OCTOBER AND MAY .- October is the matured year-it is the period that has attained "the philosophic mind." We dream of the blossom and use the fruit; we think of the green spring leaves and see the crimson kiss of decay on the autumnal. We dream of being young and are growing old. In May we are flushed as everything is with the earth's fresh blood; in May we dream of October; in October we think of May. With the ripened fruits of the seasons-with the garnered store of the harvest-the hope of the year is completed or blasted; and so with our lives.

VEDICAL SCIENCE. there are but few of our friends who may not test their virtues in their own families or circle of acquaintances, and prove to their own satisfaction that there is at least one remedy among the many advertised medicines, deser-ving the public commendation. It is a fact that, in the minds of many persons, a prejudice exists against what are called Patent Medicines; but why should this prevent you resorting to an article that has such an array of tes-timeny to support it as Hoofland's German Bitters? Phy-sicians prescribe it, Why should you field use it in their own families. Why should you reject it? Clergy-men, and those the most eminent, take it; why should not you? Let not your prejudice usurp your reason, to the everlasting injury of your health; if you are sick, and require a medicine, try these Bitters. These Bitters are prepared and sold by Dr. C. M, Jack, son, No. 418 Arch street, Philadelphia, Pa., and by drug-gists end storekeepers in every town and village in the United States, Canadas, West Indies, and South America, at 75 cents per bottle.
