The Sunday Law Question. MR. Lewis:-In the last issue of the Huntingdon Journal there appears an article headed "THE SUNDAY LAW," in which a very invidious distinction is drawn between the two candidates for Assembly in this county. Although my name does not appear in this connexion, and no positive charge is made against me, yet, it is very evident from the tenor of the article, that it is sought thereby, to impress the public mind with the notion that I believe "There is no God"-that I have no regard for the Sabbath day, and have "no conscientious scruples against abolishing

Pennsylvania Agriculture.

The preparations for the Ninth Annual Exhibition of the Pennsylvania State Agricultural Society, to be held in this city, on brought to light yesterday, in this city. It the grounds northwest of the Market-street appears that a sharper in Philadelphia adproducts will have an opportunity of testing their excellence by a comparison with the numerous articles which will doubtless be placed attested and confirmed by appropriate premiums if they merit them.

Pennsylvania almost possesses at this day the first rank among the Agricultural States titled to claim a position as the second agricultural State, and if her natural advantages are properly developed, we believe that she can become the first, and permanently hold that rank against all competition.

According to the census of 1850, but three States of the Union, New York, Ohio, and Virginia, had a larger number of acres of improved land, and in but one State, New York, was the cash value of farms greater than in Pennsylvania. The value of farming implements and machinery in our State was also much larger than in any other except New will contain every word of the Edinburg edi- York. But two States, New York and Ohio, exceeded us in the number of horses and cattle. Our product of wheat was greater than that of any other State in the Union, being 15,367,691 bushels; while that of Ohio, which ranked next, was 14,487,351 bushels, and of New York 13,121,498. Our product of rye was also greater than that of any other State, York was 4,148,182 bushels. Our product of wife at her residence. There is no probaoats was 21,538,156 bushels, being much great- bility that any of his victims came South or than that of anyother State except New York, which was 26,552,814 bushels. Our product of Indian corn exceeded that of New York, but fell far behind that of Alabama, Georgia, Illinois, Indiana, Kentucky, Mississippi, Missouri, North Carolina, Tennessee, and Virginia.— Our product of buckwheat was 2,193,692 bushels—a much greater quantity than that produced by any other State except New York, which yielded 3,183,955 bushels. Our hay crop amounted to 1,842,970 tons—a much then her dead body was found. The child, larger product than that of any other State except New York, which yielded 3,728,797 tons. > agricultural products of the Northern States more of unimproved land, than Pennsylvania. New York has long been famous for her numerous agricultural societies, and we do not doubt that they have exercised a great influence in stimulating her farmers to increased exertion: but Pennsylvania is very little behind her in agricultural products, and, if the natural advantages of our State are properly developed, she may yet be enabled, notwithstanding the inferior number of acres of land

she possesses, to outstrip the Empire State. We know of no race of men more thrifty and industrious than the farmers of Pennsylvania, and one of the most beautiful sights in the world is the bounteous evidence of fertility and agricultural skill which is presented in the bosom of any of our numerous flourishing agricultural counties. But most of our farmers are plain, modest, unpretending men, not at all given to the practice of making displays, or of blowing their own of their farms, unless it is enlightened by the records of the census, or the presence of their crops in the markets.—The Press.

A Fight with a Bear.

The following facts of a fight with a bear were furnished the Tyrone Star by a correspondent, writing from Oceola, Clearfield co., Pa., under date August 25th:

"Two of our citizens (G. A. Westbrook and David Coulter,) started out the other evening, to watch a deer-lick. After they had proceeded a short distance from town, they parted-Westbrook taking one side of a hill, and Coulter the other-with the intention of meeting at the lick. Shortly after they had parted, Westbrook saw three cub bears, which he treed and killed; but while he was despatching them, the old she bear made her appearance, having her 'back his gun was empty, and the bear wouldn't give him time to load! Here was a pleasant (?) predicament indeed, for 'a nice young man' to be in. He soon saw, however, that his only chance was to fight the bear with his knife, and at it he went, in good earnest, and came off conqueror, but not without getting somewhat 'used up' in the 'scrimmage.'-Coulter hearing the shots from Westbrook's gun, concluded to go and ascertain the cause. He found the old bear and three cubs all dead, and Westbrook very much cut up, though not seriously injured; the clothes were nearly all torn from his body, and one of his arms was badly lacerated; however, he is now rapidly recovering, and it is really laughable to hear him tell of the fight. He has the bear skin nailed up against the side of his house, and no money, I suppose, could buy them, as he intends to have a sleighrobe made of them. This man George A. Mr. Still, of Huntingdon. LOCAL CORRESPONDENCE. Petersburg, Sept. 5th, 1859.

MR. The school, which by the way, is one of no ordinary interest, met between the hours of 9 and 10 at their accustomed place of worship, and after singing a hymn, formed in procession and proceeded a short distance from the school house to the ground which had been prepared for the occasion. After all had been snugly seated, we were informed by the president (Gen. Green,) that there was to be a display of Young America, which he assured us would be interesting and gratifying. He then called upon Josiah Hicks, who was followed by his brother, Owen Hicks. These lads are members of the school, and of more than ordinary promise. These were followed by an address by the Rev. Samuel Creighton of Altoona. As the hour for partaking of that which is more palatable to the young than speeches, had arrived, we were dismissed from the stand by an invitation to the table—an invitation that we felt no hesitancy in accepting. The table bore the evidence that the ladies of the locality know exactly how to do the clever thing in providing for a feast. Provisions, which were of the very best quality, had been provided in such profusion as to be enough for the multitude and

After having done justice to this part of the exercises, which was not by any means the least agreeable, we were called together again to listen to a speech from the Rev. Mr. Crist, of Birmingham and one from the Rev. The hunters about here say that bears will not admit of thus noticing all of them.

NERVOUS DE-BILITY, and diseases arising from a disordered liver or stomach, place it among the most astonishing discoveries that have taken place in the medical world. The diseases to which these Bitters are applicable are so universal, that there are but few of our friends who may not test their virtues in their own families or circle of acquaintances, and prove to their own satisfaction that there is at least one remedy among the many advertised medicines, deser-ving the public commendation. It is a fact that, in the minds of many persons, a prejudice exists against what ving the public commendation. It is a fact that, in the minds of many persons, a prejudice exists against what are called Patent Medicines; but why should this prevent you resorting to an article that has such an array of testimony to support it as Hoofland's German Bitters?
