A refugee from Richmond; sent by a flag of truce, yesterday says that worse than Roman Inquisition prevails in Virginia. There is a standing order that no one shall be permitted to leave the country. Gov. Letcher is completely overraled by Jeff. Davis and Beauregard, and even his patriotism is called in question by many of the rebels.

Some of the Freeborn's men were obliged to leave their shovels, picks, &c., on the shore.

The Resolute, Pawnee and Freeborn were off the Point, and kept up a heavy fire. It is believed that none of the rebels were hurt.

This is another blunder on our side, and "somebody hurt." The official report of the affair received at the

A search has been progressing in

the Marshal's office. A large quantity of arms and ammunition were found secreted in a cellar, in the walls and beneath the floors. A case of valuable pistols, over 800 rifles, twenty-five of which are of the Minie pattern, were among the discoveries. The latter are supposed to have belonged to the Massachusetts soldiers, who were disarmed by the mob on the 10th of April. An immonse quantity of percussion taking ground in favor of the Union caps estimated at 1,000,000, were also

found, as well as 3,100 ball cartfound, as well as 3,103 ball cartridges, 6,000 Minic cartridges, and various other warlike articles, including

This work contains 204 pages, and upwards of 500 Rules and Examples, ontirely and theroughly practical, such as a raise every day in the common pursuits of Business. It has already-passed through a number of editions in rapid-succession, and is pronounced by all classes of hudiness men to be the handlest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel cake artises, those referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily selve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, saming only at facts and simple city, believing that business mear little about spending time in discussing the philosophy of rules, or the science of figures, deeding it sufficient for their purpose to be able at a monient, by reference, to arrive at the true result.
