Book of Plain Rules and Calculations for Business Operations, by Martin M. Rohrer, Practical Surveyor and Conveyencer. New Edition, published by J. B. Lippincott & Co., Philadelphia.

conteganor. New Edition, published by J. B. Lippincott & Co., Philadelphia.

This work contains 204 pages, and upwards of 500 Rules
and Examples, entirely and thoroughly practical "re'n as
arise every day in the common pursuits of Business. It
has already passed through a number of editions in rapid
succession, and is pronounced by all Classes of business
men to be the handlest book of reference, pertaining to
calculations, that has ever been published.

Every example in the book is worked out in full and
stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in
solving it; in a word, the general arrangement of tho
CALCULATOR is simple, that any one who knows how to
add, subtract, multiply and divide, can easily solve any ordinary example that arises in business, or arrive at the
true result of any estimate required.

The chief aim of the author has been to eschow theory
and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the
science of figures, deeming it sufficient for their purpose
to be able at a moment, by reference, to arrive at the
revult. The CALCULATOR differs in this respect from all
uther Arithmetics of the day and kindred works—it is a
key to practical business calculations—it is, in the bands
of the business man, what the key to mathematical works
in the hands of the teacher in the school room—it facilit
tates time and insures correctness.

PENS, made by C. BARNARD, are the best Commercial and School Pens, without exception to any—They are used by all the principal Banks and Government They are used by all the principal Banks and Government Departments, Fublic and Private Schools; also, by the most prominent Commercial Houses throughout the United tates and Canada.

But a short time has elapsed since

C. BARNARD'S PENS
have been introduced into the United States, still a marked preference is given them over all others for the following reasons: The "Corrugated Metal" PENS do not correde; they will not splatter or cut through the thinnant paper; they have an easy gliding motion, a certainty of equally diffusing the ink, softness of point, and great depailsty.

The following testimoulals, selected from numerous others, are respectfully submitted:
I have used the Metallic Pens of Mr. C. Barnard and I have used the Metallic Pens of Mr. C. Barnard and highly approve of them.
