### Let the People Know!!

That there remained in the National Convention at Baltimore, after every disorganizing Rebel had seceded, 436 regularly appointed delegates, entitled, under the rule, to cast 218 votes-16 MORE than TWO the home of Senator Fitzpatrick, has at the THIRDS of a Full Convention. STEPHEN A. DOUGLAS to be the unanimous choice of the Convention, passed without a single dissenting voice; so that Stephen A. Douglas actually received 218 votes-SIX-TEEN votes more than two-thirds of a full Convention I

Let the People know, too, that the Seceders' Convention which nominated Breckinridge and Lane had no authority from any constituency to sit at Baltimore outside of the regular Convention-that it did not contain more than eighty or ninety delegates who had even a shadow of authority from the people to act -that it cast in all but 105 votes-not one of them properly authorized, or binding on any body-let them know this, and let them decide which was the Regular and which was the Disorganizers' Convention, and which of the nominees, Douglas or Breckinridge, is entitled to the undivided support of the National Democracy.

THE LAST FALSEHOOD .- The Breckinridge press, failing to make strength for their candidate by fair and honorable means, now resort to the most bold falsehoods. They now assert that the negative vote was not put on the motion, Maj. Theo. Snyder, O. A. Traugh resolution making the nomination of Stephen A. Douglas unanimous. A bolder effort to ferees, with instructions to use all fair and deceive the people never was attempted by the unprincipled men who have control of corrupt presses. We were on the floor of the Convention when the nomination was made unanimous, and when the negative was put we had our eyes upon the Pennsylvania delegation to see if any of them would vote no. There was not a dissenting voice from a single man of the whole delegation, and every man was in his seat. There was not a no in the whole Convention of 2123 votes, which made Douglas the nominee by 8½ votes more than the two-thirds of a full Convention .-Other gentlemen from Huntingdon were by our side in the Convention when the nomination was made unanimous, and who will certify to the correctness of our statement.

The Breckinridge wing of the Democratic party in Cambria county, met in convention last week and put in nomination a full county ticket in opposition to the one lately nominated by the regular Democratic | lieve that the people recognize these divisions, delegate County Convention. So we go .-We are gratified that the Democratic party of Huntingdon county act with more good

Before going to press we expect to have the pleasure of announcing to our readers the nomination of a good and strong man for Senator. One, a majority of the voters of this Senatorial district can and will vote for. Such a man will be nominated.

POSTSCRIPT. Tucsday, September 4th, 2 o'clock, P. M. We have just returned from the Conferee Meeting held at Bedford on last evening, and it gives us great pleasure to announce the unanimous nomination of Hon. John Scott of this place, as the Democratic candidate for Senator. Mr. Scott is well known throughout the District as one of the best men in it, and it will not do for the people to have a doubt of his success. He can and must be elected over Samuel S. Wharton. It would be an eternal disgrace upon every voter in the District to permit Wharton to defeat the talented and upright Scott.

WHAT DOUGLAS MEN HAVE A RIGHT TO DE-MAND .- They have a right to demand of the Electors appointed by the Reading Convention, an unconditional pledge, that if elected, they will east their votes in the Electional College for the nominees of the National Democratic Convention, Douglas and Johnson. They have a right to demand of the Electors a pledge that so long as the the Electors a pledge that so long as the laws—the duty of good and lovel citizens. names of Douglas and Johnson remain before the Electoral College that they cast their votes for them as the candidates of the party. The Elector or Electors refusing to give such the great interests of Pennsylvania. He repledges cannot expect and should not receive on this subject. He doubted the sincerity of the support of the Democratic party.

Wm. H. Welsh, chairman of the fusion State Executive Committee, denounces all Democrats as traitors who refuse to assist in disorganizing the party by opposing the regular nominee for President-Stephen A. Douglas. Mr. Welsh is yet a young man, but he has the impudence of the political sinner of double his years. Before '61 he will be a wiser if not a better man.

