

# The Globe.

RUNTINGDON, PA.  
Wednesday morning, Feb. 17, 1864.  
LOCAL & PERSONAL.

### What Next?

The type foundry has issued a circular to all printers that they have raised the price of printing materials 25 per cent. Printers ink has advanced 25 per cent, and paper makers have raised the price of paper 100 per cent. The reader will see that publishers of newspapers are not likely to become millionaires in a hurry under this state of affairs. Surely, printers are the unluckiest of the unlucky, and the ones most frequently subject to disappointment, for, when we thought matters looked most favorable for a reduction in the amount of impost on printing materials, we are met with the astounding intelligence that more is added. We have not yet been smitten with the "rising" fever, and so long as our list continues as it is, crowded with honest, promptly paying subscribers, there is not much probability of its soon being infected with the contagion.

### A Soldiers' Dinner and a Big Speech.

On Thursday last, Mr. John Dean, of the National House, gave a dinner to a number of veteran volunteers of Co. G and Co. I 5th, P. R. C., who enlisted early in the war against the rebellion. We had the pleasure of being present, and of enjoying the good dinner provided for the occasion—the table being loaded to running over with good things generally. After the party had done justice to the eatables, Capt. Harrison presiding, entertained a motion that W. W. Gray, Esq., address the soldiers, which of course was unanimously agreed to, and Mr. Gray rose and did address the soldiers in a speech of an hour and a half in length, and closed with a half just about commenced in good earnest. We don't know that we were ever better, if as well, pleased with an address and we are very sure the soldiers, and all others who had the pleasure of hearing the "Yankee orator," were equally as well pleased. The company adjourned with three cheers for the dinner, the host and hostess and our country.

### Accident.

On Friday last, Mr. Samuel Molatt, an employe on the Penna. R. R., attempted to jump on the noon passenger train at this place, going east, after it had got in motion, and was thrown under the cars, one wheel passing over his right arm above the elbow breaking the bone in three places. He was also slightly injured on the head and right ankle. Drs. Luden and Snare were soon at the depot and took the arm off near the shoulder. The unfortunate man was then taken to comfortable quarters at the Jackson House where he received the kind attention of Mr. Morrison and family. Mr. Molatt has a family residing at Millerstown, Perry county.

### Our Railroads.

The annual report of the Railroad Department of the State presented to the State Legislature, gives gratifying evidence of the prosperity of the different roads. The receipts of the roads in the State for the year amount to the sum total of \$40,523,571.45. The expense for the same period were \$20,602,804.56, leaving a balance on the profit side of \$19,920,766.89, which is nearly half the total earnings. Of this the receipts of the Pennsylvania Railroad amounted to near \$12,000,000, while the expenses were about half that sum. The receipts of the Passenger Railways in Philadelphia, for the year, amount to \$1,818,218.20, leaving a balance on the profit side, after deducting expenses, of \$546,173.58.

### Perpetual Right of Way.

Perpetual right of way or corporation in the world can show such a profitable balance sheet, in the business of one year, as that exhibited by the Pennsylvania Railroad. The business of the road during the past year has been immense, and has been managed in the most skillful manner. The Penna. R. R. is of more importance to the General Government than any other railroad in the country, as it is the safest and most direct connecting link between the East and West.

### The Above Shows, in a Very Decided Manner, the Difference in the Progress of Affairs between the North and the South.

While the Southern roads are wearing out and growing dilapidated, and no material to repair them, ours are prospering beyond all precedent in this department of enterprise and industry.—*Altoona Tribune.*

### Removing West.

We understand that Mr. Samuel J. Hackedorf, one of the Directors of the Poor of this county, intends to move west in the spring. This will leave a vacancy in the Board and it is necessary to elect two Directors next fall, in the place of Messrs. Henderson & Hackedorf. Mr. Hackedorf is one of the best men in the lower end, and we regret to lose him as a citizen of the county.

### The Parlor Matches.

superior to any other kind in the market, for sale at Lewis' Book Store.

### Major Osterloh left for New York on Friday night last, where he was ordered to report for duty as Paymaster in the Navy.

### Our Soldiers.

While we speak with all due praise of the deeds, and admire the courage and evidence of devotion to country in the re-enlisted veterans, we should not be unmindful of those who are still on the field. Their term of enlistment will soon expire, and after three years of the most exciting interest and adventure that some of them will, perhaps, never again be destined to witness, they too will return to enjoy once more the comforts of home. If these braves do not again enlist, that is no reason they should be censured or any the less honored or admired. But we cannot think that any man can be so false to the welfare of the Union soldiers as not to fully appreciate the services they have already rendered their country, and give them a cordial reception when they come marching home.

