LONGING TO REST. Open, O gate of sleep!
I am weary, and fain would go
Where hearts never sorrow and eyes never

weep,
Bitterly, tears of wee;
I would rest in the shadow cool and deep Where the crystal waters flow.

Haste thee, O haste my soul! For the earth grows dark with dread;
The billows are high that round thee roll,
And thy beacon light hath fled:
I watch and weep for the distant goal, The peace of the quiet dead.

O, woe for this saddened earth, This storm-darked world of ours! How the frost and blight nip the buds birth,
And blast in their bloom the flowers! How the lip of laughter and voice of mirth Pass with the morning hours!

For heavy and dark doth lie Death's shadow on all below : The changing beauty of earth and sky
Decks but a house of wee: There's a fount of tears that is never dry-A rest that we never know.

Then away to the beautiful land Whence the shadow for aye is fled! I shall meet the loved on its sunny strand, The loved and the long lost dead,
I shall welcome a bright immortal band
By the angels gently led.

Then open, O gate of sleep! I am weary, and fain would go, Where hearts never sorrow and eyes never weep. Bitterly, tears of woe.

I long to rest in the shadow deep Where the crystal fountains flow

PETROLEUM.

Perhaps no development connected with the recent material progress of our country is of more importance than that concerning the petroleum discoveries in Pennsylvania, West Virginia, Ohio and Kentucky, and as the matter has now assumed a national interest 18 of the subject may not be inappropriate. Units wonderthy after the subject may not be inappropriate. world wide distribution of the precious product, the strange development of oil in regions widely apart, one after

of the fever all betrayed the same symptoms as the gold mania. It was predicted that the gold fever would subside and leave nothing but it has created flourishing cities and communities in California, Nevada, Oregon, Washington, Colorado, Arizona, Montana, British Columbia, and Australia, and every fresh discovery of agents as elements of colonization. So it is with petroleum. It has made Venango county such a scene of prodigious prosperity that he who talks now of the matter being a humbug must be rather short-sighted. There are the towns built up wholly by these dis-coveries. There are the railroads solely built to convey petroleum to market, and so blocked up with it that they cannot furnish rolling stock enough to accommodate the trade. There are the barrels, millions of them, all over the region, oozing with petroleum. There are the wells, yielding the oleaginous fluid in endless quantities. There THE undersigned announces to the are banks, newspapers, hotels, insurtrade that he continues to manufacture and import irect from the most colebrated quarters in France, the ance companies, etc., all resting on the products of those wells. Those who desire can see and judge for themselves. which he offers at reasonable rates, and guarantee asis-faction to the purchaser. Also, overy number in uso, of the celebrated OLD AUKER BRAND BOLTING CLOTH. Orders by mail promptly attended to, and goods forwar-ded by railroad, canal, or express if desired. Nov. 11. KEPNER, Nov. 23-3m No. 10, West State street, Harrisburg, Pa. Through all the season of naviga-tion the Allegheny river has been run-

ning crowded with vessels of every description. laden with petroleum. Pittsburg, which used to be the Iron City, thinks now of little else than pe troleum. Barrels of it swarm everywhere. Refineries multiply. She has become one of the great distributing depots for the trade. The operators clung to Oil Creek as long as a foot of ground was to be had on either side of it, or near it, and there they sunk wells and erected engines with a zeal that can only be compared with that of the quartz gold miners. From Oil Creek

cept in Venango and the points imme- A GREENHORN ON A RAILROAD. diately adjacent. There petroleum is the sole topic. Nothing else is known, seen or heard of. It is everywhere,

and Greene, where many companies unless it was a regular he devil, snorflourish. Here, too, the boring has tin's moke all 'round and pantin,' and spread to all the adjoining region, away heavin,' and swellin,' and chawin' up off into West Virginia. For the pro-duct of this district the Monongabela feller stood in a house-like, feedin him duct of this district the Mononganeia river is the channel of transportation. But the great West Virginia oil company is far south of this along the little of the more he wanted and the more he snorted. After a spell the feller catched pany is far south of this along the little Kanawha and Hughes rivers, and all the tributary creeks. There the oil set up a yell that split the ground for has been gathered as it oozed from the carth for half a century or more. Now it is bored for in scientific style, and it is bored for in scientific style. every foot of ground is occupied by wells of speculators. The mania has spread in West Virginia to such an oxtent that we really think the area coverage of the speculators. The mania has specific to the string of vehickles; I wasn't skeered but I had three chills and a stroke of palsy in less than five minits, and my face had a curious brownish-yellow-

