PEACE.

We have heard the numerous ru more of peace that have been set affoat by certain thoughtless individuals upon hearing of the Blair mission, only to be deceived. It has been revealed that peace is not wanted by the South, but only an "armistice of ninety days." For such a hopeless mission to termi nate in such a despicable result is no more than should have been expected by the people of the North. All can readily see the absurdity of granting to the rebels a truce of ninety days. It is always the case of the vanquished to cry for quarter when he discovers! he is falling to the ground, so with the rebels; they behold their cause drooping and withering, and now as the final resort they ask for an armistico of ninety days. A rumor through rebel believe that not the slightest intima-The thing would be ridiculous. The the disintegration of the rebel governidea would be absurd. We cannot falter when victory urges us on. We cannot delay, and thereby throw open war four years more by so doing.

The total quota is forty-nice thousand seven hundred and sixty-one-in round numbers, 50,000. The quota of the XVIIth District-composed of the Counties of Cambria, Blair, Huntingdon and Mifflin-is one thousand six hundred and four. The number of names on the enrollment lists of the District is said to be about eight thousand; which will make the proportion of our draft about one man in five.

Gov. Curtin has been making exertions and devising ways and means for avoiding a draft for so large a number of men. He thinks if he is allowed to entire let stolen at Nor olk at the becommission officers to recruit, or to raise whole Companies for particular Regiments in the field, that he will have little difficulty. He thinks that if power is granted to the Governors of the States, the greater proportion of the number under the last call of the President, if not the whole three hundred thousand, could be raised by volunteering; and that even in the event of their failure, the whole responsibility would rest with the Governors, who seem eager to assume the responsibility. Several loyal Governors, among them Governor Andrews of Massachusetts, have expressed their acquiescence in this plan.

P. S .- Gov. Curtin has issued an order authorizing volunteering until the 7th of this month; bounty for one year \$100, for two years \$200, for three years \$300-recruiting officers and men to report at Camp Curtin.
