CHANGE OF TERMS OF SUBSCRIPTION.

Now that the great contest is over. and the Country is safe, we propose to do ourself justice by demanding a fair price for our labor and for the cash article we furnish our readers weekly.-Publishing a newspaper, the size of the Globe, with the same amount of reading matter, for \$1,50 a year, is a losing business, a fact we have been aware of for some months, but until it was decided at the late election that we had a country we cared little whethor we lost or made in our business .-We now have a country-and we must live, and to do so we, must ask our friends to help us The cost of printing paper, ink, labor and living, is more than doubled since the war be gan, and our prices have been the same as they were before the war commenced, and if we should continhe to demand no more for our paper, etc., than we have done heretofore, very soon the cash war prices we are required to pay, would out-flank us and compel us to surrender to an encmy we have been fighting the last four years. To protect ourself, to live and let live, we now make the terms of subscription to the Globe \$2.00 per year, or \$1,00 for six months, payable in advance. All old subscribers in arrears after January Court will be charged at the rate of \$2.00 a year to square up-those paying up before or during Court weeks will be charged but \$1,50, when they will be required to comply with our new terms if they desire to continue as subscribers to the

Our friends cannot complain of the advance in our terms, as every country paper in the State of the size of the Globe, and some with not half the reading matter, has advanced from \$1,50 (old terms,) to from \$2,50 to \$3,50 a year in advance.

All who desire to discontinue their subscription will immediately acquaint us with their intention.

New Terms for Advertising and Job Work.

The publishers of newspapers, in this county, owing to the increased prices of paper, and all articles connected with the business, have adopted the following rates:

1st. That the rates of Advertising be from this date, for one square, of 12 lines or less, one time, 75 cents; three times \$1.50; and 50 cents for each subsequent insertion.

Administrator's and Executor's No

tices \$2.50, and Auditor's Notices \$2,00. The cash to accompany all these notices.
2. That Job Work, from this date be, ghth sheet, \$1,25; one fourth sheet, \$2,50; one half sheet, \$4,00; and additional copies half price. Blanks \$2.00 per quire.

3. All Advertising and Job Work now due and remaining unpaid on the 1st day of February, 1865, will be charged the above rates. All advertising and job work payable on contract.

A Painful Misfortune. A Kerosene Oil Lamp Explosion.—A more serious calamity never resulted from the use of coal oil in the common Lamps than that which comes under our notice in the case of the family of Thos. P. Campbell, Esq., of this place, on Monday evening, the 5th. While the family were sitting in the room, the light from the lamp began flickering as is sometimes its wont, (caused by the wick being too short or not saturated sufficiently with oil,) whereupon Capt. J. D. Campbell approached to the lamp for the purpose of extinguishing the flame, when the fire communicated with the Captain's face. The oil upon the Captain's hair, face and shoulders becoming ignited, it was with difficulty the fire could be quenched, and it was # mot until his hair had been totally burned and his face dreadfully scorched that a bucket of water dashed upon his person [prevented further injury. Other members of the family were slightly burned, and the oil spilled upon the floor being on fire was making rapid headway in destroying the carpet, but the flames were soon extinguished. A child sleeping in a cradle in the room was rescued by a gentleman before any injury was inflicted upon it.

We were pained to learn that Mr. Campbell has been greatly disfigured, and it is uncertain when he will recover from the effect of the sad mis-

THE HIGH PRICES RULING FOR Cotton Goods has compelled public attention to be more specially directed to the culture of Flax. It can be made by some attention, one of the most valuable products farmer can produce; an acre readily producing 50 to 60 Dollars worth of fibre and seed. Great care should be taken by growers o have their Flax spread very thin when rolling; when watered sufficiently on one side, it should be turned, and subject to exposure until all the stalks get a grey color, and the lint readily separates from the wood by a gentle rub.

It should on a very dry day be tied in hundles, and is then ready for the mill. As a general thing too much seed is sown on an acre. Unless the ground is very rich one Bushel per acre is sufficient. If the ground is very strong one and one fourth bushel is ample.
