For the Farmer.

THE CATTLE DISEASE CAUSED BY IMMATURE Food .- There is an interesting article in the Journal d' Agriculture Pratique, from the pen of Gustave Hamoir, in which several facts are brought forward to show that cattle feeding on immature food are very liable to pleurepneumonia-the cattle disease which has caused such a panic during the present summer in Massachusetts.

He states that in seasons favorable to a rank growth of the sugar beet-and when, consequently, the beet is deficient in sugarcattle fed on the pulp of the beet are subject to this disease. But he has found that if the pulp is steamed in such a way that the steam carries off the volatile matters-alcohol, aceticacid, and essential oils-it is then healthy

Several experiments are mentioned which seem to prove the truth of this idea.

There can be no doubt that immature food of any kind is unhealthy. The leaves of turnips, which analysis shows to contain a much larger percentage of nitrogen than the bulbs, are well known to be less nutritious than the bulbs, and have a tendency to cause scours in the sheep and cattle eating them. In Mr. Lawes' experiments on sheep this fact was brought out in a very striking manner.-Sheep fed on turnips manured with superphosphate of lime did well and gave a fair increase: while sheep fed on the same kind of turnips and grown in the same field, and fed out of at the same time, but which were dressed with a large quantity of ammonia, not only did not increase in weight but actually lost in flesh, and were so evidently illfed that it was necessary to discontinue the experiment. Analysis showed these turnips to contain a much higher percentage of nitrogen than those grown with the superphosphates of lime-in other words, they were deficient in carbonceous matter. The ammonia caused them to continue growing late in the fall, and they were when gathered far rom being perfectly matured.

Sugar beets, heavily dressed with ammoniacal manures are well known to be deficient in sugar, and the manufacturers of beet-root sugar do not like excessively heavy crops.-M. Hamoir states that the years when the crops of beets were unusually heavy were the years when the cattle disease most prevailed, and we have no doubt it was caused by the beets being immature. We see no reason to doubt that immature grass, or that grown on low wet land, would also be injurious. - Genesce Farmer.

FATTENING TURKEYS .- Much has been published of late in our agricultural journals, in relation to the ailamentary properties of charcoal. It has been repeatedly asserted, that domestic fowls may be fattened on it without any other food, and that too, in a a shorter time than on the most nutritive grains. I made an experiment, and must say that the result surprised me, as I had always been rather skeptical. Four turkeys were confined in a pen and fed on meal, boiled potatoes and oats. Four others of the same brood, were also at the same time confined in another pen, and fed daily on the same articles, but with one pint of finely pulverized charcoal mixed with their meal and potatoes. They also had a plentiful supply of broken charcoal in their pen. The eight were killed on the same day, and there was a difference of one-and-a-half pounds each in favor of the fowls which had been supplied with charcoal, they being much the fattest, and the most greatly superior in point of tenderness and flavor. Germantown Tel.

To REMOVE HORSES FROM A BUILDING ON FIRE.—The great difficulty of getting horses from a stable, where surrounding buildings are in a state of conflagration, is well known. Wilkes' Spirit of the Times says a gentleman whose horses had been in great peril from such a cause, having in vain tried to save them hit upon the experiment of having them harnessed, when, to his astonishment, they were led from the stable without difficulty.

CASHMERE GOATS IN KENTUCKY .- R. W. Scott, of Kentucky, informs the Ohio Cultivator that G. W. Ogden, of Fayette county, has a flock of eighty Cashmere goats, grades and full bloods, male and female. He was astonished to see "how rapidly the short haired scrub is transformed into the fine woolbearing Cashmere-four or five crosses appearing to make them in all respects equal to pure-bred animals from imported stock."

MILK BECOMING THICK WHILE SWEET .- A writer to the Boston Cultivator states that a few years since he fed a cow on "cut feed" mixed with Indian meal. After she had eaten two or three bushels of meal, the quantity of milk became less and the quality richer, and in a few minutes after the milk was drawn it became thick, like jelly, yet remained perfeetly sweet. He says he "cut short" the meal, and there was no further trouble.

To KILL ROACHES. -Borax powder sprinkled about the kitchen, closets, pantries, sinks, drawers, etc., within the course of a few days, almost completely exterminates roaches, with which nearly every house is infested.-Unlike most other remedies, it is perfectly harmless, in case it should come in contact with food. Quantity, from 1 to 2 pound.

CURE FOR A FELON.—Cut a hole in a lemon and wear it on the finger over the felon, like a thimble. So says an exchange.