The Chambersburg Times, a large and handsome sheet, has taken down the names of Lincoln and Hamlin and put up Douglas and Johnson. The conservative feeling in the Opposition party is crushing out Lincoln-Abolitionism. The true mon of lowing Lincoln to be elected, so that they the country in every direction are flocking to the country in every direction are flocking to the support of the "Little Giant," the man for the times.

would have a good excuse for making an attempt to dissolve the Union. We do not say, nor do we believe, that Mr. Breckinridge had, for the times.

A correspondent from Norfolk, Va., writes: "Judge Douglas addressed the largest meeting ever held in Norfolk, from seven to ten thousand people being present, and-kie epecoh has created such a reaction in his favor here that, instead of being in a minority, as he was a week ago, his friends are now betting largely that he will poll a larger vote in the city than Breckinridge."

BRECKINRIDGE IN THE SOUTH.-A new Douglas journal, named the National Democrat, has been established in Alexandria, Louisiana. It is an ably conducted journal, and strenuously sustains the cause of the Illinoisian .-J. W. Parker is editor. In his salutatory

"The men are nothing—parties are nothing. The great question before us is, Union or Disunion. Breckinridge may be a giant in intellect, a Melanchon in purity, a Cincinnatus in patriotic intention, yet having lent himself to a faction whose aims are unholy and traitorous, no lover of his country can support him. Ours is a common country. Politically, there should be no North, no South, no East, no West. Nor do we beeither geographically or in feeling."

This has the ring of true silver. When a spirit like this is abroad in the South, who will despair in the Union?

HENRY D. FOSTER ON THE STUMP .- Gen. Foster made his first speech at Somerset, on Monday evening of last week. We take the following notice of it from the Democrat of

"Hon. Henry D. Foster took the floor amid the most tremendous and deafening applause, the audience rising to their feet and giving him cheer after cler. When the excitement had subsided, Gen. Foster proceeded to dishad subsided, Gen. Foster proceeded to cuss the political questions prominently before the people. He deplored the unhappy party, the man who played the part in the disruption of the Democracy at Charleston dissensions at present existing in the Democracy at Charleston ocratic party, but declared that Congress had and Baltimore, now proclaims that very no right to legislate for the Territories on the disruption as evidence that the Democracy subject of slavery, because there was no such power conferred by the Constitution; that the vember, exulting and chuckling all the while they could not be left without law, and it folin the undisguised idea that this result will lowed that the Territorial legislature had absolute control of the subject. To deny this thinks he sees at last, only a little way in fuwas to deny the right of self-government, the ture, the consummation of the measure in basis of our freedom. He vindicated the independence of the States as well as the Territories, and held that the spirit of the framers of the Constitution could alone preserve the Union of the States—this was a spirit of harmony, and of brotherhood. No State could be kept in the Union against its will; no right could be invaded with impunity .-He charged that the fanaticism of John Brown was the result of abolition teachings, by which ignorant and rash men were incited to deeds of blood. He showed most conclusively that the tendency of the doctrines of the laws-the duty of good and loyal citizens.

Gen. Foster then took up the Tariff question. He avowed himself strongly in favor of such discriminations as would best protect of the great portion of the Republican party on the Tariff, and was of the opinion that their apparently zealous support of the Tariff measure was for political effect. He spoke in terms of great personal respect for Col. Curtin, but denied that Col. Curtin had ever given such official pledge as he had given .-He concluded by counseling all to deliberate solemnly as to the course they intended to pursue in the present crisis, and to act in that manner which would result in the greatest good to our beloved State and Union.

Gen. Foster was greatly applauded during the delivery of his remarks, and retired amidst loud and long-continued cheering."

Treason! Treason!! Treason!!!

