We trust all the scholars will be greatly benefitted by the instruction the competent practical teachers will impart.

During the greater part of last week we had most disagreeable weather. In the forepart we had another deep fall of snow-"about a feet." In the latter part of the same we had snow and rain together. The results though disagreeable were, however beneficial to the rising crops.

Unseated Lands. We this week present to our readers in the advertising columns a list of the tracts of unseated lands in the different townships, together with the several sums, which are the arrearages of taxes. The sale of the tracts, For the Sanitary Commission, to be held according to notice, will commence on Monday, the 13th day of June next.