R. ESENWEIN'S TARAND
WOOD NAPTHA PECTORAL,
Is the best Best Medicine in the World for the cure of Coughs and Colds, Croup, Bronchitis, Asthma, Difficulty in Breathing, Palpitution of the heart, Diptherir, and for the relief of patients in the advanced stages of Consumption, together with all diseases of the Throat and Chest, and which predispose to Consumption.

Chest, and which predispose to Consumption.

SAY AND SEAL, By the author of "Wide, Wide World," and the authort of "Dollars and Cents."—2 vols., 12 mo.: publishers price

In evidence of the great popularity of this work, we need only say that 30,000 COPIES of the English edition have already been sold, and, up to the present time, we have been unable to furnish the books as rapidly as or-

We invite attention to the following notices:

"The authors have turned their intellectual wealth to the best purposes. Such books are better than hundreds of mere controversial sermons."—R. Shelton Mackenzie.

"Say and Seal' is indeed a true, beautiful home book, that will be read with delight and profit by tens of thousands of our people."—Evening Bulletin.

"Decidedly the best book emanating from the authoress of 'Wide, Wide World."—Inquirer.

"A delightful book it is."—The Press.

"It is superior to 'Wide, Wide World."—North American.

THE BIBLICAL REASON WHY, A handsome book for Biblical Students and Sunday School Teachers, and a Guide to Family Scripture Reading, beautifully illustrated.—Large 12 mo., cloth, giltside and back. Publishers' price \$1.

This book makes the Bible a pleasant as well as profound subject of study. It leaves no difficult or obscure point unexplained. It renders every passage clear. It is exactly the volume that every family, which reads at all imperatively needs to place beside the Bible, as its best cornering.

THIS VOLUME ANSWERS 1,493 QUESTIONS IN A CLEAR MANNER. TESTIMONIALS OF THE CLERGY.

"I have given some attention to the 'Biblical Reason Why,' and feel bound to say that it seems to me to contain a vast amount of information on Biblical subjects, conveyed in a clear manner, illustrated by many valuable cuts, and printed on good paper. It constitutes a valuable addition to the apparatus of the Teacher, Parent, and private Christian." Right Rev. ALONZO POTTER, D. D., LL. D.

"I have examined the 'Biblical Reason Why,' and find "I have examined the Biblical Reason Why,' and firth it to be a repartory of facts on Biblical subjects, set forth in a plain and intelligible way. Indeed, I am surprised at the amount of matter that is compressed into this volume. For use in families and schools, I consider it the best book of the kind I have seen."

Rev. JOHN McCLINTOCK, D. D., LL. D., President of the Troy University, and Pastor of St. Paul's Church (Methodist Episcopal,) New York.

"The attention I have given your book satisfies methat it cannot fail to give important aid to all students of the Bible, and especially that large class who have neither time nor means to bestow on larger or more critical works. The plan of your work is excellent, and the matter well chosen. It should have a large circulation. It will certainly be of great use in the study of the Holy Scriptures."

Rev. JOSEPH II. KENNARD,

Pustor of the Eighth street Baptist Church, Philadelphia.

304 CHESTNUT STREET, PHILADELPHIA. ANOTHER TRIUMPH!

Philadelphia, Sept. 29, 1859. To the President of the Pennsylvania Agricultural Society:—The subscribers, your committee to examine the contents of a Salamander Safe, of Evans & Watson, after

contents of a Salamander Safe, of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent—

That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorched.

Several Silver Medals heretofore received by the manufacturers; and a large quantity of documents were in the Safe, and came out entirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

may be exposed.

The Committee awarded a Diploma and Silver Medal.

GEO. W. WOODWARD,

JOHN W. GEARY,

J. P. RUTHERFORD, ALFRED S. GILLETT.

STILL ANOTHER. Wilmington, Del., Sept. 17, 1859.—Messrs. Evans & Watson, Philadelphia.

Gentlemen:—The Salamander Fire-Proof Safe of your

Gentlemen:—The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent, Ferris & Garrett, of our city, some nine months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisels, drill and gunpowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder-proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was notforced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, truly,

BAYNARD & JONES.

GREAT FIRE!—ANOTHER TRIUMPHII

GREAT FIRE!—ANOTHER TRIUMPH!!

KNOXVILE, Tennessee, March 13th, 1859.

Messrs. EVANS & WATSON, Philadelphia:

Gentlemen—It affords me great pleasure to say to you that the Salamander Safe which I purchased of you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last.—The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruius and opened, all its contents where found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recommend your Sates to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.
