ITEMS.—Items are as scarce as June bugs in mid-winter. We have traveled this town from one end to the other, through mud ankle deep almost, in search of "ye item," but found 'nary one. What will we do to feast the public mind on? We know they expect a notice of this and of that, but where will we get the material wherewith to manufacture them? No dog fights, no brute fights, no drunken fellows, (thank fortune,) no runaway horses, no nothing, but pol(y)ities, pol(y)ities, from morning till night, and as we don't happen to be a dabbler in the dirty pool of politics, we wont say "nothing" about it. The only thing worthy of mention, and which, perhaps, may be news to our readers is, that we have had delightful weather for a week past. So much so, that we are almost inclined to think this the month of May instead of January. Ex-R.

If any of our readers want a good daguerreotype, ambrotype or melainotype, we would advise them to call on our friend Mr. J. G. Camp, at his gallery, in the room over the Bank. In connection with the picture business, Drs. Locke & Camp are prepared to extract or fill teeth in the most workman-like manner, and on the shortest possible notice. Dr. Locke also prepares and keeps for sale an excellent article of tooth wash, which makes the teeth of pearl whiteness in a very few applications, and is pleasant to the taste. Give them a call.

CORRESPONDENCE OF THE GLOBE. The Tonnage Tax.

The prejudice which exists in this commuity, in regard to the repeal of the Tonnage Tax, naturally leads reflecting men to consider the justness of such a state of feeling. It is the opinion of many, that if such a tax is not strictly legal, (since the sale of the State works) nevertheless it is highly expedient that she a tax should be imposed, yielding as it does, such a handsome revenue to

our State government. The plausable idea, that a quarter million of dollars is dropping annually into the lap of our State Treasury, as if showered upon us by some goddess of fortune, is, when stripped of its surrounding attractions, but a indictment against defendant, was for selling miserable and terrible affliction, which we are now, we may say, unconsciously bearing, and still earnestly demanding, should continue to be inflicted upon us.

The question which interests us all, is this: Will the Local Traffic be benefitted by the repeal of the Tonnage Tax? We answer .-Most unquestionably it will. It can be conclusively shown, that we who live immediately on the line of the Penna. Railroad, are the persons who are compelled to pay this Ton-

nage Tax. The competition carried on by the four great rival Railroad companies, for the western or through freight, necessarily renders it impossible for the Penna. R. R. Co. to have a sufficient margin (between the cost of transporting the through freight, and the amount received for carrying it) to cover the proportion of the Tonnage Tax, which would properly belong to it. Consequently the Tonnage Tax as long as it exists, must wholly be derived from the assessments on local traffic.

Now, inasmuch as our coal, lumber, bark, &c., are by law exempt from this taxation. it must, necessarily, cause a most unjust and cruel increase of Tariff Rates upon all other classes of goods, which, by the law, are not exempt from this tax.

A car load of any material, carried at the lowest rate of the Penna. Railroad, between this point and Philada. will have on additional lax of about three dollars, to cancel the Tonnage Tax on said loading—if it should not happen to be one of the items specified by law as exempt from taxation.

If our shippers of bark, hoop poles &c., had to pay a tax of three dollars on every car they loaded, they would have a little taste of the practical workings of this unjust taxation.

Now if the coal, lumber and bark interests of our State are relieved from this taxation by the act itself, is it just that the other resources of our State should bear it? The counties between Philadelphia and Pittsburgh, adjacent to the line of the Penna Railroad should be unanimous in demanding the immediate repeal of this Tax, as they are simply paying this money out of their own pockets, into the State Treasury, for the benefit of other portions of the State.

It is impossible to ask the Penna Railroad to do much to develop the local trade, or to reduce the tariff rates on local merchandise, until this tax is removed. Should it be removed the Penna Railroad Co., can and will do a great deal for the local freight, and it is manifestly the true interests of our merchants, farmers, and the community in general, to give this matter their careful consideration, and they will, beyond all doubt, be convinced that self interest, and all business considerations demand the repeal of the Tonnage Tax.

