HUNTING DON, PA.

Wednesday morning, April 27, 1864 LOCAL & PERSONAL.

UNION COUNTY CONVENTION. The voters of Huntingdon county in favor of sustaining the Administra-· tion in its efforts to put down the re-DAY , bellion inaugurated by Southern traitors, and opposed to Secession, its advocates and apologists North or South. are requested to meet in their respective boroughs and townships, on Saturday, the 30th April next, at the usual places and times, and elect two delegates to represent them in a County Convention, to be held in Huntingdon on WEDNESDAY the 4th of May, to elect Delegates to represent this Congressional District in the National Union Convention to be held in Baltimore on the 7th of June.

WM. MOORE, Chairman of Co. Com.

April 25th 1864.

Rebels Captured. On Saturday last a party of rebels entered this place, for what purpose is unknown to us. Two of the number were arrested and lodged in jail, to await further disposition; the remainder made their escape, to be arrested, we hope, in some other locality. We do not deem it safe policy to allow rebels, who profess to be deserters, to travel at large through the country especially at this time, when movements of a raiding character are on foot. It is best to be sure that such men are descriers seeking work and protection from the North, and even to a few of them. then to watch their actions with scrutiny. We commend our officers for their promptness in arresting these ray-so "runaways."

The Draft. For the information of our readers, in general, but more particularly for the "itchy" ones, we will state that the draft, which always is to be, and yet is not, has again been postponed till the 1st of June. This is undoubtedly the last postponement, and the last chance for those who have any dread of being snatched by the 'tongs' to voluntarily shoulder the musket. There is now, we may say, but one alternative; to take 468 dollars and a surplus in bounty money, for three ceived with an understanding between years' service, or to pay 300 dollars in a moment from a hard-earned sum.

The New "Ting" There will soon be an abundant supply, it is hoped, of pennies, to meet all demands for this necessity - small The Stamp Tax is regulated by the actual value of the land conveyed. son, enter the army.

Trial of Peter Kinney.

The trial of Peter Kinney for the murder of his wife, took place this April court, and continued a week .-The case was interesting, and the trial, in our opinion, full and impartial. Having been found guilty of murder in the second degree, he was sentenced to eight years confinement in the western Penitentiary, whence he was taken by Sheriff Johnston.

Court. Court adjourned on Wednesday last till the second week in August .--The trials on hand this Court brought a considerable crowd to town. We are thankful for the favor and patronage shown toward us by our friends. Such patronage we carnestly solicit for every Court.

We now believe that spring is fairly on her way, and that ye tillers of the soil need not fear for any strayed wintry blast to come o'er the main to desolate the fruits of their labor, nor destroy the seed and plant now entrusted to the care of Mother Earth If you do have any such fear for the results we advise you not to mope over such an idea, but prepare for the worst as well as for the best.

A Model Improvement.

If our business men wish a good and beautiful model for an awning to adorn their dwelling and increase attraction to their store, just call and take a peep at the one now gracing our establishment, at the north-west corner of the Diamond. Free sight, free pattern, and free action to do

Preaching in the German Reformed Church Sunday evening next.

We are daily surprised to hear of what is the cause of it, nor can anyone else, except those who deal in the oily substance, and who wish to make money (honestly, of course.) In this place it has risen to thirty five cents and in the cities is from forty to sixty cents per pound. If it continues to increase in price the community will cease spreading their bread, and be more economical in the culinary use of the article; then the speculators will, perhaps, repent. Anti-butter-eating societies will form, and the farmers who have formerly made money by selling butter, will then have but a "poor show." We hope all dealers in this article of consumption will take warning, and be more reasonable in

their prices. arden Making.

While the weather continued favorable garden making was common in this place. Without taking into consideration the value of the products of the garden, it is generally admitted that there is nothing so attractive as a well laid garden, the different vegetables and plants in which, when they have grown to blossoming maturity, display life and beauty in every part.

Notes payable in merchandise must be stamped. The parties must esti-mate the value at the time the note is given. Promissory notes given for sums less than twenty dollars must be stamped. The twenty dollar exemption applies only to Inland Bills of Exchange, Drafts, and Orders for the

payment of money.

Promissory Notes, by the act of March 3d, 1863, are defined to be, "Any memorandum check, receipt. or written or printed evidence of an amount of money to be paid on demand, or at a time designated. Promissory Notes made payable on demand, or a few days after date, but given and rethe parties that payment will not be required within the time specified, will be invalid and of no effect, unless stamped at the rate of 10 cents for every \$200, or fractional part thereof Articles of Agreement.

GREAT CENTRAL FAIR! For the Sanitary Commission, to be held in Philadelphia, in the first week of June next.

PHILADELPHIA. March, 12th, 1804. Restaurant Department. The co-operation of benevolent and patriotic citizens of cennsylvania, New Jersey and Delaware, and elsewhere is invited, in our efforts to make this more remunerative than any Fair that has preceded it. These Fairs are resorted to as practical means offered to every one to take part in a great and humane work. Let no one, therefore part in a great and humane work. Let no one, therefore, allow this opportunity to pass, of contributing something for the benefit of the National Soldier in the deld; and though the gift may seem small when alone, it soon becomes efficient when combined with numbers. We ask for donations of any and every article, the produce of the Farm, Lake, River, and Ocean, and of foreign importation; of Fruits, fresh, dried, and preserved; of Vegetables, Chickens, Butter, Eggs, Beef, fresh and smoked, Tongues, Hams and Pork, Lobsters, Crabs, Oysters, Clams, Fish fresh and salt. In truth, there is nothing which may contribute to the well being of our appetites, which may not be entrusted to our care.

