's boiler; one rebuilt at Altoona, with smoke consumer; one built by Norris, with Phleger's boiler, and one equipped with Gill & Co.'s smoke consumer, by Mr. Greer, master of machinery at Altoona. A train of nine cars, loaded, are being hauled by each engine from Altoona to the top of the grade, twelve miles. The amount of coal is accurately measured that each engine requires to make the trip. So far, the Winans' Engine has used the least coal, by about fifteen bushels. Last week a in this light, we invite its attention to it train of cars was tried on the Mountain grade now. with Loughridge's car brake. The train was handled very satisfactorily by the Engineer; a number of stops were made in very short distances on the heaviest grades. The Company are equipping their fast line engine and | truth, to point to a single instance in his pocars, with this safeguard to their trains. The results of the trials above noted will be made public in a few days, and will be looked for with no little interest.

Mr. EDITOR.—When I lectured on the subject of temperance many years since, I was in the habit of quoting from a long list of receipts, for the manufacture of alcoholic drinks. This was the part of my address that usually "took" with the audience. In examining some old papers a few days ago, I found a portion of the paper, which, I supposed was altogether lost. It is but a fragment. I wish I had the whole of it; it would drink the article.

One kind of gin or brandy is made up of, among other things, the following:

2 pint extract of capsicums.

30 gal's Jamaica Rum 25 per cent over proof; 30 gal's Leeward Island Rum, 25 over proof; 20 gal's Rectified Spirits, 56 per cent over proof; 21 gal's of water; 1 pint of coloring matter; ½ pint extract orris root; ½ pint cherry lawrel water (poison).

into wines of the "choicest brands."

Bad brandy, eider, sloe juice, logwood, sal tartar, gum dragon, extract of almond cake, benzoin, Arsenic. A bottle of New York port | vanced age, on the 15th inst.

wine, was found to contain, 2 ounces of alcohol, 4 of eider, 1 of sugar, 2 of alum, 1 of tartaric acid, 4 of concentrated solution of

A party of Congressmen got hold of a demijohn of an article intended expressly for 'congressional use," and after emptying the vessel of its contents, found in the bottom 1 quart of-cockroaches.

The drinks of the present day, are even worse than these. For to the above materials, they add strychnine. Young man, read the above, and then determine you will never touch a drop of the vile stuff. I only add house of a New York manufacturer of wines, brandies, &c., after his death.

O. O. McClean. Huntingdon, April 15th 1859.

Agricultural Society.

Pursuant to adjournment, the Huntingdon County Agricultural Society, met in the Court House in Huntingdon, on Tuesday evening, the 12th inst., at 72 o'clock. President, Jno. C. Watson, in the chair.

Minutes of last meeting, read and approved. Committee appointed to attend the State Fair, not being present were on motion dis-

The following resolutions were offered and

Resolved, That this Society will hold an time and place of holding the same be fixed by the Executive Committee, at the next regular meeting of the Association.

Resolved, That Israel Graffius Esq., T. II.

Cremer Esq., and Major William Moore of West Township, be appointed a committee for the purpose of preparing a list of Premiits next regular meeting.

The annual report of the Association, for 1858, was read by the Secretary, and approved. On motion the Secretary was authorized to furnish a copy of the same, for publication, to the papers of the county.

The following resolution was offered by Gen. G. W. Speer, and after some discussion on the subject of recent mineral developments in this county, adopted.

Resolved, That in view of the present excitement occasioned by the alleged finding of gold ore recently in this county, a committee of three be appointed by this society, for the purpose of examining and testing the same, and to report to the society at its next regu--provided the same be accomplished free of expense to the Society.

Gen. Geo. W. Speer and John S. Isett Esq., of Spruce Creek, were appointed by the chair, and on motion, the President was added, to constitute said committee.

On motion, Mr. McAllister, of Centre co., was invited to address this Society and the citizens of this place to-morrow evening, on the practical operations of the Farmers' High School of Penna.

Adjourned to meet in this place on Tuesday evening, of the first week of the coming August Court. JNO. C. WATSON, Pres't.

