gr, ac.
In poor, low-spirited animals, it has the most beneficial effect.
The use of them improves the wind, strengthons the Appetite, and gives to the Horse a fine, smooth and glossy skin—thus improv-ing the appearance, vigor and spirit of this noble animal.

The property this Powder possesses in increasing the quantity of Milk in Cows, gives it an importance and value which should place it in the hands of every person keeping a Cow. By actual experiment it has proven that it will increase the quantity of Milk and Cream twenty per cent., and make the Butter firm and sweet. In fattening Cattle, it gives them an appetite, loosens their hide and makes them thive much faster.
