Philadelphia, Sept. 29, 1859.

TO THE PRESIDENT OF THE PENNSYLVANIA AGRICULTURAL

being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent— That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the

nad been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorched.

Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out entirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

The Committee awarded a Diploma and Silver Medal.

WILMINGTON, Del., Sept. 17, 1859.—Messrs. Evans & Warson, Philadelphia.

Gentlemen:-The Salamander Fire-Proof Safe of you

Gentlemen:—The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill and gunpowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced one. We stra

though the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, truly,

BAYNARD & JONES.

TEDICAL SCIENCE. The history of "HOOFLAND'S GERMAN BIT-TERS," the most remarkable medicine of the day, and the many cures that have been performed with it in cases of LIVER COMPLAINT, DYSPEPSIA. NERVOUS DEof LIVER COMPLAINT, DYSPEPSIA. NERVOUS BE-BILITY, and diseases arising from a disordered liver or stomach, place it among the most astonishing discoveries that have taken place in the medical world. The diseases to which these Bitters are applicable are so universal, that there are but few of our friends who may not test their virtues in their own families or circle of acquaintances, and prove to their own satisfaction that there is at least one remedy among the many advertised medicines, deser-ving the public commendation. It is a fact that, in the minds of many pursons a prejudice exists against whot one remedy among the many advertised negacines, deserving the public commendation. It is a fact that, in the minds of many persons, a prejudice exists against what are called Patent Medicines; but why should this prevent you resorting to an article that has such an array of testimeny to support it as Hoofland's German Bitters? Physicians prescribe it, Why should you discard it? Judges, usually considered men of talent, have and do use it in their own families. Why should you reject it? Clergymen, and those the most eminent, take it; why should not you? Let not your prejudice usurp your reason, to the everlasting injury of your health; if you are sick, and require a medicine, try these Bitters.

These Bitters are prepared and sold by Dr. C. M, Jackson, No. 418 Arch street, Philadelphia, Pa., and by druggists and storekeepers in every town and village in the United States, Canadas, West Indies, and South America, at 75 cents per bottle. See that the signature of C. M. Jackson is on the wrapper of each bottle.

GREAT FIRE!—ANOTHER TRIUMPH!!

KNOXVILLE, Tennessee, March 13th, 1859.

Messrs. EVANS & WATSON, Philadelphia:

Gentlemen.—It affords me great pleasure to say to you that the Salamander Safe which I purchased of you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last.—The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents where found to be in a perfect state, the books and the papers not leeing injured any whatever. I can cheerfully recommend your Safes to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.
