MR. EDITOR :- There appears to be a time for everything. The great Governor of the Universe has so wisely arranged his affairs, that they may be suited to the avocations of man. He has given him a day and a night, the former being the time to work, and the latter the time to rest. He has also given that make up a rural celebration, were enjoyhim a seed time and a harvest, a summer and a winter. This morning, as I was sitting in my room, pouring over a mathematical problem, my train of reasoning was broken by the sound of whetting of seythes, and the rattling of machinery. I looked in the direction from whence the noise came, and soon my attention was directed to some seven or eight Lancaster county farmers, who were busily engaged in cutting the "golden grain." I thought of the old proverb "There is a time for everything," and that now was the time set apart for gathering the rich harvest, and the sturdy farmer was at his post performing the duties of his noble professional. But I must proceed to something else. We have had some very pleasant weather here for several weeks, which afforded the farmers a good opportunity for making their hay-the most of them are done, as it does not take them quite as long to cut their grass and make their hay in this neighborhood, as it does some places. The farmers here have several advantages in many respects, the land being comparatively level, and the farms are not generally very large, hence they can farm part of Illinois, they have lost at least one half of their land better and keep everything in per-their stock by starvation. "YOUR MONEY OR YOUR PLACE."-A writer in the Washington States, a Democratic paper, asserts that General George Washington Bowman, the reputed editor of Mr. Buchanan's organ, the Constitution, has, for sometime, been engaged in levying forced contributions of six dollars from each and every subordinate holding office in the various departments at Washington, the money to be applied to the sustenance of that disorganizing Federal paper!

The editor of the States, in his issue of the 28th ult., says :-- "We understand that the levies realized from the Post-Office Department yesterday by Brigadier-General George Washington Bowman, amounted to about one thousand dollars. This is certainly a very good day's work.

He proclaimed that the only hope of the Southern Democracy was to make a fight in the Charleston Convention-to go there determined to have their views incorporated in the creed of the party, or burst the concern up in a row. He had no doubt, as they had heretofore controlled the party on all great questions, that the Northern Free-soil element would yield in graceful submission again .--If it did not, why, then apply the torch to the great temple of Democracy, and blow the concern to flinders."

THE WHEAT CROP IN LANCASTER CO .- The wheat crop throughout Lancaster county, we are told, will this year be the heaviest and best ever produced. A writer in the Daily Express says, "there was more grain harves-ted on the 4th of July, 1859, than ever in one fort of Almighty perfection. The wheat crop the best that ever grew here-more acresmore bushels to the acre-more pounds to the bushel. You have worthily defended the honor of France. Solferino surpassed the recollection of Lonato Castighone. In twelve hours you have repulsed the efforts of one hundred and fifty thousand men. We have taken three flags, thirty cannon, and 6000 prisoners. The Sardinian army fought with the same valor against superior forces, and worthy is that army to march beside you. Blood has not been shed in vain for the gloryof France and the happiness of the people. No circumstantial account of the battle has reached Paris. It was inferred from the telegrams that the French army suffered so severely that two days after the battle it was still unable to resume the offensive. There were rumors of 10,000 to 12,000 French

troops having been killed and wounded. THE AUSTRIAN OFFICIAL ACCOUNT OF THE BAT-

TLE. VIENNA, June 25 .- The day before yesterday our right wing occupied Pozzolenga, Solferino and Carriana, and the left wing pressed forward as far as Quiddizzola and Cas-Cioffrelo, but were driven back by the enemy .--A collision took place between the two entire armies at 10 A. M. yesterday. Our left, un-der Gen. Wimpen, advanced as far as Chiese. In the afternoon there was a concentrated assault on the heroically defended town of Solferino. Our right wing repulsed the Piedmontese, but on the other hand the order of our centre could not be restored, and our losses are extraordinarily heavy. The development of powerful masses of the enemy against our left wing, and the advance of his main body against Volta, caused our retreat, which began late in the evening.

VIENNA, June 25.-The Austrian correspondence contains the following :

The day before yesterday the Austrian army crossed the Mincio at four points, and yesterday, came upon the superior force of combat of twelve hours our army withdrew across the Mincio. Our headquarters are

/TEDICAL SCIENCE.

The history of "HOOFLAND'S GERMAN BIT-TERS," the most remarkable medicine of the day, and the many cures that have been performed with it in cases of LIVER COMPLAINT, DYSPEPSIA, NERVOUS DE-BILITY, and diseases arising from a disordered liver or stomach, place it among the most astonishing discoveries that have taken place in the medical world. The diseases that have taken place in the medical world. The diseases that have taken place in the medical world. The diseases to which these Bitters are applicable are so universal, that there are but few of our friends who may not test their virtues in their own families or circle of acquaintances, and prove to their own satisfaction that there is at least one remedy among the many advertised medicines, descr-ving the public commendation. It is a fact that, in the minds of many persons, a prejudice exists against what are called Patent Medicines; but why should this prevent you resorting to an article that has such an array of tes-timeny to support it as Hoofland's German Bitters? Phy-sicians prescribe it, Why should you discard it? Judges, sicians prescribe it, Why should *you* discard it? Judges usually considered men of talent, have and do use it in
