Rohrer, Practical Surveyor and Conregares. New Editor, Phathade Surveyor and Conregares. New Editor, published by 7. B. Lippin.</li> <li>This work contains 204 pages, and nywdrak of 600 Rules and Examples, cattrely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handless book of reference, perturbing the catulations, that has ever been published.</li> <li>Bvery example in the book is worked out in fall and stated in a plain manner, so that when a parallel case arises, those referring to the work will limit and difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, nulliply and divide, can easily solve any ordinary example in the arthor has been to exchew theory and philosophy of rales, or they be the difference of the solut spin-tice, being that business men are little about sponding. Unservice the section of the case in the about sponding the facts and simplify. Believing that business calculations—it is, in the funds of the base of the case of the tabut spin biosophy of rales, or they be babeling that business calculations—it is, in the funds of the basiness calculations—it is, in the hands of the basiness calculations—it is, in the hands of the basiness calculations—it is, in the hands of the basiness of a strain and grain bins, of constant and grain bins, of constant and grain bins, of constant and parallel so the chard and physic sections.</li> </ul>
We are analous to publish a first class merspaper, and the the assistance of our subscribers we know we can input in possession of the means to do so. We want ery subscriber to interest himself, not only in proceeding us additional patronage, but also in putting us in pos- sion of all the local news of the county of interest to the neeral reader. A little effort on the part of all our patrons upd be as much to their advantage as to ours, as with reseaded patronage we would be enabled to give a better per. We enumetafford to put The GLOBE at less than 60 a year, and to enable us to deal honestly with all rink we must demand the subscription yearly or half arily in advance. Subscriptions can be sent to us rough the mail at our risk, the Postmasters witnessing same. We earnestly and most respectfully ask our ends to make an effort to increase our patronage. THE GLOBE JOB PRINTING OFFICE. Sonnetted with The GLOBE, we have a Job Office fur- ated with a more extensive assortment of the latest style types and materials than can be found in any other inty tow'In the State. Our work compares favorably the any-done in the cities. We have four presses, which alter reasonable prices. <b>Something to Learn.</b> Below we publish the "Star-Spangied Baumer," so that are reasonable prices. <b>Something to Learn.</b> Below we publish the "Star-Spangied Baumer," so that the will. In these perilous times, no one should be invariat of this, the funct of our National Airs. It cheers is succing over the North with far greater power than the varielles Hymn, ever weided in France. It reminds that will. It has already passed through a number of editions in rapid succession, and is prononneed by all classes of business men to be the handlest bools of reference, pertaining to calculations, that has ever been published. Every example in the book is worked out in fail and stated in a plain manner, so that Wine a parallel cass arise, those referring to the work will lind no difficulty in solving it, in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any or dinary example that arises in business, or arrive at the true result of any estimate required. The chief aim of the author has been to esclew theory and philosophy in figures, alming ouly at facts and simplicity, believing that business men care little about sponding the a summer, by reference, to arrive at the science of figures, deening it sufficient for their purpose to be able at summer, by reference, to arrive at the true result as uncert, by reference, to arrive at the true result. The CALCULATOR titles in this respect from all other Arithmetics of the teacher in the school room—It facilitates time and haves correctenes. THE WORK TREATS OF THE Measurement of Land, of Lamber, of blick and Trick Work, of Stone and Stone work, of cistern and rate, of course, of plasters, painter's, glazier's, paver's, plinnb, of coil and coal bins, of wood, of solids, of liquids, of circular, equation of many nearming accounts, of assessment of faures, of the science of many existences work. It then as of the science of faures, of many bar works, of submers, of single and coal bins, of wood, of solids, of liquids, of circular, equation of inspire science, or partial planget on the science of acces, of many bar works, of submers, of single and cound plank and sciences work. It then as of the science of partment and pholeterer's work. It then as of the science of partment, and u
sion of all the local news of the county of interest to the neral reader. A little effort on the part of all our patrons wild be as much to their davantage as to ours, as with creased patronage we would be enabled to give a better per. We cannot afford to put The GLOSE at less than 60 ayear, and to enable us to deal honestly with all in we must demand the subscription yearly or half rary in advance.
