They are a sure preventive of Lung Fever, and a certain remedy for all Diseases incident to the Horse, such as Glanders, Yellow Water, Distance of the sure prevention of t

gy, &c.
In poor, low-spirited animals, it has the most beneficial effect. most penencial effect.

The use of them improves the wind, strengthens the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improving the appearance, vigor and spirit of this noble animal. FOR MILCH COWS.

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thrive much faster.

ROHRER'S PRACTICAL CALCU-Let LATOR,

(Book of Plain Rules and Calculations for Business Operations by Martin M. Robrer, Practical Surveyor and Conveyancer. New Edition, published by J. H. Lippincott & Co., Philadelphia.

Concejanor. New Edition, published by J. B. Lippin-cett & Co., Philadelphia.

This work contains 204-pages, and upwards of 500 Rules and Examples, entirely and thoroughly practical—yel as arise every day in the common pursuits of Business. It has already passed through a number of editions in rapid succession, and is pronounced by all classes of business men to be the handlest book of reference, pertaining to calculations, that has ever been published.

Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in solving it, in a word, the general arrangement of the GALCULATOR is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschou theory and philosophy in figures, siming only at facts and simplicity, believing that business men care little about sponding time in discussing the philosophy of rules, of the science of figures, deening it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the teacher in the school, room—it facilitates time and insures correctness.

tates time and insures correctness.

THE WORK TREATS OF THE
Measurement of Land, of Lamber, of Brick and Brisk
Work, of Stone and Stone work, of grain and grain bins
of coal and coal bins, of wood, of solids, of liquids of circular, square or irregular vassels, of cistories and vate, of
roding, of plasterer's, painter's, glaver's, pawer's, plumb
or's, paper hanger's and upholsterers work. It treats of
currency and of foreign and domestic exchange, of the
decimal system, of reduction and its extended, application
to business, of simple and compound interest, and their
entire application to business transactions, with the laws
and usaces exverning the same, together with numerous

entire application to business transactions, with the laws and usages governing the same, together with numerous commercial forms—of legal tender, of partial payment on notes, of bunking and bank discount, of equation of payment and of partnership accounts, of assessment of taxes, of weights and measures, of square and cubic measure, of weights and measures, of square and cubic measure, of the square root and its application to business of surfaces, of excavation, and of many other important practical matters not within the scope of an advertisement to mention. IT IS JUST THE BOOK FOR THE

Farmer, the necrolant, the mechanic, the artizan, or the professional man. It has provan a value of the lawer, the justice of the peace, the conveyancer, and real catate broker, to the assessor, the banker, the clerk, to the civil ongineer and the surveyor, to the carpentor and bricklayer, to the stonemason and the plasterer, to paper hanger and upholsterer, to the paper and the titer, &c., &c., each and all will find it adapted to their various wants better than any book published.