### St. Valentine's Day.

Sunday last, the 14th, was St. Valentine's day, held in remembrance as the birthday of a Pope of that name. It is said that on this day the birds choose their mates. The prevalent custom of sending Valentines at this season, was fully enforced here during the past week, and if sending Valentines is any omen of the desire for a "partner," we think that many lads and lassies will ere long be wedded in the sacred bonds of conjugal love.

### Military Aspect.

The goodly number of soldiers, veteran and recruit, wearing the attractive "blues" gives our town quite a military appearance, like unto the days of Camp Crossman, Camp Juniata, and still latterly of the camp of invalids. The general jollity of the "bold sojour boys" breaks the usual monotonous quiet here, and every one is lively.

### Dedication.

The new Lutheran Church in Allentown, Mifflin county, will be dedicated to the service of God on Thursday, Feb. 25th. A number of ministers are expected to be present. The Rev. C. Leply of Williamsport, Md., will preach the dedicatory sermon. Services to commence at 10 o'clock, A. M. A general attendance is invited.

### Painful Accident.

On Friday week last, as master Frank Briggs, son of Jonathan Briggs, of Shirelysburg, was descending from the haymow, he slid upon a fork, which had been left standing upright against the mow. One of the prongs passed entirely through his right thigh. The little fellow heroically withdrew the iron himself. He is about eleven years of age. We understand he is recovering.

### Enlistments.

In almost every section of this county the enlistment fever has raged since the Proclamation of the President. The great inducement, bounties, has caused many a man to volunteer, until our quota is nearly full. We trust all who have the means—the mean dollar—will give liberally, and all that are able will accept of it, and take to themselves the honor of saving mother Huntingdon from the draft.

### Income Tax.

Instructions have been issued to U. S. Assessors that to insure an early completion of the annual list for 1864, they instruct their Assistants to begin at once the collection of income returns in their respective divisions. That is the tax due on incomes for the year ending December 31st, 1863. Persons liable to an income tax should get their affairs in order at once, to be able to make their returns without delay, when called upon.—The statement should be prepared with great care, and should set forth the entire income for 1863, from all sources; with the whole itemized statement prepared beforehand, and they can be aided by the Assistant Assessor in putting them in proper shape in a few minutes. Returns will have to be made under oath.

### Subsided.

The individuals who were terror-stricken by the number of accidents on the Penna. Railroad during last month, have now subsided and dispelled their superstitious fears.—The less frequency of smash-ups produced by close investigation and strict care and observation, has also removed all unjust accusations, and renewed the confidence of travelers in the ability of those who have the control and management of the Road. A better-conducted and safer Railroad than the Penna. Central cannot be found.

### Veterans Returning.

After a short stay of peace and pleasure to the veterans of this place are returning to the field once more. Two years ago or more they left us with little or no idea of a soldier's life; but, impelled by a sense of the momentous importance of the demands of the crisis, and endowed with a spirit of duty and devotedness to their country, they met and nobly fought the enemy. May they return to aid in giving the death-blow to the now tottering rebellion, see the supremacy of our Government established and acknowledged throughout the South, and come once more to their homes to enjoy the blessings of peace they fought to obtain!

### The Cassville Seminary.

We have neglected for two weeks past to notice that this institution will be open for the reception of scholars on the 4th of April next. Mr. Geo. F. Davenport, the principal, we are assured is fully competent to give general satisfaction. For particulars, address Mr. Davenport at Cassville.

### Wm. B. Ziegler, Esq., of this place, has purchased the Monroe Furnace, and is making arrangements to put the works in operation again.

### The 110th.

We observe in town a few re-enlisted members of this gallant regiment, who have returned on a furlough for several days. These heroes of a well fought campaign should meet with the most hearty and flattering welcome from the friends of the soldiers.

### Destroyed by Fire.

We learn that the residence of John Dougherty, Esq., at Mount Union, was destroyed by fire on Sunday evening last. We have not learned particulars.

### Out of the Draft.

Huntingdon borough has put into the army within the past two weeks, between thirty and forty new men, and we are informed that the muster rolls at Harrisburg now gives the borough an excess of at least eighty-five men to meet any future draft.

### Agents are in town from many townships of this county, and from Blair, Mifflin, Cambria and York counties, picking up men at good local bounties. The "boys" are pocketing the greenbacks and changing their clothing rapidly.

### A rebel officer jumped from a train at Mill Creek on Friday night last, and made his escape. Another jumped from the same train this side of Pittsburg, and was so badly injured that he died soon after.

### Lieut. Will Cunningham, of the 110th, is at home on furlough, looks as if soldiering agreed with him. In deed all the "boys" look as if they enjoyed better health than the "home guards."

### Ar. Adams Express office has been established at Coffee Run, and Simon Cohn appointed Agent. It will be quite a convenience to the people of that neighborhood desiring to ship or receive packages.

### Town Lots for sale in Mt. Union.—See advertisement.
