CONGS AND BALLADS, &C., ANCIENT JERUSALEM, A LARGE AND BFAUTIFUL ISOMETRICAL PICTURE The Gentle Annie Melodist, The Dime Melodist, **JERUSALEM** The Dime Song Book, No. 1, And the Sacred Places Surrounding the The Dime Song Book, No. 2, HOLY CITY, AS THEY APPEARED IN ANCIENT TIMES. The Dime Song Book, No. 3, The above work is commended to the favorable notice of clergymen, and those having charge of Sunday-schools, Bible-classes, and public institutions.

It is about 9 feet long and 6 feet wide, colored and varished, and mounted on canvas with rollers.

It has been constructed from the most reliable and antheutts sources, and will be found an invaluable aid to those engaged in lecturing on the Holy Land, or in imparting instruction to school classes on the subject to which it relers.

It aims to give an exact idea of the city as it appeared in ancient times. It is taken as a "bird's eye" or "balloon" view, the beholder being, in imagination, placed at a considerable elevation, so as to take a comprehensive view of the city and the whole country for some distance around. The Dime Song Book, No. 4, The Dime Song Book, No. 5, The Dime Song Book, No. 6. The Dime Letter Writer, The Dime Dream Book, The Dime Dialogues, The Dime Speaker, around.

The view is accompanied with an Outline Key, in which
the different localities are numbered, and a Descriptive
Manual coutaining all the information necessary to enable one to use the view to advantage in teaching or lecturing. The Dime Cook Book, The Dime Recipe Book. For sale at Lewis' Book, Stationery and Music Store. THE SUNDAY-SCHOOL TIMES. CHOOL BOOKS, This is a Weekly Religious Paper, published at the very low price of ONE DULLAR A YEAR. It is designed for Purents, Puchers, and all who are engaged or interested in the religious training of the young. It is also an excellent Family Paper.

A portion of the Sunday-School Times is occupied with Narratires and other matter particularly interesting to young persons. Teachers will find in it much that they will like to read to their classes—interesting matter prepared to their hands, and such as they cannot find elsewhere. For the same reasons, members of Bible-classes, and the older scholers generally, will be greatly benefit od by the perusul of this paper.

The Sunday-School Times has every week a report of the choicest matter, selected from the Noon Prayer Meetings, which are so interesting to all classes of Christians. $FOR SA^{\bullet}LE$ AT LEWIS' BOOK, STATIONERY & MUSIC STOKE, Webb's Normal Reader, No. 1.

One of the largest and most complete Galleries in the States, where the best Pictures, known to the Photographic art, are taken at prices no higher than are paid for miserable can inctures.

The Proprietor, a practical Photographer, attends personally, every sitting—and allows no picture to leave the Gallery unless it gives perfect satisfaction.

Deguerrotypes and Ambotypes, of absent or deceased friends, photographed to any tequired size, or taken on Carvass, life size, and painted in 601 by the best Artiste.

At this Gallery pictures can be taken in any weather—as perfect in cloudy days as when the sun shines.

Persons visiting the city are respectfully invited to examine our specimens, which for price and quality defy competition.

mpetition.

**Instructions given in the art of Photography.

R. NEWELL,

COMMENDATIONS: From Hon. Lewis D. Campbell, M. C., Ohio.

My family and friends all concur in the opinion that the (Newell) picture is more life-like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

From Hon. E. Joy Morris, late Minister to Italy,

The exquisite finish, beauty and softness of your pot traits, conjoined with their duability of color and faith fulness as likenesses, cannot full to comment them to that extention and patronage of all who appreciate true art.

From Col. James Page.

DOHRER'S PRACTICAL CALCU-

This work contains 204 pages, and upwards of 600 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common purents of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handlest book of reference, pertaining to calculations, that has ever been published.

THE WORK TREATS OF THE

euccession, and is pronounced by all classes of business men to be the handiest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises. those referring to the work will find no difficulty in solving it: in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aum of the author has been to eschew theory and philosophy in figures, amining only at facts and simplicity, belioving that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all of the Taribuses man, what the key to mathematical works—It is a key to practical business calculations—it is, in the hands of the teacher in the school room—is facilitates time and insures correctness.