R. McDivitt, } Secretaries. J. F. RAMEY.

Judge Knox. The difference between James Buchanan and his office-holders and servitors general-

ly, and Judge Knox, is this: In Illinois, King James Buchanan and his corrupt office-holders, aimed to elect a "Black Republican" Legislature in order that Lincoln, an Abolitionist should be returned to the U. S. Senate, instead of Douglas, whose whole political life has been one of spotless Democracy; whereas, in the Chester and Delaware districts, Judge Knox advocated the election of Hickman, who ran as an anti-Lecompton Democrat, and was elected as

Federal opponent. A very marked difference, indeed; and if the Pennsylvanian has not before looked at it

well over his Republican as his Buchanan

The Pennsylvanian charges Judge Knox with "infidelity to principles," meaning, of course Democratic "principles." We desire, nay, we defy, the Pennsylvanian, with all its reckless effrontery, and habitual disregard of litical career, in which Judge Knox has shown infidelity" to Democratic "principles."

Let us have no more loose assertions—no penny-a-line falsehoods—no graceless libels. Give us time, and place and deed. Otherwise, any further controversy on the subject would be bootless.

"He was not proscribed for his opinions," says the Pennsylvanian. In the sense in which this will be understood, it is not true. He might not have been "proscribed" for entertaining the opinions he did if he had sealed his lips. So might a Russian serf entertain democratic sentiments without detriment to himself, if he smothered them in his own breast. But what are opinions worth if the conceiver dare not utter them? What was Douglas "proscribed" for? He had not disorganized; he had not addressed Repubedify both those who sell, and those who lican meetings; he had not stepped a hairs breadth aside from the strictest party discipline. But he did what was more unacceptable to Buchanan; he exercised his right as the representative of a sovereign State in the \$\frac{2}{3}\$ pint of coloring matter; \$\frac{2}{3}\$ of the extract discharge of his duty, to differ on a measure of orris root; \$\frac{1}{3}\$ pint of cherry lawrel water; of policy from that high functionary, and to give expression to his sentiments. It was not for differing in opinion from the President To make 101 gallons of good Jamaica that Douglas was proscribed, but for boldly stating the grounds of difference. The tyrant -any tyrant can tolerate "opinions" adverse to himself so long as he does not know that such "opinions" are entertained. But he will not tolerate them when expressed .--Judge Knox, like Senator Douglas, was "proscribed," not for entertaining, but for promulgating "opinions." They would not have "proscribed" Judge Knox if he had not spo-The following mixture is frequently put ken—but, having spoken, he was condemned. This reveals to the public another idea and another phase of Buchanan Democracy.

David Mann, Esq., who many years ago was Auditor General of Pennsylvania, (poison), cherry lawrel water, (poison), gum- died at his residence in Bedford, at an ad-

The Two Attorneys-General. [From the Lycoming Gazette.]

The disorganizers make much ado about Attorney-General Knox delivering a speech last fall in favor of Hon. John Hickman, the anti-Lecompton Democratic candidate for Congress, in the Chester county district .-That was an unpardonable sin in the eyes of a Lecomptonite. But there is another Attorney-General who did much worse things than make a speech in favor of a Democratic candidate for Congress, in whom they can find no fault. During Senator Douglas' campaign last fall against the combined forces of the Republicans and National Administration, Jeremiah S. Black, Mr. Buchanan's Attorney General, wrote letter after letter to Demotouch a drop of the vile stuff. I only add that these receipts, and many others, I once had, were copied from papers found in the land, were copied from papers found in the was Lecomptonism of the purest kind, and therefore a thing to be applauded by the disorganizers of Pennsylvania. If the disorganizers continue to force the matter upon the Democracy, some of the nice doings of Mr. Attorney-General Black, together with other members of Mr. Buchanan's Democratic (?) Cabinet, during the last Illinois campaign, will be held up for the inspection of the Democratic party in Pennsylvania. Some of the Illinois documents still remain on file.

