THE HIGH PRICES RULING FOR SPRING AND SUMMER Cotton Goods has compelled public attention to be spore by some attention, one of the most valuable products s armer can produce; an acre readily producing 50 to 60 collars worth of fibre and seed. Great care should be aken by growers to have their Flax spread very thin when rolling; when watered sufficiently on one side, it should be turned, and subject to exposure until all the stalks get a grey color, and the lint readily separates

It should on a very dry day be tied in bundles, and is then ready for the mill. As a general thing too muc seed is sown on an acre. Unless the ground is very rich strong one and one fourth bushel is ample.