It has alwas been our opinion that the object of W. L. Yancey and other leaders of the bolters at Charleston, was to break up or has any knowledge of Yancey & Co.'s schemes. He is, doubtless, their innocent victim. But the evidence is now clear that a conspiracy has been framed between many of the leading supporters of Mr. Breckinridge and the Republicans, to effect the election of Abraham Lincoln. We are ments to Republican clubs to insure their distribution. Thomas B. Florence, the member of the Breckinridge Committee for this State, last week, sent under his own frank, a large bundle of documents to the Bedford P. O., directed to Peter H. Shires, who is the President of the Lincoln Club, of this place. How far this base conspiracy extends, we do not know, but we feel it our duty as a Democratic editor to warn Democrats to be on their guard. If we were the strongest Breckinridge man in the county, treason like this would make our own friends are striving to destroy us.-Bedford Gazette.

RICHMOND, Sept. 1 .- Mr. Douglas was well received on his arrival in this city, last evening. He was escorted to the St. Charles Hotel, and addressed an assembly in Capitol Square. He reiterated the doctrine of non-intervention in the strongest sense.

RAILROAD EMBEZZLEMENTS.—The Harrisburg State Sentinel of Sept. 1st says:-For the last few days the most exaggerated accounts have been in circulation in this city in regard to serious loss sustained by the Pennsylvania railroad company by the dishonesty of some of their employees. It gives us pleasure to state that the loss sustained by the company is not quite so serious as madam rumor has made it. The defaulting employees have secured to the company almost every cent that has been taken by them, and the timely discovery of the present peculation has secured the company from further loss of the same sort, by showing the necessity of adopting new guards and checks. A Horrible Case.—The Tyrone Star of Aug. 29th, details a horrible case of debauchery on the part of a woman in Ironsville, in Blair county, and her consequent neglect of her child, some three weeks old. The child was taken up and cared for by some of the humane neighbors, and a physician summoned; who was of the opinion that it was so far reduced by actual starvation as to leave little hope of its recovery.— The inhuman mother, whose name is Biddy Creeley, (her husband, Dennis Creely, is now in jail on the charge of threatening the lives of his neighbors,) was arrested immediately and committed to jail on the charge of wil-

SUDDEN AND SINGULAR DEATH .- A physician named Friedlander died at his residence in Chicago, Ill., last week, after a most distressing illness, caused, as was believed, from being bitten in the face by a fly that had brought poison communicated from the carcass of a poisoned dog. No medical remedies availed any thing, and so fearful were the effects of the disease that a few hours after the breath had left his body the friends were forced to hurry his remains into the ground.

PENNSYLVANIA OIL DISCOVERIES. - New discoveries are daily made in the oil regions of Pennsylvania. A well has recently been opened at Fideout, from which were taken fifteen barrels of oil in twenty-two minutes .-The great trouble at pressent appears to be the inability to obtain a sufficient number of barrels to supply the demand. There is no doubt but that a very large business will result from these oil discoveries in Western Pennsylvania. As a burning fluid there is nothing superior to this oil. Already the price of it has gone up in Europe, and new fields of demand are continually opening.

BAROMETERS FOR EVERYBODY .- In several large farm-houses in Lancashire, they use the following as a weather indicator. A leech is put into a glass bottle full of water, the latter being renewed every one or two days, If the day is to be wet, the leech lies close at the bottom of the bottle; if the day is to be showery, it occupies a place at about the centre (upwards) of the bottle, but if the day is to be fine, the creeping thing lies on the surface of the water. Pain and tenderness are at once relieved, and in a few days the granulations all go, leaving the diseased parts dry and destitute of all feeling, and the edge of the nail exposed so as to admit of being pared away without any inconvenience. I have tried the plan repeatedly since, with the most satisfactory results. The operation causes little if any pain, if the tallow is properly heated.

Poisoned Paper.—The Philadelphia Inquirer mentions the case of a young lady in that city, who for years had a painful and loathsome disease which threatened to be fatal.-Suspecting accumulative poison, her food and drink were frequently analyzed, without detecting any. At last it was discovered that the paper on the walls of her room was colored green with the aid of arsenie; and that the vapor from this was the cause of her illness.