Captain Hudson, of the Niagara, was once, says the Jamaica (Long Island) Farmer, a baker boy in Brooklyn. One day he chanced to be in the Navy Yard at Brooklyn, and the thought struck him, that he would like to enter the navy. So, going to the proper officer, he applied for admission. The novelty of seeing a lad alone, boldly asking for a place so often secured by political preference, or by the entreaties of influencial friends, at-Annual Exhibition this year, and that the tracted at once the attention of the officer, and he inquired, "What can you do!" The reply was prompt and decisive: "Anything that another boy can." He was told to call again, and a few days passed, and the place was given to the enterprising lad. Scarcely in his new position, he began to show marks of genius and aptitude, which out-did his asums, for the coming Exhibition, to be sub-mitted to the consideration of the Society, at rose to influence and rank, and to-day he stands among the highest in rank and most influential in power of the great ones who compose the United States Navy. Such, in belief, is the career of William N. Hudson, commander of the United States steamer Ni-

METHODISTS EXPELLED FROM TEXAS. - The Texas papers give particulars of the proceedings of several meetings recently held in Fannin county, for the purpose of taking measures to expel the members of the Methodist Church North, who are accused of being Abolitionists. At one meeting, a committee of fifty was appointed to wait on Bishop Jayne with a warning. They performed their duty on a Sunday, while the Bishop was engaged in the morning service in the Church. It was also resolved that the Methodist Church North could not be tolerated in Texas, and. that it must be put down if necessary. A committee was appointed to draft other resolutions, to be acted upon at an adjourned

MARRIED.

On the I3th iust., by Rev. P. Doyle, Mr. John Cahil, of this place, to Miss Mary Kane, of Stone Creek, this county. John is a lively boy, and we wish him abundant success through life.

PHILADELPHIA MARKETS.

Monday, April 18,-There is little or no export demand for Flour, and the market is dull and unsettled the sales being only to supply the trade at from \$6,12½@6,50 for superfine and extras, and \$6,75@7 \$ bbl for extra family superime and extras, and Striggar 5 both of extra latiny and fancy lots, according to quality. Sale of 100 bbls Rye Flour at \$4.25 \(\frac{1}{2}\) bbl. Corn Meal is quiet, but steady and firm at \$3.87\(\frac{1}{2}\) \(\frac{1}{2}\) bbl for Penna. There is a very little demand for Wheat, with sales of about 1500 bus Red to note at \$1.50\(\frac{1}{2}\).56 for common to prime, and 2000 bushels Kentucky White at \$1,60\(\frac{1}{2}\).65 for fair to prime quality, in store. Rye in demand at 85 cents, and not so much offering. Corn is dull and lower, buyers are holding off, and only about 2.500 bus good Southern yellow sold in lots at \$6\(\partial 5\)7 cents affoat, mostly at the former rate. Oats are unchanged, and about 2000 bus Penn'a sold at \$1\(\partial 5\)2 cents, as in quality.

THE undersigned would give notice to the patrons of the Mooresville Male and Female Institute, that he has agreed to take charge of the same. The next session will commence on Monday, the 2nd day of May, proximo.

Mr. Thompson is a graduate of Jefferson College, and is ecommended as a thorough scholar.

PRING & SUMMER CLOTHING.
The undersigned would respectfully call the attention of our friends and customers, as well as the citizens of the town and country generally, to our new and exten-

sive assortment of READY-MADE CLOTHING, consisting of every article of gentlemens' furnishing goods. We deem it unnecessary to make a newspaper itourish, being confident that a call and an examination of our goods, will satisfy all, that our goods are just what we recommend them to be, well made, of good material, and as cheap as the same quality of goods can be bought in the county of Huntingdon. It is not our desire, as it is not the policy of honest men, to deceive, but this much in the county-of mainingson. It is not our desire, as it is not the policy of honest men, to deceive, but this much we will say, that we will guarantee to all who may favor us with their patronage, entire satisfaction as to quality, fit and price. Should gentlemen desire any particular kind or cut of clothing, not found in our stock, by leaving their measure, they can be accommodated at short notice. Call at the corner of the diamond, Long's new house. M. GUTMAN & CO.

