LEWIS,
Dealer in Books, cott & Co., Philadelphiu.

This work contains 203 pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical, such as arise overy day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handlest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case artices, those referring to the work will find no difficulty in solving it; in a word, the genard arrangement of the CALOULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to esclare theory and philosophy in figures, simple goly at facts and simplicity, believing that business mo can little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, of for their purpose to sale a moment, by reference, of the result. The CALOULATOR differsh there at the result. PRICE \$2, 00. FOR SALE AT LEWIS' BOOK STORE. Misses' Sack, AT PRICES AND A SHEET OF NEW AND BEAUTIFUL CAVALRY TACTICS. TO PLEASE EVERYBODY. M.