MONMOUTH, WARREN Co. Ill., }

Jan. 17, 1860. EDITOR GLOBE:—When last I wrote you, I was away out at "Far West," in Missouri, about the last of November—from that point I returned on the Railroad to a place called Laclede, Linn Co., from which place I traveled in a buggy, down to the Missouri river, at Brunswick, Chariton county; from there I traveled on foot, out to Bynumville, a distance of about 30 miles—the weather had turned very cold, and the ground was frozen as hard as cust iron. I found before reaching the end of my journey several fine blisters on each foot, and my legs as stiff as a Spavined horse; however, I made some twenty-eight miles of the road in one day. I put up at a farm house, where I was very kindly cared for, and when I thawed out, at a rousing log fire in a big outside chimney fire-place, over which the lady of the house was cooking supper, and rousting herself into the bargain. The country is more broken through Chariton county than Caldwell and Livingston, and is more settled. As yet, the settlers are principally in and about the timber. Bynumville consists of one house, in which the P.O. of that name is kept. It is owned by Robt. Carmon, Esq., formerly of Alexandria, Pa., who is post master, and is making a very fine farm, and appears to be living quite at home. I stayed at, and in the immediate vicinity of Bynumville, from Saturday morning, till the next Thursday morning; found my brother and family all well, and as well as Mr. Carmon's folks, well pleased with the country .--On Sabbath I attended preaching in a log meeting house in the neighborhood-the meeting house belonged to the Baptist denomination, but is open to others, when not used by themselves. The day I attended, it was occupied by a Presbyterian minister, the Rev. James Vincent, a Kentuckian by birth, a grandson of the leader of the "Paxton boys," of Pennsylvania. He tells of the exploits of his Grand Sire, as though it was something to be proud of, though I believe the act was then. and still is very generally condemned. I passed some time in hunting, but as it was very cold, and being out of practice, I did not make it pay very well-I killed one lame wild goose, three pheasants, a few squirrels, and scared quite a number of wild turkeys.

From Bynumville I traveled up to the railroad to Stockton-twelve miles-the road leads through timber most of the way, water appeared to be scarce, and all the wells I noticed, were "overshot wells"-that is, the wells are dug and walled up, and the water conveyed into them by spouts from the roof of the house, smoke houses, and other outbuildings. The clay is of such a nature that it will hold all the water spouted into them, without wasting a particle; of course during long dry spells the water fails, and again in wet weather the subsoil will not permit the surplus water to pass into it, and the result is, that the soil becomes saturated to such an extent, that it cannot be plowed, and the roads become very muddy. From Stockton I came to Quincy, by Railroad. At Macon city, the road intersects the North Missouri Railroad, leading to Sects the North Missouri Kailroad, leading to St. Louis. At this point the negroes for the South, left our train, to take the railroad to The sales to the retailers and bakers are limited from this The sales to the retailers and bakers are limited from this

though the subsoil is entirely different from this section of country, the soil appears much the same.

Times are getting a little brighter here, than they were. Corn is selling at, from 35 to 40 cents per bushel, and as the crop was a fair one, and stock more scarce than usual, a large amount will be shipped at this place. Further North, the early frost damaged the corn, so that there is none for sale. We have had good weather for out door work this winter; the roads were never better; it was icy for several days of last week, making it dangeous for pedestrians. I heard of several alls about town, but no serious accident to life or limb. I understand that Mrs. Campbell, of North Henderson, the mother of Maj. Campbell, of your town, was so unfortunate as to fall and break one of her arms, but was doing well under the circumstances; tonight it is snowing-but I must bring my letter to a close.

