THE GLOBE.

Huntingdon, Wednesday, Dec. 7, 1859. LOCAL & PERSONAL.

The Altonians are going to have a grand jubilee on the 15th inst., in commemoration of the introduction of gas and water works into that borough. The Tribune says that large preparations are being made, that | people? Would to God that I were able to all the military of the country are to be present, besides the different orders, public schools, &c., of that place, will turn out. Invitations have been extended abroad to several military companies, brass bands, &c., all of which have signified their intention of attending the jubilee. The Brass and String enforce equality in the Union, or maintain Bands of this place have also been invited. and we learn they have signified their intention of being on hand. In the evening a

grand illumination will take place. Excur-

sion tickets will be issued from all stations

between Pittsburgh and Harrisburg, good

from the 14th to the 16th, inclusive.

A soiree was given in the Court House, on Thursday evening last, by Messrs. Godbold, Haas and Barrett, of Harrisburg. They were assisted by the Home String Band of this place. Mr. Haas, the pianist, is an excellent performer. Mr. Barrett, the violinist, is a skillful musician, and can make the fiddle almost talk. His playing is something in the opera style, and cannot fail to please the refined and cultivated ear. Some of our young ladies, (what is entertaining without them?) to make the entertainment still more acceptable, generously consented to sing for them, which they did, in a manner highly creditable, both to themselves and to the reputation of our musical village. All in all, the entertainment was one highly pleasing to the most fastidious.

It is not often we write about the weather, for the reason that we believe everybody else has the same opportunity of seeing and feeling the different changes, as we have, but sometimes it deserves a notice for its capers, and we have determined to give it one for its last prank. We have had most delightful weather until a few days back. On Saturday afternoon last it commenced raining and sleeting and continued so nearly all day Sunday, making it anything but agreeable to be out.

On Saturday evening last, we eat, at G. Ashman Miller's Saloon, the largest oysters we ever saw in town. The Saloon is gotten up in the most exquisite style, for both ladies and gentlemen, the "fixins" of the best quality, and with the accomplished waiter, Peter Johnson, as "chief cook and bottle washer," everything is done up in grand order.

Our young folks have already commenced their winter sports. We say "go it while you're young, for when you're old you can't." There is nothing we like to see better than for young folks to congregate together and enjoy themselves in innocent amusements. There is nothing will give you more life and vigor, than these self-same little sociable parties.

DEATH OF JUDGE BREWSTER.—We regret to learn that Hon. John Brewster died at his residence in Shirleysburg, on Monday morning last, after a few days' illness. The Judge, we should suppose, was between 65 and 70 years of age. The vacancy on the Bench will have to be filled by appointment by Gov. Packer.

A FREE LECTURE.-T. Morris Chester, (a colored gentleman,) Attorney-at-law, and editor of the Star of Liberia, will deliver a Lecture in the Court House on to-morrow (Thursday) evening. Mr. Chester has but lately returned from Liberia, and, we have no doubt, his lecture will be interesting. FOOT SMASHED .- Mr. Wm. White, of Smith-

field, had his right foot badly crushed on Tuesday last. He was standing on the hind wheel of a wagon, for some purpose or other, when the horses started, causing his foot to get between the spokes of the wheel and the wagon bed, bruising it in a frightful manner.

A LECTURE.-U. J. Jones, Esq., of Hollidaysburg, will deliver a Lecture in the Court House, this (Wednesday) evening. Subject -"Our Country-Its Destiny." The Lecture was delivered in Ebensburg last week, and drew a successful house.

We learn that the Pennsylvania Railroad Company are making arrangements for lighting their passenger cars with gas .--This is a good idea, and passengers will find it a decided improvement upon the old oil lamp system of illlumination.

Owing to the crowded state of our columns, several articles of importance are unavoidably crowded out; among the rest, is "Leroy's" letter. We will try and make room for it next week.

Message of the Governor of South Car-

The following is an extract from the annual message of the Governor of South Carolina, just presented to the Legislature of that

"What, then, it may be asked, should South Carolina do in view of the crisis now approaching (and in my opinion fearfully ear,) to save her institutions from destruction, and afford safety and security to her give a satisfactory answer to this momentous question, and thus be the humble instrument to avert the impending danger; but I must confess my utter inability to point out the path of honor and safety, in the midst of the difficulties that surround us.

With a united South our course would be clear, and our future glorious; we could our independence out of it. If, as I solemny believe, we can no longer live in peace and harmony in the Union-notwithstanding the associations of the past, and the remembrance of our common triumphs, (being treated as enemies and aliens, rather than brethren of the same family, and heirs of the same inheritance by the North,)—we can form a Confederacy with ability to protect itself against any enemy, and command the respect and admiration of the world. This proud position is only to be obtained by a strict adherence to law and duty; and while South Carolina insists on the other States carrying out their constitutional obligations, she should be careful to do her whole duty, and carry out in good faith all her obligations to her sister States and the Federal Government, by discouraging all attempts to evade the laws, under any pretence whatever. While in the Union we should comply with all the laws of Congress until they are pronounced unconstitutional by the Supreme Court, or our people are released from their binding obligations by the constituted authorities of the State; and it would be an arrogant assumption on the part of individuals to set up their opinions of the constitutionality of a law as their rule of action. We should not imitate the example of the North in setting up a 'higher law,' but retain the proud position we have always occupied, and it will give self-satisfaction, an approving conscience, and moral power to achieve victory. In preparing for any emergency that may arise, I would respectively recommend you, at an early period, to take such measures as, in your wisdom, you may deem proper and expedient, to obtain the co-operation of the Southern States in concerted notion, in defence of our institutions whenever they may be put in jeopardy by all the departments of the Government passing into the hands of our ene-

"The election of a Black Republican President will settle the question of our safety in the Union; and although the forms of the Constitution may be complied with, its vital principle will be extinguished, and the South must consent to occupy an inferior and degrading position, or seek new safeguards for future security. Let South Carolina exhaust every means to get the co-operation of the Southern States in this vital and important movement, yielding everything but principle for that purpose, prepared to follow any lead in resistance; but she should never forget that she is a sovereign and an equal—that by her sovereign act she created the relationship of the State that now exists in the Federal Union, and that she has a clear and unquestionable right to resume her position as a sovereign in the family of nations."

