Public Officers—Criticism of their Acts.

When men are elevated to official stations they become servants of the people; they are expected to be representatives and executors of the will of their masters, and in such positions their official conduct is open to the inspection of the public.

The freedom of speech and the liberty of the press guaranteed to every citizen who desires to investigate official conduct, has for late days been so prostituted by journalists, that it would seem that there is, in practice, no limit to personal detraction, calumny and abuse.

It will be seen, from the letter which we give in another column, that the Democratic meeting held yesterday at Wooster, Ohio, to listen to Senator Douglas, was the greatest demonstration that has yet been made in the interior of the State.

We doubt whether there ever has been as little party strife with the masses of the parties in this county as in the present campaign. Democrats, Whigs, Republicans, Americans and Republican-Americans throughout the county, with but very few exceptions, are cool and free from the least excitement.

The Latest Foreign News.

Renewal of the Chinese War—Allied Squadron defeated—500 British killed and wounded.

CHINA. Admiral Hope arrived off Peiho river on the 17th of June, and found the entrance barred. An attempt was made on the 25th to force a passage, when suddenly batteries, supported by a force of 20,000 men, were unmasked, and opened a destructive fire.

Seven officers were killed and seventeen wounded. Among the wounded was the Admiral. The details say that the mouth of the river was raked by the fire from the newly-constructed forts, amounting to ninety or a hundred guns.

The gun-boats Opossum and Plover pushed in close to the first barrier. The guns of the forts then opened fire, and the action became general.

The troops were ordered to land. As the first boat touched the shore, the forts poured out a perfect hurricane of shell, balls, and rockets, which mowed down the men as they landed.

Orders were at last given to retire, and while in retreat the men were shot down like birds. Many of the boats were swamped by the balls and not enough remained to carry off the survivors.

Russian features were distinctly visible among the men manning the Chinese batteries. The Americans towed up several boats to the scene of action and afterwards took a number of men to their respective ships.

The following telegraph dispatch, in relation to the China difficulty, had been published by the British Government.

An Admiral Hope arrived off the Peiho river on the 17th of June, and found that the fortifications had been rebuilt, but no guns or men were visible.

The plenipotentiaries joined the squadron on the 20th, and no notice having been taken of the announcement of their arrival, an attempt was made on the 25th to force a passage, when, on a sudden, batteries supported by a mongrel force of apparently 20,000 men, were unmasked, and opened a destructive fire.

The rest of China was reported quiet. No fears are entertained about Canton, but the Tartar troops have been disarmed, as a matter of precaution.

Other telegrams confirm these particulars, and one via Trieste, adds the following: "It is stated that the American ambassador has been admitted to Peking."

Judge Douglas at Wooster, Ohio. It will be seen, from the letter which we give in another column, that the Democratic meeting held yesterday at Wooster, Ohio, to listen to Senator Douglas, was the greatest demonstration that has yet been made in the interior of the State.

There is sufficient latent morality and self-respect among citizens in almost every community to turn public sentiment against an indorsement of the abuse of individuals and private character in public newspapers.

Horrible Cruelty in the British Army.—The London Times gives the following report of a case of flogging in the British army for desertion:

The first man, named Green, bore his punishment as stated by an eye witness, "like a true soldier," but the second, named Davis, a young recruit, protested his innocence of the crime of desertion, and belittled and scorned for mercy, and supplicated Col. Talbot and the medical officers, and others who were present to have compassion on him, or he should die.