long period been known to coze from Irish weman, and she gave a tremen-invaded the cellars of the house by the ground and flow off into springs of water, creeks and swamps. But the great discovery was not owing to this, the cars was a jumpin and toaring the cars was a jumpin and toa the oil having been struck at a considerable depth while boring for salt.

Over an immense area of country it has been subsequently obtained by boring and in all these cases the same geoliogeal formation has been found.

The query often asked where was all this oil deposited before the discoveries, that we now find so many thousands of wells able to go on numbing it with.

Along nigh unto forty thousand miles and been presented at Mr. Girard's death, and romained to direct his function in the nearly thousand will death, and romained to direct his function in the death, and romained to death, and romained to direct his function in the death, and romained to direct his function in the death, and romained to direct his function in the death, and romained to direct his function in the death, and romained to death, and romained to death, a wells able to go on pumping it with-out exhaustion? is completely and that's what made me mad, and I was swered by reference to the depth at mad as thunder, too. Passing south of Pittsburg, we find another petroleum region alorg Dunkard Greek, in the counties of Fayette and Greene, where many companies and Greene, where many companies are got the depot, I went and the depot, I went around to get a look at the iron hoss. Thunderation! it warn't no more like a hoss than a meetin'-house. If I was a poin' to describe the animule, I'd say the kingdom of Dahomey. They darned if I know what it looked like—take place also very frequently in the kingdom of Abbeckuta, Ashantee, and Benin also situated in Africa, and this is the nineteenth century. Unfortunately, human sacrifices are not confined to the kingdom of Dahomey. They darned Greek, in the counties of Fayette and Greene, where many companies "When we go to the depot, I went These monstrous scenes occur three in the same region as Dahomey,

OPENING GIRARD'S WILL.

The January number of the "North The January number of the "North American Review" contains an interesting article on Stephen Girard and his college in which the following graphic account is giving of what took place when his will was read. The people of Philadelphia will be amused to learn how his affectionate relatives" given his estate to the orphans and the

poor, rather than to them.

Death having dissolved the powerspread in West Virginia to such an extent that we really think the area covered there is more extended than in Pennsylvania, although the product is perfectly unaccountable. Well, says yet nothing at all in comparison. Then there are oil districts in Ohio, Kentucky and Canada, of which as yet little is known.

The astonishing feature in this development is the vast area of country in which petroleum has undoubtedly been obtained by boring. It is true that in the leading points oil has for a long period been known to coze from larged a brown and she gave a tremental larged and side by a curious brownish, yellow green bluish color in it, which was perfectly unaccountable. Well, says doen able to resist it was to be seen how far his Will would be obeyed, a seat in the nearest wagin, or car, as they call it—a consarned long, steam boat lockin' thing, with a string of hold about a man and a half. Just as done with his money, there was a smaller number within the house, the kindred of the deceased, in whom this curiosity raged like a mania. They invaded the cellars of the house by

this, the desire to learn its contents rose almost to fury. In vain the executors reminded them that decency required that the Will should not be opened till after the funeral.

They even threatened legal proceedings if the Will was not instantly produced; and, at length, to avoid a public scandal, the executors consented to have it read. These affectionate relatives being assembled in a parlor of the house in which the body of mouths slopped open, and the fellers their benefactor lay, the Will was taken from the iron safe by one of the ken from the iron safe by one of the executors.

When he had opened it, and was about to begin to read, he chanced to look over the top of the document at The King having announced to the cr heard of his saying that no one people that in a short time, to honor the names of Agougoro, his ancestor, they had forgotten or disbelieved it.

and King Gezo, his father, forty prisoners belonging to the rebel tribe of all tended to confirm their hopes,
