That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out entirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be expected. may be exposed The Committee awarded a Diploma and Silver Medal.

GEO. W. WOODWARD, JOHN W. GEARY, J. P. RUTHERFORD,

ALFRED S. GILLETT. STILL ANOTHER. Wilmington, Del., Sept. 17, 1859.—Messis. Evans & Wat son, Philadelphia.

Gentlemen:—The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill and gunpowder, had a sledge hammer, cold chisels, drill and gunpowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them. Yours, truly,

at liberty to use them. Yours, truly, BAYNARD & JONES. GREAT FIRE!-ANOTHER TRIUMPH!! KNOXVILLE, Tennessee, March 13th, 1859. Messrs, EVANS & WATSON, Philadelphia: Mesers. EVANS & WATSON, Philadelphia:

Gentlemen—It affords mo great pleasure to say to you that the Salamander Safe which I purchased of you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last.—The Safe fell through tato the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the rains and opened, all its contents where found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recommend your Safes to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.