### The Union Must Be Preserved.

The following plain talk and sensible article, concerning the feeling that exists in some parts of the south in regard to the dissolution of the Union, and the forming of a Southern republic, we copy from the Louisville (Kentucky,) Democrat, which says: "The Union is ours. Let those who strive to pervert it, go out." It reads as follows:

"There are some people in the south, and particularly in South Carolina, who look to a Southern Republic as the cure for all political maladies. The millennium will come as soon as one can be formed. Now this is all unstatesmanlike and foolish. This Southern Republic would be, like all governments, no better than it ought to be. The same disposition to magnify and exaggerate inconveniences or real evils will remain. There must be somebody to find fault with, and many to find fault. This Union is as good as any that will ever be made of its parts. There is no government which has not had greater difficulties to contend with than ours. There is no one where people are so free, where persons and property are more secure. We have no right to assume that these evils will grow worse, and apprehend that they must become insufferable. We have still reason to expect that wrongs will be appreciated and rectified. At any rate, we need not expect that when they become insufferable and we must end them, that we shall get into a political Paradise in a Southern confederacy. There is no

government without its evils, and great ones. We are not in any event, for going out of the Union. We have complied with its conditions. The Union is ours. Let those who strive to pervert it, go out. We can defend our rights in the Union, if we must do it, by The old Constitution is good enough. We shall not get a better; and we don't want it altered. Let those who disregard it go out of the Union. We prefer driving them out to going out ourselves."

HEAVY INSOLVENCY .- Probably the heaviest case of insolvency that ever came before an American Court, was brought to the consideration of Judge Daly, of the Common Pleas of New York, on Wednesday last, on application of Suydam, Sage & Co., for relief under the insolvent act, the firm having liabilities to the amount of nearly \$3,000, 000. The petition for relief was opposed by four gentlemen for themselves and a large number of creditors. Suydam, Sage & Co., were for many years the heaviest operators in flour in the American market, and were supposed to be possessed of immense wealth. A succession of great losses, during the last general panic, compelled them to succumb, hich they did to the tune of millions. able to effect a settlement with many of their | Anybody in want of creditors, they now propose to force one through the medium of the insolvent law, and the probabilities are that they will, after a protracted course of litigation, prove suc-

FITS: WHY PROMINENT.

For a long time there was a paragraph making its reg-ular weekly appearance in our columns, with the brief, but emphatic words "Fits!" always at the head, to some an offensive caption, but not so to the benevolent some an offensive caption, but not so to the benevolent and humane, who could sympathize in the sorrows of others. Some persons are shocked at any indication of disease, and are even thrown into nervous excitement on witnessing a hearse or a coffin. Such are to be pitied.—We should always strive to look disease and even death in the face with calmness, and especially take every opportunity for alleviating disease. Viewed in this light, the advertisements of S. S. Hance, of 108 Baltimore street, Religious Md. Pagesses a certain interest and those who Baltimore, Md., possess a certain interest, and those who know of any one suffering from Epilepsy, Spasms, or Fits of any kind, should feel it a pleasure to cut out his advertisement, or in some other way send word to the afflicted of the great value of his remedies. SAFES, 304 CHESTNUT STREET. PHILADELPHIA. ANOTHER TRIUMPH!

Philadelphia, Sept. 29, 1859. TO THE PRESIDENT OF THE PENNSYLVANIA AGRICULTURAL SOCIETY:—The subscribers, your committee to examine the contents of a Salamander Safe, of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a

Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out entirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be expected. may be exposed.

The Committee awarded a Diploma and Silver Medal.

WILMINGTON, Del., Sept. 17, 1859.—Messrs. Evans & Wat 30N, Philadelphia.

Gentlemen:—The Salamander Fire-Proof Safe of your Gentlemen:—The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill and gunpowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have heer a small one, it was not forced one. We sunthough the coof, inside and out, slowed the exposion hot to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, truly,

BAYNARD & JONES.

GREAT FIRE: -ANOTHER TRIUMPH!! KNOXVILLE. Tennessee. March 13th, 1859.
Messrs. EVANS & WATSON, Philadelphia:
Gentlemen—It affords me great pleasure to say to you that the Salamander Safe which I purchased of you in that the Salamander Safe which I purchased of you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last.—The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents where found to be in a perfect state, the books and the papers not heing injured any whatever. I can cheerfully recommend your Safes to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.
