PRACTICAL CALCULATOR.

ROHRER'S PRACTICAL CALCU A Book of Plain Rules and Culculations for Business Of rations, by Marlin M. Rohrer, Practical Surveyor ar Conveyance. New Edition, published by J. B. Lippi oott & Co., Philadelphia.

Conveyancer. New Edition, published by J. B. Lippin cott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500. Rules and Examples, entirely and thoroughly practical "ch as arise avery day in the common pursuits of Busicons." I has already passed through a number of editions in rupid succession, and is pronounced by all classes of business men to be the handlest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it, in a word, the general arrangement of the CALCULATOR is simple, that any one who knows how to add, subtract multiply and divide, can easily solve any ordinary example that arises in business, or arrive at it e true result of any estimate required.

The chief aim of the author, has been to eschew theory and philosophy in figures, aming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR flighers in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works in the bands of the teacher in the school room—it facilitates time and insures correctness.

THE WORK TREATS OF THE

Measurement of Land, of Lumber, of Brick and Brisk
Work, cf Stone and Stone work, of grain and grain bins
of coal and coal bins, of wood, of solids, of liquids, of circular, square or irregular vessels, of cisferns and vaterol
roofing, of phasterer's, painter's, glazior's, paver's, plumb
er's, paper hanger's and upholstorer's work. It treats of
currency and of foreign and demestic exchange, of the
decimal system, of reduction and its extended application
to business, of single and compound interest, and their
entirs application in-business treasctions, with the laws
and tasges governing the stane, together with numerous
commercial forms—of legal tender, of partial payment on
notes, of bunking and bank discounts, of equation of payment and of partnership accounts, of assessment of taxes
of weights and measures, of square and cubic measure, of THE WORK TREATS OF THE
