#### THE GLOBE.

Huntingdon, Wednesday, Nov. 14, 1860.

# LOCAL & PERSONAL.

AN EARNEST REQUEST .- We have published the Globe regularly for fifteen years, during which time thousands of dollars of arrearages for subscription and advertising, have accumulated upon our books. We have never pressed those of our friends in arrears. contemplation some extensive improvements in the size and appearance of the Globe at an early day, we intend, before making those improvements, to have the wheat sifted from the chaff, and our books squared up. Therefore, all who are indebted to us are requested to call before the 1st of December and square their accounts. We hope there will be no delay on the part of all our patrons in arrears. We are politically defeated, but neither frightened nor dismayed.

Peterson's Magazine.—We are in receipt of this popular Lady's Magazine for December. It is a splendid number. "Peterson" has a circulation of 100,000. It will be greatly improved in 1861. It will contain 1000 pages of double column reading matter; 14 steel plates: 12 colored steel fashion plates; 12 colored patterns in Berlin work, embroidery or crotchet, and 800 wood engravingsproportionately more than any other periodical gives. Its stories and novelets are by the best writers. Its fashions are always the latest and prettiest. Every neighborhood ought to make up a club. Its price is but Two Dollars a year, or a dollar less than Magazines of its class. Subscribe for it and save a dollar. To clubs, it is cheaper stillviz: three copies for \$5, or eight for \$10.-To every person getting up a club, the Publisher will send a magnificent premium .-Specimens sent gratis to those wishing to get up clubs. Address, post-paid, Charles J. Peterson, 306 Chestnut Street, Philadelphia.

Now is the Time.—For the benefit of a number of young ladies we wot of, we would just mention that they should remember that a few more weeks will wind up leap year, and then if they have not made good use of the time, their legal period to do the courting in will have passed away, and before leapyear comes again, they will have become old maids, an institution which now-a-days is dreaded as much as the itch. Girls, make good use of the coming few weeks in the present year. Rig ap yourselves, trim your sails and go into the streets and captivate whom ye can.

THANKSGIVING .- We frequently hear this festival spoken of as if it were a fast day-a religious occasion for self-denial and humiliation. Such is not the design. It is a feast day-a day of rejoicing and of thankfulness for the many blessings we enjoy. The custom of appointing Thanksgiving Day was an early New England one, and spread over the other States. The first Thanksgiving Day in Pennsylvania was appointed by the beloved and lamented Governor Shunk. Now it is a regular "institution" of the State, almost universally observed by our people.

CAUSE AND EFFECT.-John A. McConnell, son of the Postmaster at Newry, Blair county, who was arrested for abstracting letters from the Western mail, at that point, was taken to Pittsburg on Thursday last, by Deputy U. S. Marshal Dougherty and lodged in prison to await his trial. The cause of his dishonesty was the usual one-leading a fast life and not having the means to keep it up. He is a young man, not over twenty years of age, and is very respectably connected.

DIARIES FOR 1861 .- A fine assortment just received and for sale at Lewis' Book Store. Diaries should be in more general use. The young man in particular should keep a Diary day in the year. A good thought or a good action carefully noted down every day during 1861 might produce good fruit in after life.

Romantic Marriage in New Jersey.

The Newark Evening Journal says: Two young ladies of Hightown, Mercer county, had been wooed, and so far won by a pair of ardent suitors as to have named the day and the spot when and where they would surrender hearts and hands. On Sunday last, at Princeton, the silver cords were to have been tied, and the tender rows sealed: but, alas for the mutability of human hopes ! one of the fair ones, whose affections Cupid had forgotten to label 'not transferable,' had so far lost sight of all former promises as to allow a new attachment to spring up in her bosom, and on the wedding morning, when the first suitor called to claim his bride, he found that she had already gone off with her new lover to the very spot where she was to have been joined to him in the holy state of matrimony. Forthwith he started in pursuit of the fugitives, and arriving before the services of the clergy had been rendered, the disappointed bride-groom took his inconstant one aside, and represented the injustice of her treatment. So moving was the appeal that the fair one at length consented to marry according to original agreement. The proud spirit of the man arose within him, and he spurned the offer with contempt, refusing to take to his arms the heartless creature who had broken her vows, and preferred another before him. The dauntless heroine, determined to be a bride at all hazards, immediately returned to her lover, who waited with trembling anxiety the result of the interview, and, without risking further delay, was married to him on the spot.

A SMART Boy .- One of the successful applicants for admission into the Naval academy at Annapolis, and the brightest boy of the whole class, says the Baltimore American, was a little fellow from Texas about fifteen years of age who had been three years setting type in a newspaper office and had studied mathematics and arithmetic with a dip canwas poorly clad when he reached Annapolis, and being asked how he obtained the means to reach Annapolis replied that he had worked for it, and that his money falling short on the route, he had got some small jobs at type setting in New Orleans and other points of his journey. If he should not be admitted, he expected to work his way home again. We saw him on board the Constitution in his naval uniform, with his gilt buttons and anchors, looking as bright and hopeful as if he anticipated becoming a commo-

REFUSES TO RECEIVE THEM .- The Government of Liberia has refused to receive the recaptured Africans who were sent to that Colony from Key West, and who were captured by our cruisers and landed at Monrovia in August last. The number of Africans thus landed are about twenty-four hundred. The American Colonization Society have a contract with the U.S. Government under the law of the last session, to take charge of all those Africans for one year for the compensation of \$100 a head; but the Liberian Government refuses permission for the negroes to remain in its territory, or under its protection, without the same compensation which the Colonization Society is to receive.

