This is a Weekly Religious Paper, published at the very low price of ON E DOLLAR A YEAR. It is designed for Purents, Tachers, and all who are engaged or interested in the religious training of the young. It is also an excellent Family Paper.

A portion of the Sunday-School Times is occupied with Narratives and other matter particularly interesting to young persons. Teachers will find in it much that they will like to read to their classes—interesting matter propered to their hands, and such as they cannot find elsewill like to read to their classes—interesting matter propered to their hands, and such as they cannot find elsewill like to read to their classes—interesting matter propered to their hands, and such as they cannot find elsewill like to read to their classes of the classes of Christians. Of the choicest matter, selected from the Noon Prayer Meetings, which are so interesting to all classes of Christians. Besides a large amount of general religious intelligence, the Sunday-School Time to the Sunday-School Time contains all the most recent Sunday-school news. It reports all the important Conventions of Sunday-School three contains all the most recent Sunday-school news. It reports all the important Conventions of higher and especially of securing their conversion and affections of children and especially of securing their conversion and bringing them to Christ. The subject of Mission-Schools for cities, and of Sunday-school missionary work for the interior, is thoroughly canvassed. Indeed, there is hardly a topic of practical Importance to any who are interested in the subject of religious education, which is not here brought under consideration from week to week.

The conductors of this paper endeavor to remember, that the great end of all Christian effort is to bring men to Christ. They aim saccordingly, to put into every number of the paper something which shall have for its direct object the conversion of souls. MANUAL GUTMAN, ISHER & SON, Dealers in Dry Goods, THE HORSE AND HIS DISEASES DHILADELPHIA AND READING RAILROAD. TOSEPH REIGGER, OHRER'S PRACTICAL CALCU-A Book of Plain Rules and Calculations for Basinets Operations, by Martin M. Robrer, Practical Surveyor and Concepanor. New Estimon, published by J. B. Lippin coll & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise every day in the common pursuits of Business. It has already passed through a number of editions in against every day in the common pursuits of Business. It has already passed through a number of editions in a succession, and is pronounced by all classes of business men to be the handlest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case art, see, those referring to the work will find no 'difficulty in solving it; in a word, the general strangement of the CALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily edve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief sim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The OALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the teacher in the school room—is facilitated time and insures correctness.
