SUMAC. SUMAC.

WE ARE AT ALL TIMES PRErea to buy SUMAC; will pay cash, or trade, as desired

FLAX. FLAX.

HE HIGH PRICES RULING FOR Otton Goods has compelled public attention to be more specially directed to the culture of Flax. It can be made by some attention, one of the most valuable products a armer can produce; an acre readily producing 50 to 60 Dollars worth of fibre and seed. Great care should be taken by growers bave their Flax spread very thin when rolling; when watered sufficiently on one side, it should be turned, and subject to exposure until all the stalks get a grey color, and the lint readily separate rom the wood by a gentle rub.

It should on a very dry day be tied in bundles, and i then ready for the mill. As a general thing too much ced is sown on an acre. Unless the ground is very rich one Bushel per acre is sufficient. If the ground is very strong one and one fourth bushel is ample. Dec 16, 1862.