GEORGE T. LEWIS, Chairman,

The Soldiers Aid Society of this place, having accepted the Agency in Huntingdon and neighborhood for the Restaurant Department' of the Central Fair, Philada .- solicits donations of provisions of all kinds from the citi zens of town and country.

Let all aid in this great and good work-send a contribution however small-having the donor's name attached. If left with Mrs. Wm. Mc-Martrie or Mrs. E. Orbison, will be forwarded by the Society.

If any prefer forwarding their own contributious—send by railroad or express—freight will be paid in Philada. Please direct all donations thus: For GEORGE T. LEWIS. Restaurant Department.

OBITUARY.

Died, suddenly, on the 3d of March, at her residence in Headderson township, MAIT JANE GROVE, wife of David Grove and daughter of Daniel Protzman, of McConnellstown, aged 29 years, 7 months, and 12 days.

Thus a home has been desolated by the hand of Doath, a husband berett of a loving companion, and two little children deprived of a mother's watchful love. She who was the light of that family circle has fallen. Two aged parents and a teider sletch have been made to weep over the early grave of one in whom their love was, perhaps, too much placed. Thus from Friendship's "shining circle" tho geoms fadeaway.

Who hath not lost a friend?

There is no union here of hearts,

There is no union here of hearts,

There is no union here of hearts,

That finds not here an end.

To the stricken husband, parents and family, the grief of separation ought to be greatly alleviated by the remonstrance that she was an humble child of Jesus. They must not weep as those who have no hope. To her mother, who asked her a few minutes before he dath whether she did not think her end near, she said, "it is, mother;" and immediately added, "All is well." Comfort your hearts, then, ye stricken ones; your companion—your child—your state, is not lost; only "gone before." Be fathful, "do his commandments," and when Hie's poor day is over, shall you not meet her in that blessel land of which it is said, "And there shall be no more death, nether sorrow, nor crying, neither sorrow, no

FOR MILCH COWS.

The property this Powder possesses in increasing the quantity of Milk in Cowe, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent, and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

The Committee on "Labor, Incomes and Revenues," in
vite co-operation with them in the sarticular work to
which they have been appointed, the properties of the
people are more patriotic than the working better the
men of the country, it is but just and prospect that
should alike have an opportunity to contribute to the obelects of the Fair. The most equable plan for accomplish
ing this, and, at the same time the easiest one, is to ask
for the contribution of a single day labor from all class
os in the community. Many will contribute a day of their
labor willingly, who would not subscribe their money—
To reach overy department of industry and art will be a
work of great labor, but, if attained, will be productive of

The success of the plan will depend upon the hearte on

The Committee is charged with the following duty, to wit:

First.—To obtain the contribution of "one day's labor."

Third.—To obtain the contribution of one day's income from every retiral penus, and prome of fortune—male and penus of fortune—male and femula—living upon their means, and from all clergemen, lawyers, physicians, dentists, editors, autiors and professors; all other persons engaged in the learned or other professions.

Nucle of this work must be performed by the personal

or to be associated with the Committee in carrying out this plan

The Committee feel the responsibility of the work they have undertaken, which, to be ancessful, will require a very perfect ramification of the phenomental they therefore call upon all entrest people, to assemble themselves to require the axery town, townshift suid county-ward term organizations of laddes and genificant to co-persis with them in this great work and labor of love. In the manufacturing counties, the equi and it regions, and in the agricultural districts,—specially, let there be organized tions in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and felle a fighting the battles of their country in the armies of the nation.

The work of this Committee may be presented where no other offer can be made for the fair, as in the mines of the call regions. portable nuclei could be produced for transportation—indeed, there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach thom.

The Committee cannot close, without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to secury the benefit of the day of labor from all within their control.

The Committee deem it unnecessary to do more, than thus to present the subject to the people of the three States Laured. In the coming campaign of our armies, the labors of the "Saviran Commission" will be greatly sugmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. So large a force, scattered over regions to which the men are unacclimated, must necessarily carry along with it a large amount of sickness, suffering and death, to say nothing of the gathered horrors of the lattlefield.

These sufferings, it is our bounden duty, as men and

clefield.

These sufferings, it is our bounden duty, as men and

FLAX. FLAX.

HE HIGH PRICES RULING FOR Cotton Goods has compolled public attention to be mor especially directed to the culture of Flax. It can be made by some attention, one of the most valuable products farmer can produce; an acre readily producing 50 to 60 Dollars worth of fibre and seed. Great care should be taken by growers to have their Flax spread very thir when rolling; when watered sufficiently on one side, i should be turned, and subject to exposure until all the stalks get a grey color, and the lint readily separate rom the wood by a gantle rub.

It should on a very dry day be fied in bundles; and i then ready for the mill. As a general thing too much seed is sown on an acre. Unless the ground is very rich one Bushel per scre is sufficient. If the ground is very strong one and one fourth bushed is ample.
