Book of Plain Rules and Culculations for Business Op-ations, by Martin M. Robrer, Practical Surveyor and Omergancer, New Edition, published by J. B. Lippin oft d Cn., Philadelphia. cott d'On. Philadelphia.

This work contains 201 pages, and upwards of 500 linles and i xamples, entirely and thoroughly practical—ch wards every day in the common pursuits of lineises. In the selectedy passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the hathlest beak of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full anstated in a plain manner, so that when a parallel case series those referring to the work will find no officulty in solving it; in a word, the general arrangement of the CALCULATOR is simple that any one who know how to add, subtract multiply and divide, can easily solve any ordinary example that a fase in budiess, or arrive at 11 et true result of any estimate required.

dinary example that arise in business, or arrive at 11 e true result of any estimate required.

The chi-f aim of the author has been to exchan theory and philosophy in figures, singing only a facts and simplicity, believing that business men care little about spending time is discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is, a key to practical business calculations—it is, in the hand-of the business man what the key to mathematical works in the hands of the teacher in the school room—it facilitates time and insures correctness.