PARREL, HERRING & CO.'S PATENT CHAMPION SAFE.

LATE FIRE AT DUBUQUE, IOWA,

DUBLQUE, Jan. 7, 1859.

Gents: I am requested by Mr. T. A. C. Cochrane, of this place, to say to you that on the morning of the 4th inst., about 3 o'clock, his store took fire, and the entire stock of about 3 o'clock, his store took fire, and the entire stock of goods was destroyed. The heat became so suddenly intense that none of the goods could possibly be saved; but fortunately his books and papers, which were in one of your Champion Safes, were all preserved perfectly. And well they may be called Champion, for during the whole conflagration there was one incessant pouring of flame directly upon the safe which contained them. And still, upon opening it, the inside was found to be scarcely warm, while the outside was most extravely exceeded. Yours traily the outside was most severely scorched. Yours truly, N. A. McCLURE.

OTICE TO MILL OWNERS.
The undersigned has purchased the right of The undersigned has purchased the right of Hunand Blair counties, for the DIRECT ACTION TURBINE WATER WHEEL, of Timothy Rose, patented September 20, 1850. This wheel has been successfully introduced in all the Eastern States, and some of the Western, and wherever introduced, has proven to be the most efficient and economical wheel for the use of water, that efficient and economical wheel for the use of water, that has ever been invented for Saw Mills, and driving other machinery where there is a quick motion required.

The important features of this wheel for saw mills, are briefly these: 1st. It is made of cast iron, and for that reason is much less liable to be troubled with ice, as the cast iron generates heat much quicker than the wooden wheel, and not liable to decay. 2d. Its cheapness of construction and the amount of effective power obtained from it. 3d. The manner in which they are constructed, being unlike all other wheels for saw mills, making it evident that they are easy of access under any circumstances for unlike all other wheels for saw mills, making it evident that they are easy of access under any circumstances for repairs, or anything else. The shafts and wheels can be taken out of their place without removing any part of the plam. 4. Its great per centage of power to the water expended, and its uniformity of per centage and power, when the gate is but partially raised.

This wheel claims a superiority over all other water wheels now in use for saw mills, inasmuch as a much large representage is sayed in the power of propulsion, and

ger per centage is saved in the power of propulsion, and works equally well under either high or low heads, and is a valuable power for those who find it necessary to econonize in water.

All further information will be cheerfully given by the

subscriber at Potter's Mill, Centre county, Pa., who is pre-pared to put in wheels at short notice and on ransonable April 6, 1859.*

RIRST RATE FLOUR

TOY TO THE ADMIRERS OF A FINE HEAD OF RICH GLOSSY HAIR.

Talk of beauty, it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt.

PROFESSOR WOOD'S HAIR RESTORATIVE.—We call PROPESSOR WOOD'S HAIR RESTORATIVE.—We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cntaneous eruptions—causes a continual flow of the natural fluids; and hence if used as a regular dressing for the hair will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the grey, or diseased in scalp, to use it: and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

wer be without it. Its praise is upon the tongue of thousands.

The Agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restorative, a few weeks since:

Deep River, Conn, July 23, 1856.

Mr. Leavenworth—Sir: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure. I called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing; it removed the scurf and new hair began to grow; it is now two or three inches in length where it was all off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here.

Yours with respect.

RIUFUS PRATT

PHILADELPHIA, Sept. 9, 1856.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—in fact dall. I have used but two half pint bottles of your Restorative, and now the top of my head is well studied with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it.

Yours respectfully,

D. R. THOMAS, M. D.

No. 464 Vine street.

VINCENNES, IA., June 22, 1853.

PROF. O. J. WOOD: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it—that I have, for several years been in the habit of using other Ilair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleauses the head of dandruff, and with one month's proper use will restore any nerson's hair to the entirely cleauses the head of dandruit, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair.

Respectfully yours, WILSON KING.

Respectfully yours,
O. J. Wood & Co., Proprietors, 312 Broadway, New York,
(in the great N. Y. Wire Railing Establishment,) and 114