The potato crop of Iowa, for the present year, is reported to be truly astonishing The yield in some instances comes up to 400 and 500 bushels to the acre, and the general average is not much less than 200. The quality of the potatoes is better than usual, and far exceeds the best raised in any country we have ever visited. It is not uncommon to find them weighing a pound each, and some that we have seen weighed three, four, and even five pounds. Not a sign of rot or imperfection has been discovered. So plenty and cheap are they that for the past week many loads have sold at ten cents per bushel. No danger of starving in Iowa at these figures.

> OIL EXCITEMENT. - The Bucyrus (Ohio) Journal says that they have got up an oil excitement in that region. The oil has been discovered in Jackson, Vernon and Sandusky townships of Crawford county, and efforts are being made in several places to strike the reservoir beneath, by digging deep into the earth. One well, six miles from Crestline, is now yielding oil in paying quantities.

A butcher suggests the very sensible idea, that if certain people would exercise as much caution in regard to their drink, as they do concerning their meat, there would be a decline in the price of bad liquor.

AN ACTOR MORTALLY STABBED IN THE PRE-SENCE OF HIS AUDIENCE.—The New Orleans Bee, of the 29th, records the following tragic occurence of the previous night:

At ten o'clock last night a shocking tragedy was enacted in reality on the stage of the Gerstreet, between St. Charles and Carondelet .-They were playing the drama of The Wolf, and at that moment were acting a scene in a gambling-house, where a young man is fleeced of his last dime, and when he charges the gamblers with cheating, is stabbed and killed.

John Kruger was playing the part of the gambler, Emile Steur that of the ruined young man. Kruger had not been furnished with a stage-dagger by the property man, and borrowed a real one from officer Borwin, who was the special policeman in Concert Hall.

In acting such scenes with real daggers on the stage, the person who strikes the blow keeps his elbow out further than the point of the weapon, and the person who pretends to receive the fatal thrust leans backwards, so that the striker's elbow, coming against his breast, stops the motion. Steur was unhappily somewhat intoxicated, and when he should have thrown himself backward he sudstooped forward and before Kruger could German and English Almanaes for check the impetus of his arm the dagger had gone into the right side of Steur's neck, opening a gash to the back bone. The unfortunate actor was instantly carried off the stage and sent to the Charity Hospital mortally wounded, while Kruger was taken to the lockup by officers Dalton and Borwin. The curtain was down but a short time, the pool of blood was washed up, and then it was announced to the audience that the drama could not be concluded, but that a farce would be substituted. The audience applauded, up went the curtain, and for a whole hour the fellow-actors of Steur exerted themselves to make fun, while the auditors laughed and applauded, as if the spilling of a man's life blood was a mere trifle.

THE GLOBE:

THE OFFICIAL PAPER OF CONGRESS.

I PUBLISH now my annual Prospectus of THE DAILY GLOBE, and THE CONGRESSIONAL GLOBE AND APPENDIX, to remind subscribers, and inform those who may desire to subscribe, that Congress will meet on the first Monday of next December, when I shall resume publishing the above named papers. They have been published so long, tha most public men know their character, and therefore I deem it needless to give a minute account of the kind of matter they will contain.

The Datay Globe will contain a report of the Debates in

matter they will contain.

The Dally Globe will contain a report of the Debates in both branches of Congress as taken down by reporters, equal, at least, to any corps of short-hand writers in this, or in any other country. A majority of them will each, be able to report, verbatim, ten thousand words an hour, while the average number of words spoken by fluent speakers rarely exceeds seven thousand five hundred words an hour. When the debates of a day do not make more than forty-five columns, they will appear in The Daily Globe of the next morning which will contain, also, the news of the day, together with such editorial articles as may be suggested by passing events.

The Congressional Globe and Appendix will contain a report of all the Debates in Congress, revised by the speakers, the Messages of the President of the United States, the Annual Reports of the Head of the Executive Departments, the Laws passed during the session, and copious indexes to all. They will be printed on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The whole will make, it is believed, at least 2,000 pages. This is acknowledged to be the cheapest work ever sold in any country, whether a reprint or printed from manuscript copy, taking for dala the average number of words it contains.

The coming session will, without doubt, be an unusually interesting one, because the debates will, in a great measure, be upon the policy of the Prestdent elect, and The Globe will be, as it has been for many years past, the only source from which full debates of Congress can be obtained.

The Congressional Globe and Appendix pass free through the mails of the United States, as will be seen by
