Scratchings.

A camp meeting is to commence at Bloody Run on the 19th of August.

Court commences here next Monday. We expect to see many friends in town on important business.

Col. Thomas A. Scott and lady returned on Friday last from a vacation at Bedford Springs.

Saturday next the township and borough elections for Union delegates will be held, and on Tuesday the 15th day of August next the delegate convention will be held in this place.

Nicholas Crosswell, Chairman of the Democratic County Committee, has issued a call for a Delegate Convention at this place, on Wednesday, August 16th.

Watermelons, cantelopes, peaches, green corn and tomatoes have made their appearance in this place.

Strenuous endeavors are being made by some of our young men to effect the organization of a brass band.

What they principally want is to have extended to them the liberality of our citizens, and we suppose they will soon learn the rest, in the way of becoming good musical "blowers."

We are pleased to see that a meeting of the Agricultural Society of this county to be held on Tuesday evening in August court week, will have under consideration the subject of a County Fair this fall.

The office of the Ohio Oil Basin Company on the corner of Hill and Bath streets, and in the centre of the Diamond, has been tastefully fitted up, and the arrangements are so far completed as to shortly admit of occupation.

We hope the company as much success in the business as some of their lucky brethren around us.

The friends of the soldiers and those who desire to keep in lasting memory the record of our fallen patriots in the past struggle, will not forget that a meeting will be held in this place next Monday, the 14th day of August, for the purpose of organizing an association to erect a monument to those who fell, in defense of liberty, during the late rebellion.

We refer our readers again to the call of the chairman of the Soldiers' Monument committee.

The board walk in new town has been finished, and we now expect to see the opportunists taking advantage of the probabilities afforded for a pleasant walk on a substantial platform.

It was necessary that this board walk should be refitted at this time, as the probabilities are, before many years we will have a brisk town in that neighborhood, and the walk will furnish the means of ingress and egress to the modern villa.

We concur in the following opinion of our cotemporary, the Herald, of Shireysburg, on the subject of our public roads. The fact is too apparent that our roads in certain sections are miserable, and now that a way is suggested to remedy the evil, we hope to see it put in practice.

The article in the Herald refers to the condition of the road between Mt. Union and Shade Gap, and in conclusion makes this suggestion:

"In this connection we declare it our long matured and settled conviction that the present road laws are illy adapted for making and repairing public roads; and so long as the law remains as it is, better roads than we now have need hardly be expected. Let a money tax be enforced, and one or more judicious and skillful Road Commissioners be appointed to employ steady laborers on the roads, at the right seasons and proper places, and with tools suited to their needs, and we venture the prediction that in three years our roads will no longer be a reproach and stigma, as they now are, but will be ten fold better than under the present system, with less than one-half the amount now expended under the radical work-proviso, and Supervisors void of skill and judgment in the art of making roads, as is so lamentably the case under the present law."

At the last meeting of the Board of Relief, they passed a resolution that they would not grant any orders excepting to those families, whose support has been killed or died in the service, and have not yet received a pension, or in cases of extreme necessity where the support of a family is still in the service or in a hospital and has not been paid.

The World Moves.

The wonders accomplished by the soldiers of the Union, in the recent war—the rapid strides in Science and Art during the past four years,—demonstrate conclusively the truth of the above adage.

But in no branch of Science or Art has so much progress been made as in that department of social and political economy, to which belongs the subject of "Life Insurance"—a subject that a few years ago was comparatively unknown, is now sought after by all classes, not only as the most economical investment of a portion of one's income, but the most reliable and only sure dependence when the husband, father or friend is stricken down by the hand of death.

The tables upon which the various rates of premium are based, are the results of the labors of some of the ablest mathematicians the world has produced—the actuaries of the principal life insurance companies—and who are constantly employed in making calculations, out of this branch of science all other departments.

Amongst those engaged in disseminating a knowledge of these facts, and the general utility and advantages of Life Insurance over every other species of saving, we take pleasure in referring to our friend Wm. J. GEISSINGER, Esq., who is acting for the NORTH AMERICA, of New York. He is thoroughly booked up on the subject, and his company is one of the very best in the land. It also possesses some peculiar features—advantages of considerable importance to the insured—

which belong to no other institution. We advise our friends everywhere to see him, and by all means give him a patient hearing.

The prevailing Fashion. Some irrevocable editor down east expresses himself on the prevailing fashion in head gear in this wise:

"We are about to say a few words which we beg our lady friends not to read. It is not intended for them all. 'Twenty years ago!' There is music in those words. Twenty years ago, we saw sights that would look queer now. Possibly it may have been an illusion incident to tangled vision. Our good mothers and grandmothers used to fold together two corners of a bandanna handkerchief, and placing it on their heads, tie the other two corners under the chin. It made a warm, substantial covering for the head at an expense of about eighteen pence. The same fashion prevails to-day—only there's a slight difference. We saw yesterday a little three cornered 'love of a' something that protected the lady's head neither from rain, heat nor cold. It was charming—only cost eighteen dollars! A wad of somebody's else hair depended from the rear by a small pike pole, with a bombshell that she had named this modern bombard a 'waterfall!'"

The Society is rapidly increasing in numbers, there being about eighty members now on the roll.

There is to be a meeting of representatives of the lodges throughout this district, at this place, August 17th.

Agricultural Society. A regular meeting of the Huntingdon County Agricultural Society will be held in the Court House on Tuesday evening of the first week of the coming August Court (15th inst.). The propriety of holding a County Fair during the coming fall will be taken into consideration, and other business of importance to the society transacted.

It is desirable and important that there be as full an attendance as possible of the officers of the Association, as well as of the public generally.

Horse Stolen. Mr. Richard Silverthorn, of Toll town ship, Huntingdon co., purchased a horse (No. 17) at the government sale on Wednesday of last week, and left him standing in a shed connected with the Patterson House. Between the hours of 2 and 4 P. M., the animal was taken away, and not until Monday, the 31st ult., did he receive any intelligence of the stolen property. The horse was ridden by a person dressed partly in soldier clothes to the premises of Mr. Spigelman, in Slim valley, where he was left and subsequently found.—Mifflin Democrat.

Murder at Bedford.—An appalling murder, named Crouse, was murdered at Bedford, on the morning of August 2, by a deserter named Reed, who had been recently returned from Canada.—Some difficulty occurred, a few days ago, between the parties, and this morning they met, on the streets, when Reed drew a revolver. Crouse attempted to pick up a stone to defend himself, when Reed fired—the ball taking effect in the side of Crouse, passing through the heart, and killing him almost instantly. Reed was a notorious Copperhead, and in this murder simply obeyed the teachings of Bedford Copperheadism.
