THE UNION SAVED!
NEW GOODS!! NEW GOODS!!!
At Coffee Run Station, and Newburg.
SIMON COHN & CO., have just received from the Eastern Cities, a large stock of
Dry Goods, Groceries, Queensware, Hardware, Cutlery, Hats, Caps, Boots, Shoes,
and all other articles kept in country stores, which they are offering at their Mammoth Stores, at Coffee Run Station and Newburg, at unusually low prices. The ladies especially, are invited to call and examine their Fancy Goods.
Having arrangements with large firms in Philadelphia and other eastern cities, they are able to buy their goods cheaper than other country merchants, and can consequently, undersell them! In exchange for goods, they take all kinds of country produce at the highest cash prices. By strict attention to the wants of customers, they hope to receive a continuation of the liberal patronage with which they have been heretofore favored.
Mr. Cohn is Agent of the Broad Top R. R. Co., at Coffee Run Station, and is prepared to ship all kinds of Grain to the Eastern markets. Having a large Ware Room, farmers can store with him until ready to ship. Every convenience will be afforded them.

HOMES FOR THE INDUSTRIOUS IN THE
GARDEN STATE OF THE WEST.
The Illinois Central Railroad Company have for Sale
1,200,000 ACRES
Of Rich Farming Lands in Tracts of Forty Acres and Upward, on Long Credit and at Low Prices.

MECHANICS, FARMERS, AND WORKINGMEN.
The attention of the enterprising and industrious portion of the community is directed to the following statements and liberal inducements offered them by the
ILLINOIS CENTRAL RAILROAD COMPANY,
Which, as they will perceive, will enable them, by proper energy, perseverance, and industry, to provide comfortable and permanent homes for themselves and families, with, comparatively speaking, very little capital.
LANDS OF ILLINOIS.
No State in the valley of the Mississippi offers so great an inducement to the settler as the State of Illinois.—There is no portion of the world where all of the conditions of climate and soil so admirably combine to produce those two great staples, corn and wheat, as the prairies of Illinois.
RICH ROLLING PRAIRIE LANDS.
The deep rich loam of the prairies is cultivated with such wonderful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people.
EASTERN AND SOUTHERN MARKETS.
These lands are contiguous to a railroad seven hundred miles in length, which connects with other roads and navigable lakes and rivers, thus affording an unbroken communication with the Eastern and Southern markets.
APPLICATION OF CAPITAL.
Thus far capital and labor have been applied to developing the soil; the great resources of the State in coal and iron were scarcely touched. The favorable results that the mechanic arts flourish best where food and fuel are cheapest, will follow at an early day in Illinois, and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at least five hundred thousand people will be engaged in the State of Illinois in the various manufacturing employments.
RAILROAD SYSTEM OF ILLINOIS.
Over $100,000,000 of private capital have been expended on the railroad system of Illinois. Inasmuch as part of the income from several of these works, with a valuable public fund in lands, go to diminish the State expenses, the taxes are light, and must consequently every day decrease.
THE STATE DEBT.
The State debt is only $10,105,308 14, and within the last three years has been reduced $2,035,746 99; and we may reasonably expect that in ten years it will become extinct.
PRESENT POPULATION.
The State is rapidly filling up with population; 863,-025 persons having been added since 1850, making the population 1,719,496—a ratio of 102 per cent. in ten years.
AGRICULTURAL PRODUCTS.
The agricultural products of Illinois are greater than those of any other State. The products sent out during the past year exceeded 1,600,000 tons. The wheat crop of 1860 approaches 25,000,000 bushels, while the corn crop yields not less than 140,000,000 bushels.
FERTILITY OF SOIL.
Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being composed of ninety rich loam, the fertility of which is unsurpassed by any on the globe.
TO ACTUAL CULTIVATORS.
Since 1854 the Company have sold 1,200,000 acres. They sell only to actual cultivators, and every contract contains an agreement to cultivate. The road has been constructed through these lands at an expense of $20,000,000. In 1850, the population of the 49 counties through which it passes was only 335,508, since which 479,293 have been added, making the whole population 814,801—a gain of 143 per cent.
EXPENSES OF PROSPERITY.
As an evidence of the thrift of the people, it may be stated that 600,000 tons of freight, including 5,600,000 bus. of grain and 250,000 barrels of flour, were forwarded over the line last year.
EDUCATION.
Mechanics and workingmen will find the free school system encouraged by the State and endowed with a large revenue for the support of schools. Their children can live in sight of the church and school house, and grow up with the prosperity of the leading state in the Great Western Empire.
PRICES AND TERMS OF PAYMENT.
The prices of these lands vary from $5 to $25 per acre, according to location, quality, &c. First-class farming lands sell for about $10 or $12 per acre; and the relative expense of subduing prairie land, as compared with woodland, is in the ratio of one to ten in favor of the former. The terms of sale for the bulk of these lands will be
ONE YEAR'S INTEREST IN ADVANCE,
at six per cent per annum, and six interest notes at six per cent. payable respectively in one, two, three, four, five, and six years from date o sale; and four notes for principal, payable in four, five, six, and seven years, from date of sale; the contract stipulating that one-tenth of the tract purchased shall be fenced and cultivated, each and every year for five years from the date of sale, so that at the end of five years one-half shall be fenced and under cultivation.
TWENTY PER CENT. WILL BE DEDUCTED.
from the valuation for cash, except the same should be at six dollars per acre, when the cash price will be $5 dollars.
Pamphlets descriptive of the lands, soil, climate, productions, prices, and terms of payment, can be had on application to

PRACTICAL CALCULATOR.

ROHRER'S PRACTICAL CALCULATOR.
A Book of Plain Rules and Calculations for Business Operations, by Martin H. Rohrer, Practical Surveyor and Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.
This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handiest book of references, pertaining to calculations, that has ever been published.
Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it: In a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.
The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school room—it facilitates time and insures correctness.
THE WORK TREATS OF THE
Measurement of Land, of Lumber, of Brick and Brick Work, of Stone and Stone work, of grain and grain bins, of coal and coal bins, of wood, of solids, of liquids, of circles, square or irregular vessels, of cisterns and vats, of roofing, of plasterer's, painter's, glazier's, paver's, plumber's, paper hanger's and upholsterers' work. It treats of currency and of foreign and domestic exchange, of the decimal system, of reduction and its extended application in business, of simple and compound interest, and their entire application to business transactions, with the laws and usages governing the same, together with numerous commercial terms—of legal tender, of partial payment on notes, of banking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of the square root and its *application to business* of circles, of excavation, and of many other important practical matters not within the scope of an advertisement to mention.
IT IS JUST THE BOOK FOR THE
Farmer, the merchant, the mechanic, the artizan, or the professional man. It has proved a valuable auxiliary to the lawyer, the justice of the peace, the conveyancer, and real estate broker, to the assessor, the banker, the clerk, to the civil engineer and the surveyor, to the carpenter and bricklayer, to the stonemason and the plasterer, to the paper hanger and upholsterer, to the painter and the tiller, &c., &c.; each and all will find it adapted to their various wants better than any book published.

COMMENDATIONS:
From Hon. Lewis D. Campbell, M. C, Ohio.
My family and friends all concur in the opinion that the (New ell) picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.
From Hon. E. Joy Morris, late Minister to Italy,
The exquisite finish, beauty and softness of your portraits, conjoined with their durability of color and faithfulness as likenesses, cannot fail to commend them to the attention and patronage of all who appreciate true art.
From Col. James Page.
Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a miniature in Oil Colors, *under the new process discovered by him*, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommends him to the patronage of those disposed to encourage the beautiful art.
