### THE GLOBE.

## Huntingdon, Wednesday, March 21, 1860.

LOCAL & PERSONAL. LOCALS IN BRIEF .-- On Tuesday evening of

last week, our excellent friend, Dr. II. K. Neff, presented us with a bunch of prime cigars. We consider ourself somewhat of a judge of good cigars, and pronounce them a fine article. Our thanks, Doctor.

Our young friend David McCabe has removed his jewelry store from Wallace's to George Steel's old building on the corner of the Diamond.

St. Patrick's day in the morning passed off quietly in this place.

Mr. John Swivel, of this place, started for Frazer River on Monday morning last, in search of "ye glittering gold." We wish him success.

The daily prayer meetings continue to be largely attended. The house is full every evening. Quite an interest is manifested by all the different denominations.

At the annual commencement of the Medical department of the University of Pennsylvania which took place in Philadelphia last week, the degree of Doctor of Medicine was conferred upon our young friend Edmund Snare. We predict for him a successful professional career.

We never knew of an election in this place more spirited than the one held on Friday last. There was no party contest on any one of the candidates--it was every man for himself and old scratch for the hindmost. David Snare, Esq., for Justice of the Peace, was the only candidate bitterly opposed by the P. O. clique, and if the gentleman they claimed as their candidate in opposition of Mr. Snare had not withdrawn from the contest, Mr. Snare would have received a larger vote.-Their popularity and influence in the community, especially when directed against a good | the frame. officer, is sufficient to defeat any man they may claim as their candidate.

Justices' Fee Bills, printed and for sale at Lewis' Book Store.

Our merchants are now in the city making their purchases for the Spring trade. The arrival of new goods will be announced in the Globe.

A fine assortment of Window Shades just received at Lewis' Book Store: -Plain green Ganadas, West Indies, and South America, at 75 cents per bottle. and buff, gold and oil figured. Also, fixtures, tassels, tape and cord.

A friend of ours, who took the trouble to count them, informs us that there is no less than sixty marriageable ladies on Hill street in this region. Now is you chance. This is leap year, and if you do not get married, you can blame no one but yourselves.

On Saturday last, we noticed a walking party of our young folks making for the coun-

spirits of turpentine. When it becomes perfectly clear, add a little less than an ounce of alcohol, mix well, and at once cork tight in a bottle. Add alcohol afterwards to make it a medium liquid, and apply with a small brush of this county. or wooden blade. Like the foregoing, it is said to form an air-tight covering, which is the object aimed at by all applications in grafting." WHAT ISA REMITTANCE?—A suit involving the question whether money sent in a regis-tered letter is a remittance, was decided in New York a few days since. Edward Mor-rison sued the Farmer's Bank of North Car-olina for \$250, the product of a draft collec-ted, and which was sent to him in a regis-tered letter, but not received. The court held that as the defendent was not authorized to remit money instead of drafts, as is the usual custom, the money mailed to the address of the plaintiff could not be considered a pay-WHAT ISA REMITTANCE ?- A suit involving custom, the money mailed to the address of the plaintiff could not be considered a payment, and the defendant was therefore liable in the action. The jury found a verdict for the plaintiff accordingly.

#### REASON AND COMMON SENSE.

**REASON AND CORMON SENSE.** Our readers may remember we have on several occa-sions spoken in very eulogistic terms of a preparation which Dr. SETUS. HANCE, of 108 Baltimore street, Balti-more, Md., has discovered for the cure of Epileptic Fits. Now, in doing so, we have been actuated by the very best motives, viz: the alleviation of human suffering. From icreumstances which lave lately come to our knowledge, we fear there is a certain class of persons who are not dis-posed to try this remedy in a common sense manner. We allude to the fact of selecting a particular case in a town where perhaps there are six or eight cases, and trying it than sixty marriageable ladies on II ill street alone. If they will allow us to express an opinion, we would say that some of them had better soon be hunting up a "partner" as age will tell, besides, young men are scarce ALSO—All defendant's right, title and interest in and to two lots in the village of Scottsville, Nos.
If a dozen persons were stricken down with cholera in one town or neighborhood, would they all send for a physician, or would only one employ him, and wait and see if he cured the first patient? That plan of procedure would be most absurd. So in the case of Dr. Hance's remedy, every one who has Fits should try it for a reasonable length of time. It will not cure in a day or a week, nothing worth doing can be accomplished at once. What is easily done, is as easily undone. The growth of time is and to the outlet to be work in the accomplished at once. What is easily done, is as easily undone. The growth of time is

D. 1860, under the hands and scale and will not crack in cold, high winds of spring, or run in the hot suns of summer. ECTON Monday evening last a German entered the house of J. P. Anderson, and en-quired for the mistress, for the purpose of ask-ing charity, we presume, but not being un-derstood, he left the house, and in so doing, pilfered the hats and caps from the rack, and left his own in stead. At a later hour, by means of a screw driver, he took the lock off the bar-room door of the "Huntingdon House," but did not gain admittance, as the door was barred inside. Such rascality scarcely needs comment. The country is full of these lawtheir records, inquisitions, examinations and remembran-

GRAFTING WAX .- This being the season for grafting, we publish for the benefit of fruit-growers the old receipt for making grafting wax, at the same time adding a new receipt recommended by a prominent agricultural journal. The old standard grafting wax is made as follows :-- "Three parts rosin, three parts beeswax, and two parts beef tal\_ low. These are all melted together, and the mixture is usually applied with a painter's small brush or a wooden blade. It is frequently worked up like shoemaker's wax by being softened with a little warm water, and applied with the hand. Some also dip strips of cotton cloth, an inch or an inch aud a half wide, into the hot wax, stripping it through between two pieces of wood and applying around the graft." We prefer the first-named process.

The new grafting wax referred to, is made and applied as follows ;—" Melt two ounces of rosin slowly so as not to make it throw off its Huntingdon, March 21, 1860.
