LOCAL & PERSONAL. By Every Subscriber to The Globe is

requested to act as Agent to extend its circulation and usefulness. We are auxious to publish a first class newspaper, a with the assistance of our subscribers we know we can with the assistance of our subscribers we know we can be put in possession of the means to do so. We want every subscriber to interest himself, not only in procuring for us additional pationage, but also in putting us in possession of ult the local news of the county of interest to the general reader. A little effort on the part of all our patrons would be as much to their advantage as to ours, as with necession through the procession of the part of all our patrons. increased pationage we would be enabled to give a better paper. We cannot afford to put Tie Globe at less than \$1.50 a year, and to enable us to deal honestly with all men we must demand the subscription yearly or half vearly in advance. Subscriptions can be sent to us through the mail at our 11sk, the Postmasters witnessin the same. We carnestly and most respectfully ask ou friends to make an effort to increase our patrouage.

THE GLOBE JOB PRINTING OFFICE. Connected with THE GLOBE, we have a Job Office fur nished with a more extensive assortment of the latest style of types and materials than can be found in any other county town in the State. Our work compares favorably with any done in the cities. We have four presses, which enables us to put out all kinds of job work with dispatch

To OUR FRIENDS .- Since the first of our support is increased, The Globe will increase in value to its patrons.

SHOEING HORSES FOR WINTER TRAY EL .- In frosty weather you cannot have uninterrupted riding with a horse shod in the ordinary way. The sharp points of the frozen mud will wound the frog of the foot, and with snow on the ground, the hollow foot soon collects a hard bail, which makes the footing very insecure. But these evils are remedied by a piece of leather nailed on under the shoe—a protection to the hoof which makes a surprising differonce in the confidence and surefootedness of the animal's step.

INNOCENT TRICKS .- Little tricks, with a harmless design, are often resorted to among friends, for the purpose of having a joke on each other or a little pleasure at the expense of those on whom they are practiced; but very often the result is quite contrary to what is anticipated, as was the case a few days ago. A young lady, of Chester county, was on a visit to her friends when one of them, thinking she could have a little sport, picked up a large January we have added to our sub- bottle of ammonia, and presenting it scription list a handsome increase of to her, told her to take a good smell. patrons, and we learn that many of The young lady not thinking, did as our friends in several townships are requested, when the effect was so powexerting their influence to still further erful as to take her breath, and for a increase our list. > STEREOTYPING WOODEN FURNITURE -It is said that an artist in Paris has made a discovery which will effect a complete revolution in the manufacture of cabinet work. He has found a means of rendering any description of wood so soft that it will receive an impression either of the most varied duced the present disastrous state of sculpture or the most delicate chasing. The wood is then hardened to the consistency of metal, while the impressions remain perfect. The artist has already completed some splendid sculptured articles, such as picture frames, ink-stands, chests and liquor stands. pointing the following gentlemen as officers: President, Samuel Cregor, Esq.; Vice Presidents, Solomon Nunemacher and John McGrath; Secretaries, John Roman and Michael Barry.

The object of the meeting being stated by the President in a few brief and pertinent remarks. On motion, the following gentlemen were appointed a committee to prepare and report resolutions: James White Esq., Edw. McHugh, Thomas Maher, Jos. Morrison and Samuel Brooks Esq.

During the absence of the Committee, the meeting was addressed by Messrs. Jno. McGrath, Alex. Barber, Jno. Flime, and others, eschewing partizanship, and confining their remarks exclusively to a resume of the causes producing the present unhappy condition of our Country, and recommending the cause, in their opinion, best calculated to heal old differences.

The following resolutions were then reported by the Committee, and were

Resolved, That we are unalterably opposed to the recent doctrine of Secession, believing its recognition to mean a dismemberment of this Union. And while we are willing and anxious, to see all causes which may have proaffairs removed, we, at the same time. fully agree with the patriotic Jackson —"The Federal Union must and shall

be preserved." Resolved, That, in the opinion of the meeting, Congress should speedily press the Compromise resolutions in troduced by Senator Crittenden, which we think are established upon a basis that will forever end the slavery con-

ROHRER'S PRACTICAL CALCU

A Book of Plain Rules and Culculations for Business Operations, by Martin M. Rohrer, Fractical Surveyor and Conveyancer. New Edition, published by J. B. Lippineott & Co., Philadelphia. cott & Co., Philadelphia.

This work contains 204 pages, and upwards of 600 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of cilitons in rapid succession, and is pronounced by all classes of business men to be the handaest book for fedrence, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to esclew theory and philosophy in figures, aiming only at facts and simpli-

The chief aim of the author has been to escliev theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctuess. es time and insures correctuess.

R. NEWELL,

R. NEWELL,

GALLERY OF ART, 721 Arch Street, Philadelphia COMMENDATIONS: From Hon. Lewis D. Campbell, M. C., Ohio. My family and friends all concur in the opinion that the (Newell) picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by dif-ferent Artists in various ways, but I have never yot had one which presents so true to nature, all the features and expressions of countenance as this. r family and friends all

From Hon, E. Joy Morris, late Minister to Italy. The exquisite finish, beauty and softness of your por-traits, conjoined with their durability of color and faith-fininess as likenesses, cannot fail to commend them to the attention and patronage of all who appreciate true art. From Col. James Page.

Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in Oil Colors, under the new process discovered by hm, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic faits in all respects, and recommends him to the paternage of the six of the process of the control of the process of the control of the process of the process of the control of the process of th REAT WORK ON THE HORSE.