A Night in a Pigeon Roost.

Just now the wild pigeons roost in innunerable numbers in the Chenango Swamp Crawford county, Pa., about ten miles long by two or three wide, grown up with tamerack or larch trees and alder bushes. The editor of the Ashtabula (0.) Sentinel has been among the pigeons. He says:

place, we began to hear the roar of the wings of the millions of birds here congregated, which literally equalled the roar of Niagara. But the sights and sounds that greeted us as we neared the swamp, beggars description.
There were probably a hundred hunters
assembled and at work. These were divided into parties of not more than two or three -some in the tameracks, and some in the alders. At a shot in the bushes the birds rose in a mass and settled in these trees; and when fired upon there they flew to the bushes. This changing continued all night. At a single shot, the flock always rose and flew a short distance to settle or be fired up again. This scene lasted all night. The usual mode

of hunting the pigeons is for two men to go together—one gith a gun, and the other with a bag and lanthorn and matches. As soon as the shot is fired, the bag man strikes a light and "bags" the birds; and this must be done speedily or the wounded ones will hide and be lost. Six dozen is quite a heavy load for any man. We "gin eout" under five dozen, very soon. We were told to fire with one barrel at the bushes, and with the other at the 'bile up." The term boil up, is a very natural one, for at every shot the flock will rise straight upward, and after circling a few moments, make a sweeping course, and then alight perhaps within a few yards of where they rose. The number killed seems almost incredible. One man killed four dozen at a

single shot, and nine hundred in the night. South Carolina Legislature.—Proposal for a Southern Confederacy.—Columbia, Dec. 1.—In the House of Delegates, on Wednesday, the following resolutions were offered: Resolved, That the State of South Carolina is ready to enter together with the other slaveholding States, or such of them as desire

present action, into the formation of a Southern Confederacy.

Resolved, That the Governor be requested to forward this resolution to the Executives

of the Southern States. Another resolution was offered asking official information of the condition of the State

We do not think a person can evince a more benevolent trait of character than being moved at the distress and suffering of others, and furthermore, anxious to do all in their power to alleviate by every possible means human suffering. In this view of the case, we do not know how the humane and benevolent can do an action more in accordance with their philanthropic views, than by calling the attention of their afflicted friends and acquaintances to the fact, that Dr. Sern S. Hance, of 108 Baltimore ettreet, Baltimore, Md., has discovered a preparation, which is put up in the form of a pill, that has a specific action for curing Epilepsy, or falling fits, spasms, cramps, and all forms of nervous diseases. Among those who have been permanently cured, we might mention a member of the family of James H. Beadle, Huntsville, Alabama; Mr. M. P. Sledge, Cabin Point, Surry county, Va., and Mr. W. P. Ligon, Grenada, Missouri. We might go on enumerating a number of others, until we had entirely filled up this column of our paper; but we think we have said sufficient to satisfy every person that the subject under consideration is one of vital importance to every one. Reader! If you are a well man or woman, and have no need of a remedy, perhaps you know some person who is not equally blessed as yourself, if so, cut out this notice, and send it to him or her. It will cost you but little trouble, and probably it will make you instrumental in curing some blessed as yourself, if so, cut out this notice, and send it to him or her. It will cost you but little trouble, and probably it will make you instrumental in curing some poor, afflicted mortal of that dreadful visitation, Epilepsy or falling sickness.

Dr. Hance sends his pills by mail, free of postage, to all parts of the world, on the receipt of a remittance. His prices are: one box, \$3; two, \$5; twelve, \$24. We have given his address above.

contents of a Salamander Safe, of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent—

That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken ont, a little warmed, but not even scorched.

Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out entirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

WILMINGTON, Del., Sept. 17, 1859.—Messrs. Evans & Warson, Philadelphia.

Gentlemen:—The Salamander Fire-Proof Safe of your Gentlemen:—The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill and gunpowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, truly,

KNOXVILLE, Tennessee, Murch 13th, 1859.

Messrs. EVANS & WATSON, Philadelphia:

Genllemen—It affords me great pleasure to say to you that the Salamander Safe which I purchased of you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last.—The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents where found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recommend your Safes to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.

SENWEIN'S TAR AND WOOD

NAPTHA PECTORAL, Is the Best medicine in the World, for the Cure of Coughs and Colds, Croup Bronchitis, Asthma, Difficulty in Breathing, Palpitation of the Heart, and for the relief of patients in the advanced stages of Consumption, together with all Diseases of the Thront and Chest, and which predisposed to Consumption. It attacks the root of disease, and makes the fell destroyer succumb to its influence. It also produces free expectoration, and induces healthy action in the diseased Mucous Membranes and Tissues. It is peculiarly adapted to the radical cure of Asthma. One dose of this invaluable Syrup often gives ease, and consequently sleep, which the peculiar nature of this disease denies him. It is very pleasant to the taste, and prompt in its effects. Try it, and be convinced, that it is invaluable in the cure of Bronchial affections.
