Conveyancer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and apwards of 500 Rules and Examples, entirely and theroughly practical, who as arise every day in the common pursuits of Business, Tehas already passed through an unable of editions in rapid succession, and is pronounced by all classes of business men to be the lundicist book of reference, pertaining to calculations, that has erer been published. Every example in the book is worked out in full and stated in a plain manner, so that when a parallel case arises, these referring to the work will find no difficulty in solving it; in a word, the general arrangement of the CALCULATORI is simple, that any one who knows how to add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

This chief aim of the nuthor has been to eschow theory and philosophy in figures, aiming only at facts and simplicity, believing that business mer care little about, spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able at a moment, by reference, to arrive at the true result. The CALCULATOR differs in this respect from all other Arithmotics of the day and kindred works—it is a key to practical business calculation—it is, in the hands of the teacher in the school room—it facilitates time and insures correctness.

Celebrated "Corrugated Metal" Pens

PENS, made by C. BARWARD, are the best Commercial and School Pens, without exception to any.— They are used by all the principal Banks and Government Departments, Public and Private Schools; also, by the most preminent Commercial Houses throughout the Uni-

have been latroduced into the United States, still a mark-ed preference is given them over all others for the follow-ing reasons: The "Corrugated Metal" PENS do not cor-rede; they will not splatter or cut through the thinness paper; they have an easy glidling motion, a seriality of equally diffusing the ink, softness of point, and great du-rability.

Upon trial we have found Mr. Barnard's Pens to be ex-elient. FRED, PROBT & CO., New York.

Of all Pens I have ever used, Mr. Barnard's have given me more satisfaction, and I can recommend them to the public as being entirely auti-corresive. E. POIRER, New York.
